

Nonprofit Security Grant Program: Fiscal Years 2021- 2023 Report to Congress

September 27, 2024

Fiscal Year 2024 Report to Congress

**Homeland
Security**

Federal Emergency Management Agency

Message from the Administrator

September 27, 2024

I am pleased to present the report, “Nonprofit Security Grant Program: Fiscal Years (FY) 2021–2023 Report to Congress,” which was prepared pursuant to the Joint Explanatory Statement, House Report 118-123, and Senate Report 118-85 accompanying the Fiscal Year (FY) 2024 Department of Homeland Security (DHS) Appropriations Act (P.L. 118-47). This report highlights funding for the Nonprofit Security Grant Program (NSGP) for FYs 2021, 2022, and 2023, as well as outreach efforts specific to Historically Black Colleges and Universities (HBCUs).

Pursuant to congressional requirements, this report is provided to the following Members of Congress:

The Honorable Mark Amodei
Chairman, House Appropriations Subcommittee on Homeland Security

The Honorable Lauren Underwood
Ranking Member, House Appropriations Subcommittee on Homeland Security

The Honorable Chris Murphy
Chair, Senate Appropriations Subcommittee on Homeland Security

The Honorable Katie Britt
Ranking Member, Senate Appropriations Subcommittee on Homeland Security

Inquiries relating to this report may be directed to Federal Emergency Management Agency’s (FEMA’s) Congressional Affairs Division at (202) 646-4500.

Sincerely,

A handwritten signature in black ink that reads "Deanna Criswell". The signature is fluid and cursive.

Deanna Criswell
Administrator
Federal Emergency Management Agency

Executive Summary

The following report, “Nonprofit Security Grant Program: Fiscal Years 2021–2023 Report to Congress” has been prepared by the Federal Emergency Management Agency (FEMA) within the U.S. Department of Homeland Security (DHS). This document has been compiled pursuant to direction in the Joint Explanatory Statement and House and Senate reports, which accompanied the FY 2024 DHS Appropriations Act (P.L. 118-47).

The content of the report below includes data maintained by the Nonprofit Security Grant Program (NSGP) support staff to capture the number of subapplications submitted annually, the amount of funding requested by nonprofit organizations through those subapplications, the number of subapplications awarded funding in each fiscal year, and the amount of funding awarded to nonprofit organizations as subrecipients in each fiscal year. Additionally, this report includes details of outreach efforts and future plans to connect more directly with HBCUs.

Nonprofit Security Grant Program: Fiscal Years 2021-2023 Report to Congress

I. Legislative Language

The Joint Explanatory Statement and House and Senate reports accompanying the FY 2024 DHS Appropriations Act (P.L. 118-47) include the following requirements:

The Joint Explanatory Statement states:

Nonprofit Security Grant Program. – FEMA shall submit a report to the Committees on the Nonprofit Security Grant Program for fiscal years 2021, 2022, and 2023, consistent with the direction under this heading in the House and Senate reports. Within 180 days of the date of enactment of this Act and pursuant to guidance in the House report, FEMA is directed to brief the Committees on its efforts to increase awareness of these grants and technical assistance provided to Historically Black Colleges and Universities, including efforts made to date and future plans.

Senate Report 118-85 states:

Nonprofit Security Grant Program [NSGP]. – The Committee directs FEMA to provide, within 180 days of the date of enactment of this act, a report on fiscal year 2021 and 2022 NSGP funding awards, the number of grant applicants in those years, and any quantitative or qualitative results or other outcomes related to such awards.

House Report 118-123 states:

Nonprofit Security Grant Program. – Within 180 days of the date of enactment of this Act, FEMA is directed to submit a report to the Committee on the Nonprofit Security Grant Program for fiscal years 2021, 2022, and 2023. The report shall detail by fiscal year: the number of grant applications submitted; the total amount of grant funding requested; the number of grants awarded; and, for each grant award, the name of the recipient, the amount, and the project type. The report shall also include an analysis of the impacts of the program, including tangible results demonstrating how the program has improved preparedness and reduced the risk of terrorist or other extremist attacks.

FEMA shall work with state agencies to ensure that Historically Black Colleges and Universities are aware of their eligibility to apply for these grants and the FEMA training and technical assistance available to them to facilitate the application process.

