U.S. DEPARTMENT OF HOMELAND SECURITY

MEETING OF THE DATA PRIVACY AND INTEGRITY ADVISORY
COMMITTEE

PUBLIC MEETING

Virtual Meeting

9:00 a.m.

Monday, November 7, 2023

U.S. Department of Homeland Security
2701 Martin Luther King Jr. Ave. SE, Mail Stop 0655
Washington, DC 20598-0655

<p style="text-align: right;">Page 2</p> <p>1 CONTENTS</p> <p>2 AGENDA ITEM PAGE</p> <p>3 CALL TO ORDER AND ROLL CALL 3</p> <p>4 Sandra L. Taylor, Designated Federal Official,</p> <p>5 U.S. Department of Homeland Security</p> <p>6 CHAIRPERSON REMARKS 6</p> <p>7 Lisa Sotto, Chairperson, Data Privacy and</p> <p>8 Integrity Advisory Committee,</p> <p>9 U.S. Department of Homeland Security</p> <p>10 UPDATE ON PRIVACY OFFICE ACTIVITIES AND</p> <p>11 FISCAL YEAR 2024 PRIORITIES 7</p> <p>12 Mason C. Clutter, Chief Privacy Officer,</p> <p>13 U.S. Department of Homeland Security</p> <p>14 QUESTIONS FROM COMMITTEE MEMBERS 16</p> <p>15 20 YEARS OF DHS PRIVACY AND COMMITTEE TASKING 20</p> <p>16 Mason C. Clutter, Chief Privacy Officer,</p> <p>17 U.S. Department of Homeland Security</p> <p>18 QUESTIONS FROM COMMITTEE MEMBERS 35</p> <p>19 PUBLIC COMMENT PERIOD 45</p> <p>20 CLOSING STATEMENTS AND MEETING ADJOURNMENT 48</p> <p>21</p> <p>22</p>	<p style="text-align: right;">Page 4</p> <p>1 today's session can be found on the DPIAC website,</p> <p>2 and I will post that in our link, and you can look</p> <p>3 under Meeting Information.</p> <p>4 I will now take a quick roll of our</p> <p>5 committee members before I turn it over to Lisa</p> <p>6 Sotto, who is our chairperson.</p> <p>7 So when I call your name, you can either</p> <p>8 respond, so we can make sure your mic is working,</p> <p>9 or you can just raise your hand.</p> <p>10 Sharon Anolik.</p> <p>11 [No response.]</p> <p>12 Ms. Taylor: Courtney Barton.</p> <p>13 Ms. Barton: Here.</p> <p>14 Ms. Taylor: Dennis Dayman.</p> <p>15 Mr. Dayman: Here.</p> <p>16 Ms. Taylor: Michael Fitzpatrick.</p> <p>17 Mr. Fitzpatrick: Here.</p> <p>18 Ms. Taylor: Mark Francis.</p> <p>19 Mr. Francis: Here.</p> <p>20 Ms. Taylor: Joseph Hewitt.</p> <p>21 Mr. Hewitt: Here.</p> <p>22 Ms. Taylor: Sarah Knight.</p>
<p style="text-align: right;">Page 3</p> <p>1 PROCEEDINGS</p> <p>2 Call to Order and Roll Call</p> <p>3 Ms. Taylor: Hey, good morning, everyone.</p> <p>4 It is 8:59. We're going to get started promptly at</p> <p>5 9 a.m., and it just turned 9 a.m. Good morning to</p> <p>6 you all.</p> <p>7 Good morning and welcome, everyone. It</p> <p>8 is now 9, and the public meeting of the Data</p> <p>9 Privacy and Integrity Advisory Committee, often</p> <p>10 known as the DPIAC or Committee, is called to</p> <p>11 order. I am Sandra Taylor, Sandy to everyone who</p> <p>12 knows me, and I am your Designated Federal</p> <p>13 Official. I'm also joined by Sue-Ying Cosbert [ph] 14</p> <p>who is our Deputy DFO. So he will be assisting me 15</p> <p>with all things DPIAC.</p> <p>16 We have committee members and members of</p> <p>17 the public joining us today. If you have any</p> <p>18 difficulties hearing or seeing at any time please</p> <p>19 let us know. And please remember to mute your mics</p> <p>20 and turn off your camera until it is time for the</p> <p>21 Q&A session and/or public comment.</p> <p>22 The meeting agenda and materials for</p>	<p style="text-align: right;">Page 5</p> <p>1 Ms. Knight: Here.</p> <p>2 Ms. Taylor: John Kropf.</p> <p>3 [No response.]</p> <p>4 Ms. Taylor: Roshal Marshall? Oh, John,</p> <p>5 you're here?</p> <p>6 Mr. Palmer. No, Charles is here. Sorry.</p> <p>7 Ms. Taylor: Roshal Marshall.</p> <p>8 [No response.]</p> <p>9 Ms. Taylor: Ade Odutola.</p> <p>10 Mr. Odutola: Good morning, Sandy. I'm</p> <p>11 here.</p> <p>12 Ms. Taylor: Good morning. Chris Pahl.</p> <p>13 Mr. Pahl: I'm here.</p> <p>14 Ms. Taylor: Charles Palmer.</p> <p>15 Mr. Palmer: I'm here twice.</p> <p>16 Ms. Taylor: Tom Plofchan.</p> <p>17 [No response.]</p> <p>18 Ms. Taylor: Sasha Romanosky.</p> <p>19 Mr. Romanosky: Here.</p> <p>20 Ms. Taylor: Cameron Russell.</p> <p>21 [No response.]</p> <p>22 Ms. Taylor: Thomas Siu.</p>

