I. Legislative Language

This document responds to the language set forth in House Report 116-458 accompanying the Fiscal Year (FY) 2021 Department of Homeland Security (DHS) Appropriations Act (P.L. 116-260).

House Report 116-458 states:

Long Range Command and Control Aircraft (LRCCA).—The Coast Guard’s LRCCA fleet includes one owned legacy asset that was procured in 2001 and a newer leased asset. The Committee understands that the Coast Guard currently plans to use funding provided in its fiscal year 2020 appropriation to replace the newer leased asset. Before committing to that approach, the Commandant is directed to reassess whether replacement of the older aircraft could be more cost effective and provide added operational capability. The Committee directs the Coast Guard to provide an updated analysis to the Committee not later than 60 days after the date of enactment of this Act.

In addition, the Coast Guard is directed to provide semi-annual updates to the Committee on the utilization of these aircraft, including operating and maintenance costs; dates when the aircraft are out of service for maintenance, and whether such maintenance was planned or unplanned; and the names and titles of departmental officials and non-departmental individuals traveling on the aircraft, including their dates of travel. The first such update is due not later than 60 days after the date of enactment of this Act and shall include the required information for fiscal year 2020.

II. Report

The U.S. Coast Guard’s (USCG) Long-Range Command and Control Aircraft (LRCCA) are operated to ensure that DHS leadership and USCG’s operational commanders can address key mission requirements across our international area of responsibility, including reliable access to secure communications suites during principal movements. Similarly, the aircraft provide the capacity to respond quickly to emergent contingency conditions at all times.

USCG has operated command and control aircraft for more than 65 years and currently owns a C-37A, based on a Gulfstream V (CG-01), and leases a C-37B, based on a Gulfstream 550 (CG-02). The two aircraft are sustained to support “required users,” which include: Secretary of Homeland Security (S1); Deputy Secretary of Homeland Security (S2); USCG Commandant (CCG); USCG Vice Commandant (VCG); USCG Atlantic Area Commander (LANTAREA); and USCG Pacific Area Commander (PACAREA).

Aircraft Operating and Maintenance Costs

Table 1 provides the dates when each aircraft was out of service for maintenance and provides whether such maintenance was planned or unplanned during the second half of FY 2021. Table 2 provides the operating costs for each aircraft during the second half of FY 2021.

Aircraft Utilization Data

Table 3 (C-37A) and Table 4 (C-37B) provide names, titles, and dates of travel of departmental officials and nondepartmental individuals traveling on the aircraft during the second half of FY 2021. CCG, VCG, and Master Chief Petty Officer of the Coast Guard (MCPO-CG) spousal travel was conducted as official business transportation when the spouse was carrying out duties as an Ombudsman-at-Large, and nonofficial reimbursable transportation at all other times. All S1 spousal and dependent travel was conducted as nonofficial reimbursable transportation.