II. Background

The Federal Emergency Management Agency (FEMA) is responsible for administering DHS's suite of security grant programs. The Nonprofit Security Grant Program (NSGP) is a competitive grant program appropriated annually. It is intended to help nonprofit organizations increase their physical security posture against acts of terrorism or other extremist attacks. FEMA has received anecdotal evidence from over 60 nonprofits indicating that NSGP funded equipment and/or services have assisted in preventing or mitigating acts of violence or vandalism in recent years. This evidence includes:

- Communication systems and emergency planning used to evacuate a facility and communicate situational awareness to stakeholders and the broader community.
- Camera systems used to identify vandals posting hate speech on organization campuses.
- Access control systems prevented aggressive and threatening individuals from entering the facility, who were then located by local law enforcement using security camera footage.
- Shatterproof film installed on windows prevented assailants from accessing facility.
- Entrance security measures were used to prevent people from bringing multiple firearms into the facility.
- Creation of collaborative relationships with local law enforcement allowing for shared information, advice on best practices, and increased community awareness.

III. Data Report

The following serves as a public report providing an overview of the FY 2021, FY 2022, and FY 2023 NSGP awards. Included in this report is background information on the NSGP, FY 2021 through FY 2023 application and award data, and recent program highlights related to external engagement. Each NSGP award has a three-year period of performance.

Eligibility and Engagement

The State Administrative Agency (SAA) is the only entity eligible to apply for NSGP funds. Names of funded nonprofits are not released publicly due to security concerns and the nature of the program but are provided to Congress each fiscal year in the Allocation Announcement All Congress Notification. The All Congress Notification also contains the total award amount to each State and Urban Area. The SAA applies to FEMA on behalf of eligible nonprofit organizations (subapplicants) that are at high risk of terrorist or other extremist attack. Eligible nonprofit organizations are those organizations described under section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code.

The NSGP has historically benefitted underserved or marginalized groups given that the nonprofits it serves are often:

- Comparatively smaller organizations with less capital/discretionary spending; and/or
- Typically represent groups that are the targets of attacks against them based on some part of their identity or characteristics.

Over the last several years, FEMA's Grant Programs Directorate (GPD) has made significant improvements to increase access to program information and lessen barriers for interested organizations. These efforts have resulted in significantly increased access to information and success by new applicants in receiving awards and have consistently supported the Administration's priorities of equity and diversity. Recently, GPD developed and published the first external-facing, plain-language guide for nonprofit subapplicants and created an NSGP introductory video to provide a static resource explaining the program to interested stakeholders. Additionally, the program's application form was transformed into a fillable PDF, making the file accessible for stakeholders with assistive technology. Each of these improvements resulted in a better understanding of the program by nonprofits and increased accessibility to actionable tools and resources, in turn leading to a stronger pool of subapplications.

Looking forward, it will be a continuing priority of the program, reinforced by the priorities of the Administration, to further increase and improve outreach and access to information for underserved, underrepresented, and/or historically marginalized communities. This will be implemented in various ways, including through cross-organizational working groups, formalized partnerships, and continued outreach activities. In recent years, the NSGP has partnered with the Cybersecurity and Infrastructure Security Agency (CISA), Department of

Justice (DOJ) Community Relations Service, and DHS Center for Faith-Based and Neighborhood Partnerships. Utilizing these partnerships, FEMA has been able to reach over 63,000 individuals. The NSGP also has active partnerships with the Latino/Hispanic community; the Jewish Federations of North America; the Secure Communities Network (SCN); Historically Black Colleges and Universities (HBCUs); LGBTQIA+ Organizations; the Council on American-Islamic Relations (CAIR); the Muslim, Arab, Sikh, South Asian, and Hindu communities; and more. FEMA also recently published Spanish and Arabic translations of key NSGP materials on [FEMA.gov](https://www.fema.gov) to further increase program accessibility.

Specific to the Committee’s request for engagement information related to HBCUs, FEMA tracks both its own program-hosted outreach, as well as that led by FEMA’s federal partners. The engagements with an HBCU focus identified in the Table 4 below were hosted by our federal partners with NSGP participation.

Data Results

Table 1 below captures:

- The numbers of subapplications in each fiscal year.
 - This data does not reflect the number of individual nonprofits requesting funds, as organizations can submit multiple funding requests for unique physical buildings/locations/branches of a single organization.
- The total amount of funding requested by subapplicants in each fiscal year.
 - This data reflects a year-over-year oversubscription of NSGP, meaning that the funding requested by nonprofits exceeds the corresponding annual appropriation.
- The total number of subapplications funded.
 - This data does not reflect the number of individual nonprofits requesting funds, as organizations can submit multiple funding requests for unique physical buildings/locations/branches of a single organization.
 - Additionally, this data does not capture expenditure or project level information. As the direct applicant of passthrough funding, SAAs are administrators of NSGP at the project level.
- The total amount of funding obligated to nonprofit organizations.
 - Starting in FY 2022, NSGP appropriations included 5 percent of allocated funds for SAAs Management & Administration (M&A) costs. Therefore, the total amount of funding available to nonprofit subapplicants was 95 percent of the total congressional allocation.

