8. Provide a brief summary and justification for this investment, including a brief description of how this closes in part or in whole an identified agency performance gap. [LIMIT: 2500 char]

As part of TSA's layered approach to aviation security and in accordance with Section 4012 of the Intelligence Reform and Terrorism Prevention Act (IRTPA), TSA will assume from aircraft operators the comparison of passenger information to information contained in the Federal No Fly and Selectee Lists using all appropriate records in the consolidated and integrated terrorist watch list maintained by the Federal Government.

TSA's mission with Secure Flight is to enhance the security of commercial air travel through the use of improved watch list matching. The program's goals are to:

- Identify known and suspected terrorists;
- Prevent individuals on the No Fly List from boarding an aircraft;
- Subject individuals on the Selectee List to enhanced screening to determine if they are permitted to board an aircraft;
- Facilitate passenger air travel; and
- Protect individuals' privacy.

Secure Flight is an end-to-end solution for passenger watch list matching that leverages automated watch list matching, manual review of matches, and coordination with other Federal government partners. Implementing the watch list matching under Secure Flight will help TSA fulfill its mandate to detect, deter, and disrupt threats to domestic aviation or national security.

SUMMARY OF SPENDING

SUMMARY OF SPENDING FOR PROJECT PHASES (In Millions)

1. Provide the total estimated life-cycle cost for this investment by completing the following table. All amounts represent budget authority in millions, and are rounded to three decimal places. Federal personnel costs should be included only in the row designated "Government FTE Cost," and should be excluded from the amounts shown for "Planning," "Full Acquisition," and "Operation/Maintenance." The total estimated annual cost of the investment is the sum of costs for "Planning," "Full Acquisition," and "Operation/Maintenance." For Federal buildings and facilities, life-cycle costs should include long term energy, environmental, decommissioning, and/or restoration costs. The costs associated with the entire life-cycle of the investment should be included in this report.

All amounts represent Budget Authority
