Appendix 1: Blue Campaign Resources ........................................................................... 8
**Agency Background**

Blue Campaign is a national public awareness campaign, designed to educate the public, law enforcement and other industry partners to recognize the indicators of human trafficking, and how to appropriately respond to possible cases. Blue Campaign works closely with DHS Components to create general awareness training and materials for law enforcement and others to increase detection of human trafficking and to identify victims.

Blue Campaign leverages partnerships with the private sector, non-governmental organizations (NGO), law enforcement and state/local authorities to maximize national public engagement on anti-human trafficking efforts. Blue Campaign’s educational awareness objectives consists of two foundational elements, prevention of human trafficking and protection of exploited persons.

Blue Campaign is a member of the [DHS Center for Countering Human Trafficking (CCHT)](https://www.dhs.gov/dhs-center-countering-human-trafficking), a cross-Department coordination center for countering sex trafficking and forced labor, including the importation of goods produced with forced labor overseas. CCHT’s mission is to advance counter-human trafficking law enforcement operations, protect victims, and enhance prevention efforts by aligning DHS’s capabilities and expertise.

Some Blue Campaign operational expenses are subject to year-end contributions from DHS Component Agencies, thus all translations, material development costs, and language access projects are subject to availability of funds.

**Notice to Employees**

All Blue Campaign employees are required to review this Language Access Plan and are responsible for identifying potential language translation needs among their portfolios. The Language Access Policy Statement and the Language Access Plan will be posted to DHS’ website and disseminated to all Blue Campaign employees.

Additional training opportunities are available to Blue Campaign employees who would like additional information on changing demographics, updated language access plans, new translation tools, and other language/translation resources. New and existing Blue Campaign employees can request a language access training which will encompass justification of existing languages, translation tools and resources, as well as targeted demographics. These training opportunities will be provided on an ad hoc basis and will be coordinated by the Blue Campaign Program Manager and Blue Campaign Language Access Liaison. A training plan informed by the Blue Campaign language access plan, stakeholder engagement, and specific portfolio objectives will be created prior to ad hoc trainings.

**Limited English Proficiency Policy Statement**

Blue Campaign confirms its commitment to following the DHS Policy on Language Access:

It is the policy of DHS to provide meaningful access for individuals with limited English proficiency to operations, services, activities, and programs that support each Homeland Security mission area by providing quality language assistance services in a timely manner. DHS Components, therefore, should incorporate language access considerations into their routine strategic and business planning, identify and translate crucial documents into the most frequently encountered languages, provide interpretive services where appropriate, and educate personnel
about language access responsibilities and how to utilize available language access resources. This Language Access Plan will be posted to Blue Campaign’s external website (Blue Campaign | Homeland Security (dhs.gov)), in an accessible format that is Section 508 compliant.

Blue Campaign produces educational and outreach materials in multiple languages and makes these translated materials publicly available on its website. Translated materials have powerful potential to increase public awareness and reporting. Incorporation of language access considerations into Blue Campaign objectives will be reviewed periodically in accordance with DHS guidelines.

**Language Access Priorities**

Blue Campaign’s language access priorities are as follows:

1. Blue Campaign manually tracks the quantity, type, and languages of printed materials ordered through the Blue Campaign website. Blue Campaign will monitor the demand for language specific materials and ensure those materials remain in stock and are available for digital download.

2. Blue Campaign will partner with the private sector, non-governmental organizations, federal law enforcement and state/local authorities servicing vulnerable communities to create culturally relevant public awareness and education products intended to decrease victimization.

3. Blue Campaign will continue to take a proactive role in the U.S. Citizenship and Immigration Services (USCIS) Language Access Working group and will keep up to date with language access best practices (translations, new technologies, etc.).

**Evaluation Tools/Mechanisms**

Blue Campaign is committed to incorporating effective mechanisms to assess our language access efforts. As such, DHS Office of Partnership and Engagement (OPE) Senior Leadership have reviewed and approved this Language Access Plan. The Blue Campaign Program Manager and a Blue Campaign specialist will be responsible for coordinating and implementing all language access activities.

