		I am seeking documents from the Department of Homeland Security regarding the Federal Emergency Management Agencys budget for responses to natural disasters and extreme weather in	
		Puerto Rico. Specifically, I am looking for documents with a full breakdown of the FEMAs budget (a budget detail spreadsheet) for relief from Hurricanes Irma and Maria in September 2017,	
		including the specifics of where each dollar was allocated (resources, infrastructure projects, wages, etc.) I request the same budget documents and specifics of resources allocation that have	
		been drafted thus far for relief to Puerto Rico and to Florida in the midst of hurricanes Fiona and Ian in September of 2022.

		This is a request for information under the Freedom of Information Act. In recent months the Federal Emergency Management Agency has provided the Georgia Emergency Management and Homeland Security Agency with regular reports related to FEMAs response to the coronavirus pandemic.	
		The reports are titled: PPE Shipments By U.S. Government and Commercial Distributors GA. An Excel spreadsheet titled RECENT CHANGES IN DEATHS BY STATE AND COUNTY, which contains multiple sheets containing information on COVID, cases, cases per 100,000, deaths and other statistics by count, state and territory. Ventilator Usage Report By State And Territory. Ive attached examples of these reports, redacted by GEMA. Please provide unredacted copies of the most recent reports.	
		We request expedited process of this request because an urgency to inform the public concerning actual or alleged Federal Government activity exists.	
		We are willing to pay applicable fees to process this request. However, we request waiver of fees because disclosure is in the public interest because it is likely to contribute significantly to public understanding of the operation or activities of the government and is not primarily in the commercial interest of the requester.

		According to the Individual Assistance Program Policy Guide it looks like Kentucky would have filed the form with the Regional Administrator's office. (KY is in FEMA's Region 4 of course.) If you	
		need more information on what this form contains or the purpose of it, please check out page 149 in that manual.	
		Also I may have gotten the incorrect Form number as it looks like the code for the form was changed in 2021. It was formerly coded Form 010-0-11 but I believe may now be FF-104-FY-21-114.	
		Either way, the title should be "ONA Administrative Option Selection Form."	
		It may be part of the larger State Administrative Plan (SAP) filed with the regional administrator which, if I can revise this request a bit, I would also like a copy of.

		Program (IHP) within the Other Needs Assistance (ONA) category, specifically, record-level information about transportation assistance eligibility and amount received by applicants. Specifically,	
		I requested the following observation-level information for the past twenty years:	
		1. Was the applicant eligible for transportation assistance under ONA? (analogous to the personalPropertyEligible variable);	
		2. Did the applicant apply for transportation assistance under ONA?;	
		3. How much transportation assistance did the applicant received in dollars (analogous to the personalPropertyAmount variable);	
		4. Was the transportation assistance requested because of flood damage to a vehicle or vehicles?;	
		5. How much flood damage was incurred on the applicants vehicle(s) during the disaster event?	
		In response to this request from February 2022, FEMA particularly with the assistance of Government Information Specialist Juan Vegaâ€″shared a Microsoft Excel data file along with a	
		corresponding letter (attached) on 4/20/2022. This Excel file includes the following data fields:	
		1. DR	
		2. State	
		3. Eligible for Transportation Assistance Under ONA	
		4. Approved Transportation Amount	
		5. Vehicle Damaged by Flood Y/N	
		Unfortunately, this Excel data file only includes these five data fields, and does not include an "ID" data field that allows information from this Excel file to be matched with record information	
		from the larger "Individuals and Households Program - Valid Registrations - v1" data set found at the following URL https://www.fema.gov/openfema-data-page/individuals-and-households-	
		program-valid-registrations-v1.	
		In this current FOIA request, I am requesting the same five data fields of data for the records shared in request 2022-FEFO-00281 along with one additional data field: the "ID" variable which	
		allows these records to be joined with corresponding record information in the "Individuals and Households Program - Valid Registrations - v1" data set. Ideally, in addition to the five data fields shared in connection with 2022-FEFO-00281, I am requesting FEMA share this ID information so that I can identify record-level specifics for these records contained in the "Individuals and	
		Households Program - Valid Registrations - v1" data set (e.g., applicant county, income, etc.). In the event this ID variable is for some reason unavailable or not consistent with the records in the	
		"Individuals and Households Program - Valid Registrations - v1" data set, then I request the same data shared via my 2022-FEFO-00281 request, including information from the five data fields