<p style="text-align: right;">Page 6</p> <p>1 Mr. Siu: Here and present.</p> <p>2 Ms. Taylor: Thank you. Lisa Sotto.</p> <p>3 Ms. Sotto: Good morning.</p> <p>4 Ms. Taylor: Good morning. Ray Thomas.</p> <p>5 [No response.]</p> <p>6 Ms. Taylor: And Chris, I skipped you.</p> <p>7 Chris Teitzel.</p> <p>8 Mr. Teitzel: I'm here.</p> <p>9 Ms. Taylor: All right. Surbhi Tugnawat.</p> <p>10 [No response.]</p> <p>11 Ms. Taylor: Ron Whitworth.</p> <p>12 Mr. Whitworth: Here. Good morning.</p> <p>13 Ms. Taylor: Good morning. All right.</p> <p>14 We have a quorum so our meeting can actually go</p> <p>15 forward. Thank you again for joining us today, and</p> <p>16 I will now turn it over to our committee</p> <p>17 chairperson, Lisa Sotto.</p> <p>18 Chairperson Remarks</p> <p>19 Ms. Sotto: Thank you very much, Sandy,</p> <p>20 and thank you all for joining us today. Good</p> <p>21 morning and welcome to this meeting of the Data</p> <p>22 Privacy and Integrity Advisory Committee.</p>	<p style="text-align: right;">Page 8</p> <p>1 as Sandy said, DPIAC. We will be referring to the</p> <p>2 Committee as DPIAC or Committee for the rest of the</p> <p>3 meeting. Thank you to the Committee members and</p> <p>4 members of the public for joining today.</p> <p>5 We have been quite busy since our last</p> <p>6 meeting, and I look forward to sharing a few</p> <p>7 exciting updates before we turn to today's new</p> <p>8 business, including updates on our Privacy</p> <p>9 Enhancing Technologies Initiative, implementation</p> <p>10 of a modern compliance technology system, and the</p> <p>11 Privacy Office's fiscal year 2024 strategic</p> <p>12 priorities.</p> <p>13 During the last DPIAC meeting then-Deputy</p> <p>14 Secretary Tien joined us to thank my predecessor,</p> <p>15 Lynn Parker Dupree, for her service. I had the</p> <p>16 pleasure of getting to know Lynn through our work</p> <p>17 together at the Privacy and Civil Liberties</p> <p>18 Oversight Board, and I was so pleased to join her</p> <p>19 as a senior advisor in May 2022. Upon Lynn's</p> <p>20 departure I served as the Acting Chief Privacy</p> <p>21 Officer and then was formally appointed to the</p> <p>22 position by Secretary Mayorkas on April 23rd of</p>
<p style="text-align: right;">Page 7</p> <p>1 Before we begin I'd like to thank you all</p> <p>2 for joining us and for your interest in the work of</p> <p>3 the DHS Privacy Office as well as the Committee.</p> <p>4 I'd like to remind everyone to please mute your</p> <p>5 mics, turn off your camera, please, if you're not</p> <p>6 speaking. Members of the public who wish to</p> <p>7 address the Committee during the public comment</p> <p>8 portion of the session, we ask that you please let</p> <p>9 us know by raising your hand or putting your</p> <p>10 comment into the chat.</p> <p>11 The purpose for today's meeting is to</p> <p>12 receive an update on the Privacy Office's</p> <p>13 activities since our last meeting, which was held</p> <p>14 this past January. In addition, Chief Privacy</p> <p>15 Officer Clutter will issue a new tasking to the</p> <p>16 Committee, and I will now turn it over to Chief</p> <p>17 Privacy Officer, Mason Clutter.</p> <p>18 Update on Privacy Office Activities and Fiscal Year</p> <p>19 2024 Priorities</p> <p>20 Ms. Clutter: Thank you, Lisa. Good</p> <p>21 morning and welcome, everyone. Thank you to the</p> <p>22 Data Privacy and Integrity Advisory Committee, or</p>	<p style="text-align: right;">Page 9</p> <p>1 this year.</p> <p>2 One of my priorities as the DHS Chief</p> <p>3 Privacy Officer is to follow the forward-leaning</p> <p>4 agenda Chief Privacy Officer Dupree laid out for</p> <p>5 the office, particularly with respect to</p> <p>6 establishing DHS as a leader in the identification,</p> <p>7 development, and adoption of privacy-enhancing</p> <p>8 technologies. And vetting these technologies into</p> <p>9 the Department's architecture is a force multiplier</p> <p>10 for our traditional privacy governance framework</p> <p>11 and will provide significant benefits for the</p> <p>12 public and the Department.</p> <p>13 My engagement with privacy-enhancing</p> <p>14 technologies kicked off with an ideation workshop</p> <p>15 that we co-hosted with the Science and Technology</p> <p>16 Directorate Silicon Valley Innovation Project, or</p> <p>17 SVIP. That event established and strengthened our</p> <p>18 relationships between the DHS Privacy Office, SVIP,</p> <p>19 the tech community, academic, and privacy</p> <p>20 advocates, and helped identify critical needs and</p> <p>21 capabilities across the homeland security</p> <p>22 enterprise that can be addressed by using privacy-</p>

