## National Academy of Sciences IV (NAS4)

The Department of Homeland Security (DHS) wide ordering agreement with the National Academy of Sciences (NAS) provides studies and analysis in support of DHS's science, technology, medical, engineering, and security programs and initiatives.

The NAS will use its expert capabilities to deliver its core services by collecting, analyzing, and sharing information and knowledge with DHS within the following functional support (FS) categories:

- FS-1: Research & Analysis
- FS-2: Planning & Collaboration
- FS-3: Program Implementation & Follow-up Support
- FS-4: Conferences/Symposia

### Key Contract Vehicle Features:

- Provides access to highly qualified experts for research and advice based on DHS's unique needs.
- Standardizes procurement processes, reduces procurement lead times, and improves efficiency in allocation of resources.
- Eliminates contracting effort duplication.
- Increases efficiency and convenience in the ordering process.

### Period of Performance (POP):

- Five years (1/17/2025 - 1/16/2030)

### Number of Awardees:

- One large business
