Hi

(b) (6), (b) (7)(C)

(b) (6), (b) (7)(C) and I have imported the KMZs of the proposed alignment to the Google Earth app on our phones. That app has GPS and can show our location and the proposed alignments simultaneously. I've also attached the O-1 thru O-3 real estate recommendation for what is between the start/stop areas. We are working at developing a plan for the additional (b) (6), (b) (7)(C) miles.

Our understanding is that the O-1 thru O-3 alignments have not been plotted out. Are there plans to plot the proposed alignment on this trip?

Let's plan on seeing O-1 and O-2 on the 13th and 14th (we saw O-3 a couple of weeks ago). I'm planning to arrive into McAllen on the evening of the 12th and depart McAllen at 6:40 PM on the 14th. Please let me know if you have any questions.

Thanks

Thank you, (b) (6), (b) (7)

Would you mind forwarding a copy of the itinerary so travel plans can be made?

Hi (b) (6), (b) (7)

It's going to be a small group-similar to a couple of weeks ago. I'd like to limit to 1 real estate SME if possible.

On a separate but related matter, any thoughts on how we can use technology (pre-programmed GPS handhelds; superimposing the alignments on google satellite images??) to help us determine where the current approved alignments are in the field. We really struggled two weeks ago w/ border patrol trying to locate coordinates in the field based on a hard copy piece of paper.

Thanks

Real estate is interested in participating in the site visit (b) (6), (b) (7)(C) mentions below. How many real estate people can you accommodate on your site visit? Are you doing a small visit or something slightly larger than last time? Also, would it be possible for us to get a copy of the itinerary?

Thank you,
