Modeling & Validation

The Department of Homeland Security established the Modeling & Validation multiple-award Blanket Purchase Agreement (BPA) to provide DHS and its Components direct support analyzing data and models, developing models, validating existing models, and modeling oversight support, to assist in leadership decision making and resource allocation.

Analysis and modeling areas may include but are not limited to:

- Manpower/Workload, Operational, Resource, Risk, Threat, Allocation, Optimization, Logic

Key Contract Vehicle Features:

- Allows for consistent standards and efficiency across Components when procuring modeling services
- Provides shortened timelines with approved vendors and a streamline ordering process
- Leverages collective buying power through a simplified and lower cost method of procurement

Period of Performance (POP):

Five-Year Ordering Period (9/06/2023 – 9/05/2028)

Number of Awardees:

Three Small Businesses

Contractor Information:

BPA #	Vendor Name
70RDAD23A00000017	FI Consulting
70RDAD23A00000018	Intellect Solutions
70RDAD23A00000019	KSA Integration