<p style="text-align: right;">Page 10</p> <p>1 enhancing technologies in the near term.</p> <p>2 The event also helped shape a public</p> <p>3 solicitation that SVIP released over the summer to</p> <p>4 create, develop, and implement a new set of privacy</p> <p>5 protective tools for digital credentials. In</p> <p>6 August, I represented the Privacy Office at an SVIP</p> <p>7 Industry Day in Birmingham, Alabama, to promote the</p> <p>8 S&T solicitation and discuss DHS's commitment to</p> <p>9 safeguard the privacy of the communities we serve.</p> <p>10 The privacy-protective tools expected to result</p> <p>11 from the solicitation will be instrumental in</p> <p>12 innovating privacy-respecting systems to support</p> <p>13 the travel and immigration experience.</p> <p>14 The Privacy Office also made substantial</p> <p>15 progress in leveraging technology and business</p> <p>16 practices that have been successful in many other</p> <p>17 contexts to modernize its own privacy compliance</p> <p>18 processes.</p> <p>19 The Privacy Office collaborated with the</p> <p>20 Office of the Chief Information Officer to expand</p> <p>21 its internal privacy compliance document tracking</p> <p>22 system, known as PRIV-CATS for use by component</p>	<p style="text-align: right;">Page 12</p> <p>1 support Secretary Mayorkas' priorities and</p> <p>2 commitment to ensure that the Department is</p> <p>3 enhancing transparency to build greater trust with</p> <p>4 the public and ensuring the protection of privacy,</p> <p>5 civil rights, civil liberties, and human rights of</p> <p>6 the communities we serve. The Secretary ensures</p> <p>7 the Privacy Office has a seat at the Department's</p> <p>8 decision-making table, and this approach has</p> <p>9 certainly trickled down throughout the Department,</p> <p>10 leading to deeper engagement between privacy</p> <p>11 experts and decision-makers across DHS.</p> <p>12 For example, the Privacy Office</p> <p>13 reestablished a robust relationship with the</p> <p>14 Intelligence and Analysis Office, including privacy</p> <p>15 review of finished intelligence products before</p> <p>16 they are disseminated outside of the Department.</p> <p>17 Further, in collaboration with our colleagues in</p> <p>18 the Office for Civil Rights and Civil Liberties, we</p> <p>19 have relaunched a privacy civil rights and civil</p> <p>20 liberties training program for fusion centers.</p> <p>21 Further, in coordination with our</p> <p>22 partners across the Department, the Privacy Office</p>
<p style="text-align: right;">Page 11</p> <p>1 privacy offices. So the PRIV-CATS 2.0 will track</p> <p>2 the statuses of privacy compliance documents for</p> <p>3 all departmental systems and programs and ensure</p> <p>4 compliance with DHS privacy policy. As of May, all</p> <p>5 approved component privacy offices are using the</p> <p>6 system to better manage their compliance artifacts</p> <p>7 and help reduce administrative burden.</p> <p>8 The Privacy Office support training to</p> <p>9 the new component PRIV-CATS users and is ensuring</p> <p>10 that the tool will be continually enhanced to</p> <p>11 streamline DHS's processes and improve privacy</p> <p>12 compliance.</p> <p>13 One of my favorite features of the tools</p> <p>14 is the automatic notice it provides privacy</p> <p>15 officers of soon-to-expire privacy compliance</p> <p>16 documentation. This feature alone will help ensure</p> <p>17 greater privacy compliance across the homeland</p> <p>18 security enterprise, and we have received great</p> <p>19 feedback from our component privacy officers and</p> <p>20 our privacy points of contact that this has been a</p> <p>21 very effective and helpful aspect of the tool.</p> <p>22 The Privacy Office also continues to</p>	<p style="text-align: right;">Page 13</p> <p>1 supported the development and issuance of a</p> <p>2 department-wide policy on facial recognition and</p> <p>3 facial capture technologies, and issued the first</p> <p>4 of their kind privacy terms and conditions in the</p> <p>5 Science and Technology Directorate's Targeted</p> <p>6 Violence and Terrorism Prevention Notice of Funding</p> <p>7 Opportunity. This NOFO, as we call it, supports</p> <p>8 grants in the TVTP space. They are research</p> <p>9 grants. So this was a huge accomplishment for our</p> <p>10 office in coordination with our partners at S&T.</p> <p>11 The Privacy Office is also supporting the</p> <p>12 Department's responsible use of artificial</p> <p>13 intelligence to ensure critical and appropriate</p> <p>14 privacy safeguards guides the Department's use of</p> <p>15 this and other technologies.</p> <p>16 I am also very excited about the Privacy</p> <p>17 Office's strategic priorities for the coming year.</p> <p>18 In August, the Privacy Office published its fiscal</p> <p>19 year 2023 to 2027 strategic plan. The plan</p> <p>20 includes extensive input from the Privacy Office</p> <p>21 team and serves as a blueprint for achieving the</p> <p>22 Privacy Office's mission of promoting and</p>

<p style="text-align: right;">Page 14</p> <p>1 protecting our shared values of privacy and 2 transparency while safeguarding the homeland. The 3 strategic plan is available on the Privacy Office 4 website, and I encourage everyone to read it, and 5 please share your feedback for future strategic 6 priorities and plans.</p> <p>7 In line with the 2023 through 2027 plan, 8 one of our priorities for 2024 is to deepen and 9 expand our work to embed privacy in the 10 Department's policies, programs, activities, and 11 technical architecture. We will continue to work 12 with the SVIP to support the development and 13 creation of privacy-respecting tools and systems to 14 facilitate our PETs initiative.</p> <p>15 I will also continue to focus on 16 recruiting, supporting, and retaining a skilled, 17 adaptable, representative, and responsible 18 workforce. The Privacy Office's successes are only 19 possible because of its talented team members. Let 20 me say that again. Our successes are only possible 21 because of its talented team members, and we will 22 continue to fill critical vacancies, encourage</p>	<p style="text-align: right;">Page 16</p> <p>1 Along these lines, I have been asking 2 whether the Privacy Office is fit for purpose now 3 and into the next 20 years. I see my role not just 4 as ensuring privacy in the Department's operations 5 during my term but also as leaving behind a Privacy 6 Office that is more fit for purpose than ever and 7 planting and watering the seeds of a privacy 8 protective culture that will blossom well into the 9 future.</p> <p>10 The Committee and our public stakeholders 11 provide critical insight and valuable input in 12 support of the Privacy Office's important mission. 13 Thank you so much for your continued service on 14 DPIAC and your dedication to privacy and 15 transparency.</p> <p>16 I will be back in just a bit to talk 17 about a new tasking for the Committee, as Lisa 18 previewed, so for me I'll turn the floor back over 19 to Lisa. Think you.</p> <p>20 Questions from Committee Members 21 Ms. Sotto: Thank you so much, Mason. I 22 am wondering if any member of the Committee has any</p>
<p style="text-align: right;">Page 15</p> <p>1 development, and support a culture of excellence, 2 both in the Privacy Office and in component Privacy 3 Offices.</p> <p>4 Another goal for 2024 is to further 5 enhance the Privacy Office's stakeholder 6 engagement. Hearing from internal and external 7 stakeholders with a diverse set of views and 8 experiences enhances transparency and facilitates 9 protection of privacy in the Department's 10 operations. In addition to participation in public 11 events, the Privacy Office will seek input on its 12 privacy and transparency missions.</p> <p>13 Finally, another key priority for me as 14 Chief Privacy Officer is oversight, both engagement 15 with oversight bodies that are conducting oversight 16 of the Department, including GAO, OIG, and the 17 PCLOB, and meaningful internal engagement. The 18 Privacy Office plans to continue to build out its 19 oversight function and renew its commitment to 20 serving as an internal check on the Department's 21 activities to ensure they are conducted with 22 appropriate safeguards and transparency.</p>	<p style="text-align: right;">Page 17</p> <p>1 comments or questions for Privacy Office Clutter on 2 the update that we just heard.</p> <p>3 I have one that I will lob over to you, 4 Mason. I'm wondering if you could speak about any 5 particular privacy-enhancing technologies that 6 you're working on or have worked on.</p> <p>7 Ms. Clutter: That's a great question, 8 Lisa. Thank you. So in coordination with SVIP we 9 are working on initially a Social Security number 10 patch to ensure that the Department's use of SSNs 11 is completed in a privacy-protected manner.</p> <p>12 So because of the nature of our work we 13 necessarily collect and manage Social Security 14 numbers, both internally, from an HR perspective, 15 and externally, through our mission. And so 16 finding a way to integrate privacy-enhancing 17 technologies into the operations, into a non- 18 disruptive and easy-to-accommodate manner is a 19 primary goal, and we are working to develop 20 partnerships within the Department to initiate that 21 rollout.</p> <p>22 So using different privacy-enhancing</p>

