| 12.0 | August 5, 2022 | Added procedures for CISO Council review and approval for all DHS Cybersecurity policy change requests. Added role for Policy Working Group. |

INTRODUCTION

This Attachment to the Department of Homeland Security (DHS) 4300A contains the change request form and procedures to use for requesting changes to any DHS cybersecurity policy document. The forms should be emailed to the DHS Director of Cybersecurity Policy at infosecpolicy@hq.dhs.gov.

CHANGE REQUEST PROCESS

Requested changes to DHS cybersecurity policies shall be submitted to the DHS Director of Cybersecurity Policy at infosecpolicy@hq.dhs.gov for review, and evaluation utilizing the below form. The Policy Working Group, consisting of the Headquarters (HQ) DHS Policy Team, and representatives from the components, will provide the initial evaluation of the request, along with any Subject Matter Expert (SME) input, if necessary.

Policy change requests should be submitted by the component CISO but may also come from other stakeholders such as the component Privacy Officer, CFO, CPO, or CSO. In addition, the CISO Council may task the Policy Working Group to evaluate a particular area of policy and make recommendations for change to the Council.

After initial evaluation, the Policy Working Group will present the change recommendation to the DHS CISO Council for consideration. Requested changes must be approved by a majority of the voting members from the CISO Council.

Requested changes to cybersecurity policy will be presented to the CISO Council on a routine basis, as they are submitted for evaluation by the Policy Working Group. Emergent changes will also be presented to the CISO Council as necessary, to reflect any new or updated cybersecurity laws, Executive Orders, directives, threats, or vulnerabilities, etc., that will have an effect on the operating environment. In addition, the Policy Working Group will present an annual status update on DHS cybersecurity policy, with any necessary updates or revisions, to the CISO Council for consideration and approval. The Policy Working Group will conduct an annual review of DHS cybersecurity policy and present the findings in its annual policy status update to the CISO Council. This will reflect any recommended changes from new or revised cybersecurity laws, Executive Orders, or directives, that haven't already been captured through ad hoc recommendations and updates.
