Close out subject info from this morning: Subject #1: (b)(6), (b)(7)(C) Charge: 18 USC 111 - Assault on a Federal Officer. Booked into Multnomah County Jail. Subject #2: (b)(6), (b)(7)(C) Charge: Arson. Booked into Multnomah County Jail. Seattle: NSTR All other Region-10 AOR: NSTR
12. Projected Incident Activity for the next operational period: Portland: Currently (b)(7)(E) on planned protest activity. Fully expect same type of activity as last operational period. Generally, most of (b)(7)(E) is discussing the local government reaction to protection activities conducted by federal agencies the last couple of days. As expected, we are (b)(7)(E) numerous attempts to dox DHS/USMS personnel and attempted discovery of lodging with check in/check out dates. All personnel are taking precautions when transiting between downtown area and lodging as well as only using secured parking. FPS R10 Mission Support Branch Chief is working with local hotels for options should it be necessary to start moving personnel to different lodging. Seattle: Starting to see trend on (b)(7)(E) for groups calling for more activity as Portland has taken over the new cycle in regards to protest activity. Interest does not seem to be as high as it was a few weeks ago. Aside from march that caused damage (graffiti) to numerous federal facilities yesterday, we are not tracking any major activity with a federal nexus.

As expected, we are (b)(7)(E) numerous attempts to dox DHS/USMS personnel and attempted discovery of lodging with check in/check out dates. All personnel are taking precautions when transiting between downtown area and lodging as well as only using secured parking. FPS R10 Mission Support Branch Chief is working with local hotels for options should it be necessary to start moving personnel to different lodging. Seattle: Starting to see trend on (b)(7)(E) for groups calling for more activity as Portland has taken over the new cycle in regards to protest activity. Interest does not seem to be as high as it was a few weeks ago. Aside from march that caused damage (graffiti) to numerous federal facilities yesterday, we are not tracking any major activity with a federal nexus.

Generally, most of (b)(7)(E) is discussing the local government reaction to protection activities conducted by federal agencies the last couple of days. As expected, we are (b)(7)(E) numerous attempts to dox DHS/USMS personnel and attempted discovery of lodging with check in/check out dates. All personnel are taking precautions when transiting between downtown area and lodging as well as only using secured parking. FPS R10 Mission Support Branch Chief is working with local hotels for options should it be necessary to start moving personnel to different lodging. Seattle: Starting to see trend on (b)(7)(E) for groups calling for more activity as Portland has taken over the new cycle in regards to protest activity. Interest does not seem to be as high as it was a few weeks ago. Aside from march that caused damage (graffiti) to numerous federal facilities yesterday, we are not tracking any major activity with a federal nexus.