<p style="text-align: right;">Page 18</p> <p>1 technologies we're kind of in the testing phase to 2 assess which may work best for us, but to enable 3 the use of those numbers, as needed, but also 4 protect them in the meantime. So that is a huge 5 priority for us, both under our Social Security 6 number initiative as well as an initial step to 7 facilitate PETs throughout the Department. 8 Ms. Sotto: Thank you very much. I see 9 Thomas has a hand raised. Thomas, over to you. 10 Mr. Siu: Thank you, Lisa. Good morning, 11 Mason. The topic AI you had mentioned was in your 12 presentation, and with the Executive order that 13 came out, that much abuzz in the context of what 14 many of the Committee members are doing with it. 15 Could you outline additional context of what you 16 think your point of using AI for privacy use would 17 be? Are you thinking of particular challenges or 18 not? Thank you. 19 Ms. Clutter: That's a great question, 20 Thomas. Thank you so much. As you pointed out, 21 the EO was released I think about a week ago, and 22 DHS has a significant role pursuant to the EO as</p>	<p style="text-align: right;">Page 20</p> <p>1 [No response.] 2 Ms. Sotto: Going once. All right. I 3 see no other hands raised for members of the 4 Committee so we can move on to the next portion of 5 our meeting. 6 20 Years of DHS Privacy and Committee Tasking 7 Ms. Sotto: So I'd like to turn it over 8 again to Chief Privacy Officer Clutter, and I will 9 leave it to you, Mason, to take over from here. 10 Ms. Clutter: Thank you, Lisa. So this 11 is what I'm most excited about today. We have been 12 working internally to develop a tasking for the 13 Committee in coordination with the Secretary, and I 14 am very excited about this opportunity today. 15 Throughout 2023, DHS has been recognizing 16 its 20th anniversary. DHS has been honoring the 17 men and women who have answered the call to serve 18 and joined together to build the Department. In 19 fact, the Privacy Office has five or six what we 20 call plankholders, those colleagues of ours who 21 have been here from day one at the Department. So 22 we are very grateful for their service and inspired</p>
<p style="text-align: right;">Page 19</p> <p>1 well as just as a general leader in the AI space. 2 And so I would think maybe mid-summer the 3 Secretary established an AI Task Force to 4 specifically look at the use of AI at the 5 Department to enhance its operational mission. At 6 the same time, he established a Responsible Use 7 Working Group that is co-chaired by the Civil 8 Rights and Civil Liberties Officer to ensure that 9 any implementation of AI across the Department is 10 done in a responsible way, taking into account the 11 potential for discrimination, bias, the use of PII, 12 et cetera. 13 So we are very involved at the Privacy 14 Office in supporting that responsible group use 15 pursuant to the AI Task Force that the Secretary 16 created, and really thinking through how AI may be 17 used at the Department and whether we need 18 additional governance frameworks in place to 19 appropriately safeguard the use of AI across the 20 Department in a privacy-preserving way. 21 Ms. Sotto: Thank you very much, Mason. 22 Any other members of the Committee?</p>	<p style="text-align: right;">Page 21</p> <p>1 by their service. 2 DHS is also used this occasion to reflect 3 on the evolution of threats basing the nation and 4 how its dedicated workforce, which happens to be 5 the third largest in the Federal Government, has 6 evolved to meet them. As an extension of this 7 recognition and reflection, the Secretary and I are 8 asking the DPIAC to assess the DHS Privacy Office 9 at 20. 10 On Slide 7 of the presentation, you'll 11 see that as I mentioned previously, the Privacy 12 Office published its 2023 through 2027 strategic 13 plan in August. The Privacy Office promotes and 14 protects our shared values of privacy and 15 transparency while safeguarding the homeland. The 16 plan also establishes a strong vision for the 17 office. The Privacy Office will serve as a 18 critical partner to our internal and external 19 stakeholders in securing the homeland and 20 protecting our values. 21 So looking back to when the Privacy 22 Office was first stood up, it had about six</p>

<p style="text-align: right;">Page 22</p> <p>1 employees and zero dollars in direct funding. Its 2 initial structure and staffing were focused on 3 establishing and executing key DHS privacy and 4 transparency responsibilities, and again, that was 5 in the 2003 time frame.</p> <p>6 In addition to carrying out the privacy 7 responsibilities outlined in the enabling statute, 8 the Secretary also delegated the Privacy Office the 9 responsibility to implement the Freedom of 10 Information Act, which is why my position is the 11 Chief Privacy Office and the Chief Freedom of 12 Information Act Officer.</p> <p>13 At that time, there were just three 14 component privacy officers across the homeland 15 security enterprise, and in programs that don't 16 really exist today, one in the U.S. Visit Program, 17 one in the National Cybersecurity Division -- that 18 was within the Information Analysis and 19 Infrastructure Protection Directorate -- and 20 finally the TSA, which, of course, still exists 21 today and has a very robust privacy program.</p> <p>22 So the Privacy Office today is divided</p>	<p style="text-align: right;">Page 24</p> <p>1 operations and management team, which processes 2 FOIA requests and provides components with FOIA 3 processing support, and the FOIA litigation and 4 policy team, which responds to needs related to 5 FOIA litigation, manages the administrative appeals 6 process, and develops department wide FOIA policy.</p> <p>7 And finally, the Business Operations 8 Division ensure the efficiency of the Privacy 9 Office operations as well as the development and 10 execution of internal and external communication 11 strategies. The Business Operations Division 12 really is the backbone of the Privacy Office, and 13 our successes substantively would not be possible 14 without their critical support. So thank you to 15 our business operations colleagues.</p> <p>16 So today, to facilitate that structure, 17 the Privacy Office have 58 positions. In addition, 18 we have contractors who help support our mission.</p> <p>19 The Privacy Office clearly grew slowly 20 and steadily for the first few years after the 21 Department's founding, and as you can see on the 22 chart on Slide 10, growth leveled out and staffing</p>
<p style="text-align: right;">Page 23</p> <p>1 into three divisions: the Privacy Division, the 2 FOIA Division, and the Business Operations 3 Division. The Privacy Division includes the policy 4 and oversight team, or P&O, which manages privacy 5 breaches and incidents, undertakes oversight 6 activities, including the review of finished 7 intelligence products for privacy issues before 8 they are disseminated outside of the Department, 9 and develops DHS privacy policy while providing 10 subject matter expertise and support for privacy 11 policy development across the Department.</p> <p>12 And the compliance team, which enables 13 the Department's ability to safeguard PII through 14 privacy compliance documentation requirements. 15 Through the compliance team, PRIV works with 16 components and offices to ensure that privacy risks 17 related to operations, programs, activities, and 18 systems are identified and mitigated, and publishes 19 documents that provide transparency into the 20 Department's collection, use, and retention of 21 personally identifiable information.</p> <p>22 The FOIA Division includes the FOIA</p>	<p style="text-align: right;">Page 25</p> <p>1 level remained mostly unchanged for several years, 2 before a substantial increase over this past year. 3 Importantly, this chart only accounts for staff in 4 the DHS headquarters Privacy Office, and as you 5 know, each component now has a privacy officer, and 6 offices throughout the Department have privacy 7 points of contact. So staffing in the component 8 Privacy Offices has also evolved over time.</p> <p>9 The Privacy Office's fiscal year 2023 10 budget, as you'll see on Slide 11, was nearly \$19 11 million. Our budget remains at mostly the same 12 level, until a substantial investment in the 13 Office's growth in 2023. So that is great news.</p> <p>14 Understanding the potential impacts, so 15 now on to the authorities question here, 16 understanding the potential impact DHS activities 17 could have on individual privacy, Congress wisely 18 identified the critical importance of safeguarding 19 privacy as an appropriate balance to the 20 Department's broad mission and created the first 21 statutorily required privacy officer. The 22 legislation provided the DHS Chief Privacy Officer</p>

