Hi,

I will set up a call to discuss on Monday. Please do not distribute until we have had the chance to discuss.

If the time of the invite doesn’t work for you, just let me know and I can change it.

I put [redacted] on this thread so she can fact check my responses below. Thank you!

Q: what year funding for this project was first requested (if there’s a public document showing this request, I’d like a copy or a link)

(b) (5)

Q: how much was initially requested

(b) (5)

Q: what year funding for this project was approved and what line item in the budget it corresponds to

(b) (5)

Q: when the contract was awarded

(b) (5)

Q: why the particular contractor was selected

(b) (5)

Best Regards,

Hi and –

Please see questions below from the San Diego Tribune re: the Calexico wall replacement project.

Hoping we can hop on a quick call Monday to talk these through?

Thanks,

I’d like to know:
- what year funding for this project was first requested (if there’s a public document showing this request, I’d like a copy or a link)
- how much was initially requested
- what year funding for this project was approved and what line item in the budget it corresponds to
- when the contract was awarded
- why the particular contractor was selected
Subject: RE: money allocation for Calexico fencing project

Share with this group or [(b)(6), (b)(7)(C)] What I have may generate more questions.

These are her questions:
- what year funding for this project was first requested (if there’s a public document showing this request, I’d like a copy or a link)
- how much was initially requested
- what year funding for this project was approved and what line item in the budget it corresponds to
- when the contract was awarded
- why the particular contractor was selected

Below is what I uncovered:

The reference of the SWF Constructors (El Centro Wall Builders) is on USASpending: This is with the Department of Defense for the Army Corp – not under CBP. **Current Contract Value is: $10,978,795 [(b)(5)]**

Can you help me with the request below? See questions below from [b](6), [b](7)(C)
can you share the cost related data that we have at this point?

Hi

Thanks for the info.

Are you able to point to the line item in the budget where the money came from?

Looking forward to answers to the other questions below before my deadline this afternoon.

Best,

(b) (6)
I have no timeline for the San Diego project at this point.

Thanks,  That adds some questions for me:

Has the replacement project in San Diego contract been awarded yet? When is it starting?

Best,

Subject: RE: money allocation for Calexico fencing project

This project was funded with FY17 money, just like the replacement project in San Diego, El Paso and the 35 gates in RGV.

I’ll have the folks in San Diego reach out tomorrow.

Hi there,

I’ve tried calling yesterday and today but haven’t been able to reach anyone.

I’m working on a story with a deadline of tomorrow afternoon about the Calexico border wall project.

I have some questions about when the funding was allocated and through which item in the budget.

I’d like to know:
- what year funding for this project was first requested (if there’s a public document showing this request, I’d like a copy or a link)
- how much was initially requested
- what year funding for this project was approved and what line item in the budget it corresponds to
- when the contract was awarded
- why the particular contractor was selected

Any additional information you’d like to provide on this topic would be welcome as well.

Thanks for your time,
Hi QC’d this info and with replied with 1 comment – the funding is FY17. That is in line with the responses below.

Per our call with and , they will forward you any requests for data-like information (dates/contracts/funding, etc…) and you will QC the information to ensure accurate response each time. You also mentioned that you will create an FAQ document (starting with info below).

Thank you.

I. AUTHORITY

The authority of the Department of Homeland Security (DHS), U.S. Customs and Border Protection (CBP) ("Requesting Agency") and the U.S. Army Corps of Engineers (USACE) ("Servicing Agency") to enter into this Interagency Agreement (IAA) is the Economy Act of 1932 (31 U.S.C. 1535), resulting in an assisted acquisition.

II. OBJECTIVE/PURPOSE

This Interagency Agreement (IAA) is between the U.S. Army Corps of Engineers (USACE) U.S. Customs and Border Protection (CBP) to assist CBP’s Office of Facilities and Asset Management (OFAM), Border Patrol Air and Marine (BPAM) Program Management Office (PMO) in performing programmatic, acquisition, project planning, and project execution activities in support of the U.S. Border Wall as required by Executive Order 13767 (Attachment A).

