Incident Summary:

*11. Significant Events for the Report Period (summarize significant progress made, incident growth, challenges encountered, etc) Portland: NSTR. See box 17 of the R-10 ICS 209 report # 164 for more information regarding events that occurred around 0553. Seattle: Anti-ICE Protest scheduled for downtown Seattle, Sunday 7/19/2020 at 1100 hours occurred. At approximately 14:23 violent opportunists attacked the Nakamura Federal Courthouse in Seattle, WA (1010 5th Avenue). The PSO located at the Nakamura Courthouse advised that something was thrown into the building with explosion following shortly thereafter. The PSO took cover on the third floor and reported the smell of smoke. At 14:24 FPS units began to arrive on scene. Upon initial assessment, the glass of the front doors were broken and the front side of the building had been vandalized with graffiti. Two American flags were set on fire outside of the Courthouse and four (4) smoke canisters were discovered in the front lobby. FPS units conducted floor sweeps and concluded subjects did not enter the facility and nobody was on scene when FPS arrived. FPS noted the damage was a result of violent opportunists who attached themselves to the Anti-ICE demonstration in the area. See photos with accompanying ODV Nakamura Courthouse 7-19-2020 1700 164.pdf. Reports of vandalism at U.S. Courthouse located at 700 Stewart, Avenue, Seattle, WA reported at 1700. Further will be given in R10 ICS 209 July 2020 165 1800. All other Region-10: NSTR
12. Projected Incident Activity for the next operational period: Portland: Activity similar to last operational period expected. Seattle: Planned Protest: BLM youth activist "Strike for Collective Justice", Monday, July 20, 2020, 1300, at Occidental Park Pioneer Square Seattle.

*2. Report Number: 164

Additional Incident Decision Support Information (continued):

17. Additional Remarks (continue any previous blocks or highlight any logistics or other support requirements): 0553: In regards to the Hatfield Courthouse, Special Agent (b)(6) advised that Portland EOD has not responded and has an extended ETA. Due to approximately 60-70 protesters still being in the area and the nature of the protest that occurred at the location, the area has not been cordoned off and a law enforcement unit has not responded to the immediate vicinity of the package. The suspicious package was described as a small cylinder shape, dark in color and approximately two to three inches in length. Through CCTV footage, a male and female were observed approaching the fence panels and tied the package to the fence with a rope (from Spot Report 20D025503). FBI Special Agent Bomb Techs (SABTs) responded and completed initial investigation. The device was a commercially available smoke pyrotechnic. The explosion at the plywood door was assessed as a commercially available pyrotechnic/firework. Item 1 was reported by the USMS as an IED attached to a fence outside the courthouse with a tripwire running to a courthouse door. SABTs determined that this item consisted of one commercially available smoke generating/signaling pyrotechnic that had been set to a line and attached to door on the Hatfield. This pyrotechnic was rendered safe. (b)(7)(E)

(b)(7)(E) SABTs assess that this is NOT a destructive device. Item 2 was reported by the USMS as a breach in the door and plywood barrier consistent with an explosion. SABTs found this location and conducted a post-blast analysis. Their analysis indicated that the explosion was consistent with a commercially available pyrotechnic. The post-blast investigation did not locate evidence consistent with a destructive device (no components discovered, etc.). (b)(7)(E)

(b)(7)(E) No other pieces of evidence were discovered in the post blast investigation. (b)(7)(E)

Incident Summary:

*11. Significant Events for the Report Period (summarize significant progress made, incident growth, challenges encountered, etc) Portland: DHS/USMS Teams briefing and preparing to assume posts. Seattle: Graffiti was discovered during the Seattle protests at the U.S. Courthouse, located at 700 Stewart Street. The graffiti was located on the 8th Avenue side of the building. The focus of the protest was mainly directed towards the Seattle Police Department's (SPD) West Precinct, which received damage by way of graffiti and broken windows. A low-level incendiary device was used by violent opportunists at the West Precinct, which caused two SPD Officers to receive non-life threatening injuries from the devices "shrapnel". Unconfirmed reports state one SPD officer was struck in the neck, while another was struck in the arm by a BB from the device. An FPS Explosive Detection Canine (ECD) team assisted SPD for secondary devices after the incident, with no devices secondary devices found. **Note: A post on (b)(7)(E) stated, "Seattle protesters went down to the #PDXprotests last night to recruit for #seattleprotests. Should be interesting to see how quiet Portland is tonight with all the black bloc wearing comrades out of town." All other Region-10: NSTR

Incident Summary:

*11. Significant Events for the Report Period (summarize significant progress made, incident growth, challenges encountered, etc.) Portland: at approx. 1930, crowd of about 500 protesters in front of justice center and Hatfield USCH. We've had small groups come onto plaza and fire Roman candles at the building and each other. (b)(7)(E) lost control of a drone over Chapman park. It crashed and was recovered by protesters. (b)(7)(E) At approx. 20:57, Portland Police Bureau (PPB) reported approx. 500 protesters in Chapman and Lownsdale Park. Parks are directly across street from Multnomah Justice Center (JC) and Hatfield Courthouse. Seattle: Tracking two protest groups. First is march to Mayor Durkin's house, approx. 4,000 protesters. No federal facilities in vicinity. This march is taking most of the attention on (b)(7)(E) Second group is currently at the Western Police District (SPD). Unknown number and peaceful so far. Western Police District is one block from US District Courthouse at 700 Stewart.
12. Projected Incident Activity for the next operational period: (b)(7)(E) will be in operation from 1400-0200 7/3 and 7/4 2020. Seattle: 4th of July, potential for clashes between alt-right and left wing groups. Daily march on West Precinct - SPD Numerous other planned rallies / protests around Seattle Portland: PDX Black Futures protest - Pioneer Square Blacks for Freedom March - location TBA Stand on Every Corner - SE 172nd & hwy 212 Standing at the Gate Justice Center

*2. Report Number: 5

Incident Summary (continued):

13. Current Incident Threat Summary and Risk Information (summarize primary incident threats to life, property, other critical infrastructure and key resources, and continuity of operations and/or cascading impacts):

Portland: Continued protest activity expected with anticipation that Hatfield Courthouse will be a primary focus of protesters due to activity in the last 24 hours. Expected activity will most likely include, attempts to breach perimeter of facility, the removal of wood covering doors and windows, breaking of glass, and assault on LEOs.

Seattle: Protest activity expected to include the daily march on the West Precinct of Seattle Police Department (SPD). This may have effect on U.S. District Court at 700 Stewart due to proximity of West Precinct to the Courthouse.