To evaluate language access efforts and ensure implementation of strategy, Blue Campaign will take the following actions:

1. The Program Manager will designate a Blue Campaign specialist to be the Language Access Liaison. This employee will participate in language access working group meetings and will assume responsibility for the coordination of all language access projects.

2. The selected Language Access Liaison will host quarterly internal meetings with Blue Campaign leadership to report on progress made regarding language access projects.

3. The Blue Campaign will continue to seek stakeholder, partner, and public feedback as part of its efforts to monitor language access. This includes reviewing translation requests presented by external and internal stakeholders who encounter LEP individuals vulnerable to human trafficking.
4. Blue Campaign will continue to utilize a two-factor authentication process for translation services and will identify and utilize trustworthy vendors for translations. The two-factor authentication process requires our translation subcontractors to have translation projects reviewed by at least two native speakers. When possible, Blue Campaign will also utilize the USCIS internal translation verification services to ensure the most accurate translations.

**Demographic Assessments**

Blue Campaign continually works to assess language access needs for educational awareness products and training. Blue Campaign manually tracks the quantity, type, and language of materials ordered through the Blue Campaign website to determine the demand for language translations. Blue Campaign also works closely with DHS component agencies to determine language access needs as requested from field locations and operators.

In addition, Blue Campaign works with Department of State Office to Monitor and Combat Trafficking in Persons to identify those most vulnerable to human trafficking.

**Resources**

Some Blue Campaign operational expenses are subject to year-end contributions from DHS component agencies, thus all translations, material development costs, and language access projects are subject to availability of funds.

**Notice to Limited English Proficiency Persons**

Blue Campaign provides information to the public on the availability of language services in multiple forms.

- **"I Speak poster"**: Blue Campaign’s "I Speak" poster assists literate individuals who are not proficient in English to identify a preferred language. This poster contains more than 60 languages. Law enforcement officers and others can show the poster to potential victims of human trafficking. The poster is available on the Blue Campaign website for download.

Blue Campaign materials and educational products are available for public use and may be downloaded or ordered free of charge on the Blue Campaign website. The website identifies languages available for each awareness product. Those wishing to order materials may do so by submitting a request form through the Blue Campaign website. The option for ordering materials in print form is subject to availability of funds and current inventory. Blue Campaign materials are confirmed for 508 compliance prior to release.

**Current Language Access Activity**

Blue Campaign provides human trafficking awareness training and materials to the public and tailors content for specific audiences. For example, in FY18 the Blue Campaign worked with Native American organizations such as the Center for Native American Youth (CNAY) as well as survivors from the Esselen and Shoshone tribes to determine the type of products, imagery,
and messages that would be effective when creating a poster series for this specific audience. The Native American Communities Poster series can be viewed here. In FY21, Blue Campaign translated its sex trafficking poster in Dari and Pashto in support of vulnerable Afghans arriving in the U.S. as part of Operation Allies Welcome. In FY22, Blue Campaign translated its indicator card, key tag card, and sex trafficking poster into Ukrainian and Russian in support of vulnerable Ukrainians arriving in the U.S. as a part of Uniting for Ukraine.

Blue Campaign regularly supports requests from DHS components to translate and make available awareness materials to LEP individuals. For example, in FY21, Blue Campaign adapted its Human Trafficking Awareness Infographic video specifically for Immigration and Customs Enforcement: Enforcement and Removal Operations (ICE-ERO). That video is now played in English and Spanish at ICE ERO 72-hour-over facilities. Blue Campaign also provided ICE ERO specific human trafficking awareness posters in eight languages including: English, Spanish, Chinese, French, Haitian Creole, Portuguese, Punjabi, and Russian.

Blue Campaign is also a participant of the DHS Committee on Indigenous Languages and will work with the committee to support indigenous languages access initiatives.

To date, Blue Campaign has the following materials available in the following languages (see Appendix 1 for the full list of products available in each language):

Materials are currently available on the Blue Campaign website to download or order at Document Library | Homeland Security (dhs.gov).