<p style="text-align: right;">Page 26</p> <p>1 with broad responsibilities and oversight 2 authorities, including the responsibility to 3 conduct privacy impact assessments. Privacy impact 4 assessments for the Department cover systems that 5 collect PII and any activity that impacts the 6 privacy of individual. 7 The law also charged the Chief Privacy 8 Officer with the responsibility to ensure that 9 technologies enhance and do not erode privacy. 10 From my perspective and experience over the past 11 few months, this is a statutory intersection 12 between privacy law and privacy policy, a directive 13 not only to abide by the rules law but also to 14 consider the other implications of the Department's 15 activities. And some of us call this the "can we" 16 question versus the "should we" question, the legal 17 question versus the policy question. 18 The statute also requires that the 19 Privacy Office provide transparency through regular 20 reporting to Congress. So on Slide 13 you'll see 21 that in the years since DHS's founding, Congress 22 has amended the Chief Privacy Officer statute to</p>	<p style="text-align: right;">Page 28</p> <p>1 properly report, investigate, mitigate, and 2 remediate privacy incidents. We also investigate 3 allegations of privacy violations. 4 The DHS Privacy Office accomplishes its 5 broad mission through the framework of several 6 Federal privacy and transparency laws, including 7 the Privacy Act of 1974, as well as the Judicial 8 Redress Act of 2005 -- and as we all know, the 9 Privacy Act embodies a code of fair information 10 practice principles that govern the collection, 11 maintenance, use, and dissemination of PII. 12 The E-Government Act mandates our privacy 13 impact assessments for all Federal agencies when 14 there are new collections of, or new technology 15 supplied, to PII. Interestingly, our authorizing 16 statute also permits broad discretion by the Chief 17 Privacy Officer to require a PIA, even if it is not 18 required by the E-Government Act, and we do 19 exercise that authority quite a bit here at DHS. 20 The Freedom of Information Act, as 21 amended, which, as we all know, facilitates public 22 access to government records not subject to a</p>
<p style="text-align: right;">Page 27</p> <p>1 provide additional extensive oversight authorities. 2 Specifically, the law implementing the 3 recommendations of the 9/11 Commission provided the 4 Privacy Office with the authority to conduct 5 investigations and issue subpoenas. 6 Additional reporting requirements were 7 also added, including, for example, an annual 8 report on the Department's data mining activities. 9 Currently -- and this is not an exhaustive list -- 10 the Privacy Office is responsible for enhancing 11 transparency and accountability through the Freedom 12 of Information Act; evaluating legislative, 13 regulatory, department, and interagency proposals 14 involving the collection, use, and disclosure of 15 personal information and activities that generally 16 impact privacy; serving as the liaison to the 17 Privacy and Civil Liberties Oversight Board, the 18 Federal Privacy Council, and the Data Privacy and 19 Integrity Advisory Committee, where we are today, 20 on privacy matters, issues and trends; and 21 operating a Department-wide privacy incident 22 response program and breach response team to</p>	<p style="text-align: right;">Page 29</p> <p>1 statutory exemption to ensure transparency and 2 accountability. And the Implementing the 3 Recommendations of the 9/11 Commission Act, which 4 was passed in 2007, which as I mentioned 5 previously, in part amended our originating statute 6 to give new authorities to the Chief Privacy 7 Officer. 8 But in addition to these statutory 9 authorities, the Chief Privacy Officer also 10 operates pursuant to delegations from the 11 Secretary. Additionally, the Chief Privacy Officer 12 issues Department-wide privacy policy. Our 13 foundational privacy policy was issued in 2008. 14 That is the DHS Fair Information Practice 15 Principles, or as we all know, the FIPS, and it 16 really is the essential privacy framework, and I 17 know you're all familiar with this. 18 And in 2011, the Privacy Office codified 19 its approach to compliance and governance in a 20 policy governing the collection, use, maintenance, 21 disclosure, dissemination, and destruction of PII. 22 And finally, in 2022, the Privacy Office</p>