The goal of USACE is to execute the assigned CBP projects on schedule and to seek opportunities to continually improve service to CBP. Applying best practices, the USACE will continually strive to improve its delivery of high quality products and services on time and at the best value.

The partnership with USACE is essential to completing border barrier construction. CBP has a need for the USACE to provide technical expertise and support for design standard, master planning, and acquisition management requirements encompassing program and project management, cost estimating, design, real estate oversight, environmental planning, construction and contract administration support through an assisted acquisition. CBP and USACE have a memorandum of agreement (MOA) that establishes a mutual framework governing the respective responsibilities of USACE and CBP for the provision of goods and services pursuant to the Economy Act (31 U.S.C. § 1535).

III. SCOPE

This Statement of Work describes the comprehensive scope of support services for CBP’s Border Barrier Systems requirements. Specific details on each project will be documented in Project Requirement Documents (PRD) agreed to by the project team members from both the
BORDER BARRIER SYSTEMS

Servicing and Requesting agencies. PRDs will be included in the IAA file, but all changes within scope of the PRDs and this IAA will be executed via the BPAM Change Management Process. Modifications to the IAA will be issued every quarter to account for the updates made through the Change Management Process.

IV. REQUIREMENTS/TASKS:

USACE will use its best efforts to provide the following services either by contract or by in-house efforts to support CBP’s Border Barrier Systems requirements:

a. Provide program and project management support and expertise (using either in-house or contractor resources), including but not limited to:

1) Supporting overarching program management requirements and reporting needs (includes USACE enterprise level oversight and engagement).

2) Providing complete project management services to include cost, schedule, and scope management.

3) Tracking project progress and providing progress reporting and updated schedules through regular reporting, periodic reviews, and maintaining current data in the Facilities and Infrastructure Tracking Tool (FITT) database or equivalent system.

4) Supporting project closeout activities to ensure that all obligations, expenditures, and vouchers are finalized and executed, excess funds are de-obligated, and financial records for the project are properly closed out.

5) Assisting in resolving warranty issues should the contractor refuse to address these items, as applicable.

6) Providing project scoping, studies, investigations, evaluations, consultations, conceptual design, value engineering, and operation, monitoring, and topographic, geotechnical, and environmental survey services.

7) Tracking project progress and providing progress reporting and updated schedules (including construction schedules provided by contractors) through regular reporting, periodic reviews, and maintaining current data in the FITT database or equivalent system from project initiation to project closeout.

8) Analyzing project, cost and schedule risk, risk analyses, and develop mitigation strategies to minimize the impact to the project over the lifecycle of the project.

9) Providing cost trends and analysis, and generate cost reports and life cycle cost estimates as applicable.

10) Providing detailed reports of costs incurred.

11) Participating in regular status updates (i.e., Weekly Calls and Program Management Reviews) as required.

12) Providing environmental and real estate compliance support, including:
a) Support of environmental compliance requirements such as the preparation and review of biological and cultural survey reports, environmental assessments, environmental stewardship plans, biological resource plans, environmental stewardship summary reports, environmental impact statements, Findings of No Significant Impact, Records of Decision, mitigation plan(s), and other associated documentation requirements in compliance with the National Environmental Policy Act (NEPA) of 1969, DHS Directive 023-01, Environmental Planning Program and CBP policies and procedures for land acquisition. Additional activities include support of data identification, collection (including site visits and interviews), development, and interpretation; sampling and analysis; and human health risk and environmental impact evaluations and reports.

b. Provide technical, contractual, and project management experience to develop and execute acquisition strategies, including but not limited to:

1) Design-Bid-Build (DBB), Design-Build (DB), A/E Brooks Act, Services and/or other recommended acquisition vehicles and/or approaches.

2) During acquisition strategy discussions, identifying available contracting vehicles in other USACE districts.

