(b)(6)(b)(7)(C) - Are there any BMPs for the gate install (b)(6)(b)(7)(C) needs to be aware of?

I'll also let POE know tomorrow at my meeting with them that we'll be starting work

(b)(6)(b)(7)(C), we'll need to let POE know when (b)(6)(b)(7)(C) starts on the actual fence penetration work so they can route trucks to right side as needed

Subject: [EXTERNAL] RE: Access to Otay Mesa POE GSA Lot

GSA gave us permission to access the lot so that (b)(6)(b)(7)(C) can start putting the gate in the fence but we need to finish our CATEX and conduct an owl survey before they will allow us to improve the access road (even though we saw today there is really know burrows)

Good morning (b)(6)(b)(7)(C),

My apologies for the delay in my reply... I do not believe that the gate will be an issue, just awaiting approval from the (b)(6);(b)(7)(C), (b) (7)(F), GSA before I can concur.

Respectfully,

(b)(6);(b)(7)(C), (b) (7)(F), GSA

Hi (b)(6);(b)(7)(C), (b) (7)(F), GSA

Please see the message from (b)(6)(b)(7)(C) ofCBP below. Can you assist him with his request?

(b)(6)(b)(7)(C), I have copied (b)(6);(b)(7)(C), (b) (7)(F), GSA on this message as well. He is the person to whom you will be sending the environmental repo completed.

Best,

(b)(6);(b)(7)(C), (b) (7)(F), GSA

Thank you for speaking with me this afternoon regarding access to the vacant GSA lot located to and east of the Otay Mesa POE. As you know CBP has requested use of the eastern portion of the vacant GSA lot for the purpose of an access road that will allow construction contractors executing CBP's border wall prototype project (to be executed further east of the POE) access to the project area.

We are currently working to execute a contract to conduct the needed Burrowing Owl survey and completing our environmental planning process (i.e. a CATEX) for the project. However, the environmental planning process is expected to take at least 45 days to allow for adequate consultation with the SHPO and local native American tribes. CBP needs 4 to 6 weeks lead time to install a gate within CBP's secondary fencing that abuts the south end of the vacant GSA lot. The installation of the gate is expected to take 4 to 6 weeks and in order to meet our current schedule for execution of the prototype project we will need to start the installation of the gate within the next two weeks.

CBP is requesting access to the GSA vacant property to begin installing the gate on the CBP owned secondary fence. We will not be conducting any improvements to the access road on the vacant GSA lot until our environmental planning documentation is complete and a burrowing owl survey is completed. The road improvement work is expected to only take one week and can be conducted following gate installation.

Please let me know who the local GSA POC is that can provide authorization to proceed.

Thank you,