Table 1: FY 2021 – FY 2023 Award Statistics

| | FY 2021 | FY 2022 | FY 2023 |
|---|----------------|----------------|----------------|
| Number of Subapplications | 3,313 | 3,454 | 5,182 |
| Total Amount Requested | \$402,544,164 | \$447,422,322 | \$678,757,295 |
| Number of Subapplications Funded | 1,532 | 1,821 | 2,201 |
| Total Amount Funded | \$180,000,000 | \$237,500,000* | \$289,750,000* |

*Includes 5% of allocated funds for SAA’s M&A costs; therefore, funding available to nonprofit subapplicants was 95% of the total congressional allocation.

Table 2 below captures an overview of the funding specific to Urban Areas (UA) within each state over the fiscal years requested. The data includes the amount of funding directed to nonprofit subapplicants and, beginning in FY 2022, the M&A funding awarded across the state. Additionally, this data is totaled for FYs 2022 and 2023.

Information specific to subapplicants and subrecipients, including organization name, funded amount, and project information is not publicly available due to the nature of the program and the inherent security concerns associated with detailing the grants provided to organizations deemed to be a heightened risk of terrorist or other extremist attack. Subrecipient information is provided to Congress annually as part of the All Congress Notification. Project level details are retained at the SAA-level and are not tracked by FEMA.

Table 2: FY 2021 – FY 2023 NSGP-UA Funding*

| State | FY 2021 | FY 2022 | | | FY 2023 | | |
|--------------|----------------------------|---|-------------------|--|---|-------------------|--|

Table 4 below captures data related to outreach efforts formally tracked over the fiscal years requested. While NSGP has conducted extensive and continuous external outreach in recent years, formal tracking of these efforts and identification of audiences did not begin until FY 2022. Additionally, due to regulations and policies surrounding the collection and storage of

Personally Identifying Information (PII), information on individual participants across engagements cannot be tracked to a level of certainty regarding the number of individuals reached. In order to consistently improve and expand outreach efforts, NSGP leverages relationships with other entities – most notably the DHS Center for Faith-Based and Neighborhood Partnerships – to broaden the potential reach of information shared. The data below reflects only those engagements that were specific to or directly hosted by an entity with ties to the HBCU community. These numbers do not reflect other publicly available engagements which are shared with and open to all interested parties.

Table 4: Engagements with an HBCU Focus

| | FY 2021 | FY 2022 | FY 2023 |
|---|--------------------------------------|----------------|----------------|
| Number of Engagements Recorded | No formal tracking metrics available | 3 | 2 |
| Approximate Number of Attendees* | No formal tracking metrics available | 643+ | 475+ |

*These attendance numbers are provided by engagement hosts. As a result, FEMA cannot report on the validity of numbers, specific participants, or attendees. Additionally, not all events shared attendance data.

IV. Conclusion

The above data captures statistics maintained by NSGP staff to track the amount of funding requested and the volume of subapplications year over year. Additionally, this data reflects the amount and volume of subawards made over time and provides information on the amount of M&A funding provided to SAAs since this became allowable in FY 2022. Finally, the information contained in this report also reflects the metrics available to capture outreach specifically tied to the HBCU community. This data is only available based on metrics collected at the time of outreach and federal regulations regarding PII, and it does not account for the full breadth of extensive public-facing outreach the program conducts that is open to all interested groups and individuals.

V. Appendix: List of Abbreviations

| Abbreviation | Definition |
|---------------------|---|
| CAIR | Council on American-Islamic Relations |
| CISA | Cybersecurity and Infrastructure Agency |
| DHS | Department of Homeland Security |
| DOJ | Department of Justice |
| FEMA | Federal Emergency Management Agency |
| FY | Fiscal Year |
| GPD | Grant Programs Directorate |
| HBCU | Historically Black Colleges and Universities |
| LGBTQIA+ | Lesbian, Gay, Bisexual, Transgender, Queer/Questioning, Intersex, Asexual, Plus |
| M&A | Management and Administration |
| NSGP | Nonprofit Security Grant Program |
| NSGP-S | Nonprofit Security Grant Program-State |
| NSGP-UA | Nonprofit Security Grant Program-Urban Area |
| PII | Personally Identifying Information |
| SAA | State Administrative Agency |
| SCN | Secure Communities Network |
| UA | Urban Area |