3) As required, developing Requests for Proposals (RFP), Invitations for Bids, Independent Government Estimates (IGE), Acquisition Plans, Statements of Work (SOW)/Statements of Objectives (SOO)/Statements of Need (SON), Source Selection Evaluation Boards and other necessary acquisition documentation in support of CBP Tactical Infrastructure (TI) construction requirements.

c. Provide program management, real estate, environmental, and A/E support in the preparation of designs including plans, drawings, design analyses, specifications and cost estimates required to execute a site-specific construction project (including studies and surveys). This support will also include landscaping, value engineering, as well as reviews of all of the above products and services. Other design phase support includes but is not limited to:

1) Providing civil, mechanical, structural, electrical, and geotechnical services to support design requirements for TI based on the most current version of the BPAM TI Design Standards.

2) Supporting DBB requirements, including developing statements of work (SOW) for design services, acquiring A/E design services, developing designs, developing SOWs for construction services, acquiring construction services, and constructing the project.

3) Supporting DB requirements, including developing SOWs for DB services, acquiring DB services, and designing and constructing the project.

4) Ensuring all environmental and real estate requirements are satisfied before the construction phase begins. Identifying any environmental concerns and best management practices (BMPs) and additional real estate interests (not identified during the planning phase) that may be required to access construction, utilities, and other needs.
5) Provide management updates to the BPAM TI Design Standards.

d. Provide support during the border barrier systems **construction phase** of projects, including but not limited to:

1) Providing contract administration & oversight by ensuring construction contract requirements are met, overseeing contractor progress, validating compliance with Davis-Bacon Act wage rates, reviewing and evaluating changes that originate from the contractor, reviewing progress payments, and performing quality assurance.

2) Reviewing, evaluating, and incorporating change requests, and providing notification of any field modifications following established CBP Change Management Processes prior to any modifications.

3) Providing resident engineering expertise and participating in weekly construction progress meetings.

4) Performing environmental monitoring and cultural surveying, addressing environmental issues, conducting environmental and real estate stakeholder outreach, and applying BPAM construction BMPs as required throughout the entire construction phase.

5) Coordinating and conducting final inspections and walkthroughs prior to acceptance to identify any deficiencies that must be corrected.

6) Supporting project closeout activities to ensure that all obligations, expenditures, and USACE and contractor vouchers are finalized and executed, excess funds are de-obligated, and financial records for the project are properly closed out.

7) Assisting in resolving warranty issues should the contractor refuse to address these items.

8) Submitting closeout and project documentation through FITT or equivalent system, to include as built drawings, warranties, O&M manuals, acceptance letter, final inspection notice, final punch list, etc. (as applicable).

9) Providing construction management services to manage quality, cost and schedule in accordance with established USACE processes.

10) Providing technical engineering support, as required, to CBP for construction of Tactical Infrastructure projects.

**V. ESTIMATED COST BREAKOUT (INCLUDING APPLICABLE FEES):**

Subject to the appropriation of funds by Congress, this Interagency Agreement is estimated to be in the amount of $4.2 Billion and will include requirements and activities, assisted and non-assisted, associated with CBP’s Border Barrier Systems program.

The initial value of the Base Period is $11,500,000, which is reflected in “1.0 Program Management” in the table below. This funding includes real estate and overall program and project staffing. Staffing includes but is not limited to functional areas in business operations, acquisition, design and construction management, real estate, program and project management,
as well as public affairs. The remaining requirements (assisted acquisition and non-assisted acquisition activities) will be funded through modifications to this agreement as funding becomes available.

Mod 1 adds additional funding in the amount of $339,000,000.00. This amount includes $290,500,000.00 of funding for replacement fence and $48,500,000.00 for Gates as described in Attachment “A”.

as identified in Attachment “A” as well as
All costs covered under this agreement will be reimbursable, and actual costs are dependent on the work performed. This budgetary estimate is based on a summation of all the USACE labor, contract awards (issued by USACE), and other direct costs assumed to be required to fund the portfolio of projects executed under this IAA (through closeout of the contracts issued by USACE and their warranties). Additional supporting documentation on the basis of the cost estimates will be available in the Project Requirement Documents (PRDs). PRDs will be executed via the BPAM Change Management Process, and modifications to the IAA will be issued every quarter to account for the updates made through the Change Management Process. As projects are better defined and PRDs are updated, changes to this section and the rest of the IAA will be issued in accordance with this process.

