(b)(6);(b)(7)(C) We will likely need to tie the CATEX for use of the road into the CATEX for the other work that will be complete for the fence prototypes since the access road on the GSA property will be used to support the prototype effort. We are in the process of awarding a contract to complete surveys for the prototype area but that will take some time to get the survey work completed and conduct any needed consultation. We should have a time frame for completion this week.

(b)(6);(b)(7)(C)

GSA will require a copy of the NEPA documentation for the prototype fence project at Otay Mesa before they can process the necessary permits. The CATEX that was prepared for the tent city will not suffice.

Please let us know how things are proceeding.

Thanks,

OK, so all of CBP/BP's activities will occur in the 75 - 100' corridor on the east side of the site?

Alcon,

(b)(6);(b)(7)(C) Myself, (b)(6);(b)(7)(C) had our meeting this morning to discuss the GSA NEPA concerns (items 1 and 2) and attempted to understand the BPAM use of the area for the license and complete the exhibit. (b)(6);(b)(7)(C) as you were not able to attend, I did the best I could to help guide the discussion.