<p style="text-align: right;">Page 30</p> <p>1 reestablished what was traditionally known as the 2 mixed systems policy, that in addition to 3 establishing privacy policy for IT management it 4 applies privacy safeguards to all individuals whose 5 information are in what we call mixed systems of 6 records, irrespective of the individual's 7 immigration status. 8 So these really are kind of the three key 9 pillars of our internal policy structure. And the 10 fifth framework has remained unchanged since 2008. 11 On Slides 16 through 19, we have gone 12 ahead and provided a list of each of the privacy 13 policies that are in effect across the Department 14 today. We wanted to provide the Committee and 15 members of the public with a thorough summary of 16 our privacy policies, all of which, by the way, are 17 publicly available on the DHS privacy website. 18 And generally speaking, just a little bit 19 of background of how we do policy at the 20 Department. In addition to the governing policies 21 that are issued by the Privacy Office, we've also 22 issued a variety of privacy policy memoranda,</p>	<p style="text-align: right;">Page 32</p> <p>1 mission over the next 20 years. We ask that you 2 please issue recommendations, as appropriate, for 3 DHS Privacy to continue to accomplish its mission 4 into the future. 5 In addition to issues or subjects 6 identified as critical by the DPIAC, please 7 specifically address the following. And I know 8 everyone is taking great notes, but this will be 9 posted on our website, on the DPIAC website, for 10 everyone to review, so please do not worry if you 11 miss some of this. It will all be made publicly 12 available after the meeting. 13 So please specifically address the 14 following: 15 Assess where DHS privacy has been, where 16 it is now, and where it should be going, consistent 17 with the future of privacy and the Department's 18 evolving mission and reliance on technology and 19 data; 20 Assess whether significant changes to DHS 21 Privacy's mission, role within the Department, 22 resources, compliance structure, oversight</p>
<p style="text-align: right;">Page 31</p> <p>1 directives, and instructions. At DHS, a privacy 2 policy memorandum establishes clear guidance by the 3 Chief Privacy Officer throughout the Department on 4 the collection, use, maintenance, and dissemination 5 of PII. A directive articulates DHS policies, 6 missions, programs, or activities of a continuing 7 nature, so that is the general policy statement. 8 And an instruction, that corresponds to the 9 directive, explains how to implement those policies 10 or requirements established in a directive, 11 Executive order, regulation, or Federal Register 12 notice. 13 So that is a lot of internal DHS 14 government speak, and we spared you that on these 15 slides. These generally just represent the whole 16 of our privacy policies, which will become relevant 17 in just a minute. 18 With this background in mind, as I noted, 19 the Secretary and I request the DPIAC to please 20 conduct an assessment of the Privacy Office's 21 authorities, resources, efficacy, and mission, and 22 provide advice on strategies for meeting our</p>	<p style="text-align: right;">Page 33</p> <p>1 framework, authorities and delegations, and 2 policies should be made based on the Department's 3 evolving mission and reliance on technology and 4 data; 5 Assess, based on what you learned from 6 the above, whether the DHS FIPS privacy framework 7 for privacy policy at the Department remains the 8 appropriate framework by which DHS privacy assesses 9 and mitigates privacy risks across the Homeland 10 Security enterprise. In addition, please consider 11 whether additional principles should be associated 12 with review of certain programs, including new 13 technologies and uses like artificial intelligence 14 and machine learning, biometrics, commercial data, 15 and publicly available information. 16 Assess opportunities, mechanisms, and 17 frameworks for enhanced transparency, engagement 18 with external stakeholders, experts, and advocates, 19 and opportunities to solicit public input and 20 feedback. 21 And we have two specific requests, 22 please. In conducting this assessment, the</p>

<p style="text-align: right;">Page 34</p> <p>1 Committee should consider opportunities to solicit 2 public comment and public events, including input 3 from privacy experts and advocates, and the 4 Committee should consider private sector approaches 5 and whether and how such approaches may be 6 applicable to DHS and DHS Privacy. 7 So I know that was a lot. I thank you in 8 advance for your thoughtful on this tasking. The 9 expert insight and valuable input that DPIAC 10 provides is critical to the Department's mission to 11 safeguard privacy and enhance transparency while 12 protecting the homeland. I also look forward to 13 learning what our external stakeholders share to 14 support this tasking and to ensure DHS Privacy is a 15 critical partner to the Department and its 16 stakeholders over the next 20 years. I look 17 forward to hearing updates from the Committee on 18 this tasking in future meetings. 19 So with that, back over to Lisa. 20 Ms. Sotto: Thank you so much, Mason. 21 There is no better time for this tasking than now, 22 looking back over the last 20 years, and then also</p>	<p style="text-align: right;">Page 36</p> <p>1 Department. We set the overarching, Department- 2 wide privacy policy, and our component privacy 3 officers implement that at the component level as 4 well as establish component-level privacy 5 safeguards that can further enhance privacy at 6 their components. 7 So one question I have in mind for the 8 Committee is in addition to looking at the Privacy 9 Office and our headquarters approach, do you have 10 recommendations for how best to facilitate privacy 11 at the component level, and perhaps even into the 12 field level. We have really expanded. We have 13 over 260,000 employees here at the Department. So 14 I really defer to the Committee on scoping this in 15 a way that makes the best sense for enabling the 16 Department's privacy priority to govern over the 17 next 20 years. 18 Mr. Hewitt: Okay. Thank you. 19 Ms. Sotto: Tom Plofchan. 20 Mr. Plofchan: Good morning and thank you 21 for the presentation. I'm sure the answer to this 22 question might be further in the materials, but</p>
<p style="text-align: right;">Page 35</p> <p>1 looking forward, when technology is taking us into 2 the future at lightning speed. So thank you very 3 much. The Committee looks forward to conducting 4 the assessment of the Privacy Office and providing 5 recommendations on how DHS can continue to 6 safeguard privacy, understanding the incredibly 7 rapid advances in technology and also the 8 significant changes in the way data is used by and 9 relied upon by the Department. 10 Questions from Committee Members 11 Ms. Sotto: So let me turn it over, 12 please, to the Committee. Do members of the 13 Committee have questions for Mason on the tasking? 14 Mr. Hewitt: Yes, quick question. This 15 is Joe Hewitt. Can you just provide a summary of 16 sort of the scope and the lens that we're looking 17 through? Is this through the lens just of the 18 Privacy Office, DHS as a whole, or larger and 19 broader? 20 Ms. Clutter: So the initial matter, 21 privacy at DHS. So the DHS Privacy Office is the 22 proverbial belly button, right, for privacy at the</p>	<p style="text-align: right;">Page 37</p> <p>1 could you elaborate a little bit more on the desire 2 or the thought process for this tasking to focus on 3 emerging technology? 4 Ms. Clutter: Great question. Thank you. 5 So as I indicated a few places in the tasking, you 6 know, it's been 20 years. The Department was 7 created right after 9/11, essentially by joining 8 multiple agencies into one. So in addition to kind 9 of facilitating a culture, a connected culture of 10 both mission-driven priorities and privacy, civil 11 rights, and civil liberties, I'm cognizant of the 12 fact that the Department's reliance on technology 13 and data could not have been anticipated 20 years 14 ago. 15 And as we're looking at emerging 16 technologies -- and they're not even really 17 emerging at this point; they are here -- AI, 18 biometrics, commercial data and publicly available 19 information, ensuring that we have the appropriate 20 frameworks in place to assess these technologies 21 into the future is critical to evolving together 22 with the Department's mission and its reliance on</p>

<p style="text-align: right;">Page 38</p> <p>1 data.</p> <p>2 Please, go ahead, Lisa. Oh, just a</p> <p>3 question? Okay. I thought you had a comment.</p> <p>4 Mr. Plofchan: Do you mind if I follow up</p> <p>5 on that?</p> <p>6 Ms. Clutter: Yeah, please.</p> <p>7 Mr. Plofchan: So each of the individual</p> <p>8 technologies you mentioned, with the exception of</p> <p>9 artificial intelligence, is really a part of a</p> <p>10 larger construct, and the larger construct is</p> <p>11 digital identity and the concept of digital</p> <p>12 identity and how it's used by our government. Is</p> <p>13 there a request here to look at individual</p> <p>14 technology stacks or more at the, forgive me,</p> <p>15 philosophical or social and governance impact of</p> <p>16 the concept of digital identity in this ecosystem?</p> <p>17 Ms. Clutter: Thank you, Tom. So I think</p> <p>18 from the perspective of this initial tasking I</p> <p>19 would actually take it up a level. We really are</p> <p>20 looking for an assessment of whether our existing</p> <p>21 frameworks are sufficient or if perhaps we may need</p> <p>22 additional frameworks or revised frameworks or</p>	<p style="text-align: right;">Page 40</p> <p>1 Ms. Sotto: And I will just add on to</p> <p>2 that. I think this tasking is actually, it's a</p> <p>3 very significant and large tasking, and I think</p> <p>4 probably there are loads of rabbit holes to go</p> <p>5 down, which Mason, will inform your next five</p> <p>6 taskings to the Committee. So thank you.</p> <p>7 Let's see. Ade, you have your hand</p> <p>8 raised.</p> <p>9 Mr. Odutola: Thanks, Lisa and Mason. A</p> <p>10 quick question, or two questions. You covered the</p> <p>11 first question, I think, when you answered Tom's</p> <p>12 question. But the second one has to do with time</p> <p>13 frame. What kind of time frame do you have for us</p> <p>14 to get this done, one, and then secondly, in terms</p> <p>15 of soliciting public input and feedback, is there</p> <p>16 any guidance on how far we should go in terms of --</p> <p>17 what's the time frame, if you have thought about</p> <p>18 that.</p> <p>19 Ms. Clutter: Great questions. So time</p> <p>20 frame, as Lisa just pointed out, this is a very big</p> <p>21 tasking. And we only have so many resources so I</p> <p>22 understand that the Committee may want to discuss</p>
<p style="text-align: right;">Page 39</p> <p>1 revised approaches to forthcoming and new</p> <p>2 technologies.</p> <p>3 So I would say that if -- and again, I</p> <p>4 definitely defer to the Committee to best assess</p> <p>5 how to implement this tasking. But my thinking</p> <p>6 here is that if the Committee, for instances,</p> <p>7 recommends that for evolving technologies we may</p> <p>8 need to take another look at our existing</p> <p>9 frameworks and make those more specific to some of</p> <p>10 these technologies, then perhaps that is a next</p> <p>11 step after this tasking. So to try to scope it</p> <p>12 into a reasonable space.</p> <p>13 This is not to take all the ten steps</p> <p>14 that may follow and then develop a framework and</p> <p>15 implement that framework. But if a recommendation</p> <p>16 comes out, we can then consider how to move forward</p> <p>17 on implementing those recommendations, which would</p> <p>18 result in additional tasking to the committee.</p> <p>19 Does that help?</p> <p>20 Mr. Plofchan: It does. Thank you very</p> <p>21 much. That's very helpful.</p> <p>22 Ms. Clutter: Yes.</p>	<p style="text-align: right;">Page 41</p> <p>1 how best to approach the tasking.</p> <p>2 I do think there are several parts here.</p> <p>3 There are some parts that may proceed others, so a</p> <p>4 staggered approach could work. Really, I think</p> <p>5 whatever works best for the Committee's resources</p> <p>6 and time, we are happy to engage there.</p> <p>7 I don't know, Lisa, if you've thought</p> <p>8 about this, but because it is so big, a phased</p> <p>9 approach, a staggered approach seems appropriate to</p> <p>10 me. So I could foresee several deliverables</p> <p>11 throughout the next year, or if the Committee</p> <p>12 decides to take this on holistically and issue a</p> <p>13 giant report, that would probably take some time.</p> <p>14 So within the next year I would like to</p> <p>15 close this out, but however best the Committee</p> <p>16 approaches this from, from a time and resources</p> <p>17 perspective, is understandable and works for us.</p> <p>18 But Lisa, do you have thoughts there?</p> <p>19 Ms. Sotto: Yeah. I think we're going to</p> <p>20 need to flesh this out. It is a big tasking. It's</p> <p>21 an important tasking because I do think it will</p> <p>22 inform what DPIAC does going forward in terms of</p>

<p style="text-align: right;">Page 42</p> <p>1 assessing specific technologies, and also</p> <p>2 understanding whether the existing frameworks, like</p> <p>3 the FIPS framework, is appropriate going forward,</p> <p>4 and that would be a big change, obviously. So we</p> <p>5 have our work cut out for us.</p> <p>6 I think the first meeting or two of the</p> <p>7 group that is going to be taking this on will be</p> <p>8 useful in shaping what the tasking looks like, and</p> <p>9 I like the idea of a phased approach, so I think we</p> <p>10 should definitely thing about that as a possible</p> <p>11 structure going forward.</p> <p>12 I would also ask that if anybody</p> <p>13 specifically wants to work on this tasking please</p> <p>14 let us know. Email Sandy and me, and we are going</p> <p>15 to put together a group to take this on.</p> <p>16 Chris, I see your hand raised.</p> <p>17 Ms. Clutter: Real quick, I think I</p> <p>18 didn't answer your second question. On engagement</p> <p>19 with privacy experts and advocates in the public, I</p> <p>20 think there are many approaches the Committee could</p> <p>21 consider, whether they are public panel events --</p> <p>22 you could host events and invite members of the</p>	<p style="text-align: right;">Page 44</p> <p>1 see over the horizon, but we are going to have to</p> <p>2 try.</p> <p>3 Chris, you had a question?</p> <p>4 Mr. Teitzel: Yeah, no. I just wanted to</p> <p>5 say thank you for this tasking. Looking through</p> <p>6 this and the conversations that we have had, I have</p> <p>7 been on the Committee a while, this is going to be</p> <p>8 super impactful and not only looking back but</p> <p>9 looking forward, including new technologies,</p> <p>10 emerging technologies. But specifically with the</p> <p>11 intent to solicit public events, public comments, I</p> <p>12 think that is something new, at least from my time</p> <p>13 on the board in the taskings that we do.</p> <p>14 So I really appreciate the opportunity to</p> <p>15 do this, and I can probably speak on behalf of a</p> <p>16 lot of folks that I am pretty energized to do it.</p> <p>17 So thank you.</p> <p>18 Ms. Clutter: Oh, thank you. That is so</p> <p>19 wonderful to hear. We are just so grateful for</p> <p>20 each Committee member's time and expertise, and we</p> <p>21 are very much looking forward to any</p> <p>22 recommendations and advice we receive through this</p>
<p style="text-align: right;">Page 43</p> <p>1 public and privacy experts to come and speak -- you</p> <p>2 could solicit, I think, public comment in written</p> <p>3 form. The Privacy Office, for instance, could</p> <p>4 facilitate a series of meetings. Really however</p> <p>5 you want to approach this to obtain the relevant</p> <p>6 information and outside perspective that is helpful</p> <p>7 to the Committee, we are here to help facilitate</p> <p>8 and support.</p> <p>9 I've seen this done in many ways. I kind</p> <p>10 of prefer an all-of-the-above approach. But again,</p> <p>11 it's really based on what best works for the</p> <p>12 Committee to hear from the experts and those with</p> <p>13 experience, both from the past and currently, on</p> <p>14 how best to inform our work over the next 20 years.</p> <p>15 Mr. Odutola: Thank you, Mason.</p> <p>16 Ms. Sotto: Great. I do think this</p> <p>17 tasking is going to require meeting with those who</p> <p>18 have made the Privacy Office what it is today,</p> <p>19 going back maybe to its inception, and then looking</p> <p>20 ahead. And the looking ahead part, I think, is</p> <p>21 going to be the most important piece of this and</p> <p>22 also the most challenging, because we can't really</p>	<p style="text-align: right;">Page 45</p> <p>1 tasking, so thank you for that.</p> <p>2 Ms. Sotto: Chris, I think that was a</p> <p>3 raised hand of participation on the subcommittee.</p> <p>4 Any other comments. Anything else from</p> <p>5 the Committee?</p> <p>6 Ms. Taylor: Lisa, I just thought I saw</p> <p>7 Courtney Barton had a raised hand.</p> <p>8 Ms. Barton: No. I was trying to give</p> <p>9 the thumbs up. I am failing miserably at that, I</p> <p>10 might add.</p> <p>11 Ms. Sotto: Thank you for articulating</p> <p>12 the thumbs up. That's good. All right. Anything</p> <p>13 else from the Committee? We have a lot of</p> <p>14 questions, Mason, for you, but we will shape those</p> <p>15 over time.</p> <p>16 Ms. Clutter: Absolutely. That is what</p> <p>17 we are here for. We are very much looking forward</p> <p>18 to engaging.</p> <p>19 Ms. Sotto: Thank you. Thank you so</p> <p>20 much. Okay. Anything else from the Committee?</p> <p>21 Public Comment Period</p> <p>22 Ms. Sotto: If not, let's open it up now</p>

<p style="text-align: right;">Page 46</p> <p>1 for public comment. I would ask that you please 2 keep your remarks under three minutes, as described 3 in the Federal Register notice. If you are joining 4 by phone, you can unmute yourself by pressing *6. 5 So I will open it up now for public comments. 6 Ms. Taylor: Lisa, I did see one comment 7 in the chat, and this was for Mason -- a question, 8 sorry -- said do some of the newer technologies 9 being discussed include/rely on automation to 10 streamline and reduce chances of human error, e.g., 11 unintentional sensitive PII releases? 12 Ms. Clutter: So I see that is from James 13 Goodwin. James, can you elaborate on that a little 14 bit more, please? 15 [Pause.] 16 Ms. Clutter: I don't know if I was on 17 mute. I was just asking James to elaborate a 18 little bit more on his question. I think this is 19 question related to tech, and whether some of the 20 new privacy-enhancing technologies that we are 21 looking into could perhaps help streamline and 22 reduce chances of human error, including</p>	<p style="text-align: right;">Page 48</p> <p>1 Ms. Sotto: Thank you, Mason. Any other 2 questions, just raise your hand. 3 [No response.] 4 Ms. Sotto: All right. Seeing none, I 5 will give you one more chance. No questions? 6 Okay. 7 All right. So this concludes our public 8 comment portion. If you wish to submit any written 9 comments you can certainly do so. Please email 10 them to privacycommittee@hq.dhs.gov, and please do 11 so by November 28th. Note also that the DPIAC 12 operates under the provisions of the Federal 13 Advisory Committee Act, as amended, and all written 14 comments will be treated as public documents and 15 will be made available for public inspection. 16 Closing Comments and Meeting Adjournment 17 Ms. Sotto: So I'm going to wrap things 18 up. Many thanks to you, to Chief Privacy Officer 19 Mason Clutter, to Committee members, and to members 20 of the public for participating in today's meeting. 21 This concludes our meeting this morning. We are 22 grateful for your interest. We encourage you to</p>
<p style="text-align: right;">Page 47</p> <p>1 unintentional PII releases. 2 So I think this relates also to Lisa's 3 question, when she asked what are we actually doing 4 in this space right now, with respect to SSN. So 5 if you think about the sensitivity of Social 6 Security numbers and how widely they are used and 7 how many breaches -- not at DHS but elsewhere -- 8 occur, our PETs initiative on SSN actually address 9 that very issue. So yes, PETs can help with 10 everything from developing and training models to 11 preventing unintentional disclosure. So from soup 12 to nuts, they really can be helpful. 13 But one thing I will flag about PETs, and 14 we are very aware, is that they are not the end-all 15 solution to the privacy issues for the Department. 16 They are one very important tool in the toolbox 17 that we intend to use, but we also have to rely on 18 our privacy governance frameworks, which is why we 19 are issuing this tasking today to ensure that we 20 have the appropriate frameworks in place, moving 21 forward, as we are implementing and using enhanced 22 technologies.</p>	<p style="text-align: right;">Page 49</p> <p>1 follow the Committee's work by checking our web 2 page. And the minutes of today's meeting will be 3 posted there in the near future. 4 And with that this meeting is adjourned. 5 Thank you. 6 Ms. Clutter: Thank you. 7 (Whereupon, at 9:52 a.m., the meeting was 8 adjourned.) 9 10 11 12 13 14 15 16 17 18 19 20 21 22</p>