VI. **DELIVERABLES:**

USACE must provide an electronic version of the following:

- Weekly updates in the FITT or equivalent system
- Bi-weekly expense burn rate report by P2 number
- Monthly (weekly, as required) Project Delivery Schedule

VII. **PLACE OF PERFORMANCE**

The place of performance for this requirement shall include southwest border locations, including but not limited to San Diego (SDC), El Centro (ELC), Yuma (YUM), Tucson (TCA), El Paso (EPT), Big Bend (BBT), Del Rio (DRT), Laredo (LRT), and Rio Grande Valley (RGV) Sectors.

VIII. **PERIOD OF PERFORMANCE**

The Base Period of this Agreement is through four years from date of award, which is estimated to be from April 10, 2017 – April 9, 2021. This agreement also includes two Option Years as follows:

- Option Year 1: April 10, 2021 – April 9, 2022
- Option Year 2: April 10, 2022 – April 9, 2023

IX. **FUNDING**

The initial value of the Base Period is $11,500,000. This funding includes real estate and overall program and project staffing. Staffing includes but is not limited to functional areas in business operations, acquisition, design and construction management, real estate, program and project management, as well as public affairs. The remaining requirements (assisted acquisition and non-assisted acquisition activities) will be funded through modifications to this agreement as funding becomes available.
Mod 1 adds additional funding in the amount of $339,000,000.00. This amount includes $290,500,000.00 of funding for replacement fence and $48,500,000.00 for Gates as described in Attachment “A”.

Although funding for multiple functional areas will be provided to USACE via a single line item on the IAA, USACE will track funding and the associated functional areas via “P2” projects. P2 is a suite of commercial-off-the-shelf (COTS) software applications configured to support project execution, which ties together project details with project financial information. P2 provides project development teams with the ability to manage their projects using proven Project Management best practices. P2 also allows for web-based executive level, district-specific, regional, and customer reports. Any modifications of funding between P2s at USACE must have an approved CBP change request and be administered via the BPAM Change Management Process.

SUBJECT:    Request for Modification- HSBP1017X00059

The Border Patrol & Air and Marine Program Management Office (BPAM PMO) requests a
modification to the IAA for HSBP1017X00059 (PR 20097828), as follows:

1) Add additional funding in the amount of $339,000,000.00. Additional funding is to be
used for replacement fence projects in El Centro Sector, San Diego Sector, El Paso Sector
as well as gates in Rio Grande Valley Sector. All work is covered within the existing
SOW as shown in the “FY17 & FY18 IAA Wall Funding” table on page 5 of the SOW,
replacement fence is covered under section 2.4 and gates under section 2.8. This funding
has been added to PR 20097828 on multiple lines as follows:
   • $290,500,000.00 on line 20 for Replacement Fence.
   • $48,500,000.00 on line 30 for Gates.

Please refer any questions to [b] [b] (6), (b) (7)(C), BPAM Program Management Office [b] [b] (6), (b) (7)(C),
[b] [b] (6), (b) (7)(C). The Servicing Agency point of contact is [b] [b] (6), (b) (7)(C),
Director, SWD Border Infrastructure PMO [b] [b] (6).

Thank you,

Importance: DHS FY 2017 Budget Amendment Justification

All,

Comments from Ms. Kraninger attached. As I mentioned earlier, we will need quick turn-around on
this; please let us know how we can assist. Of note for PC&I, she has requested some additional information which I think has been captured in your issue papers. Is there any chance we can have the edits back by 1115 (or earlier)?

Thank you in advance.

Respectfully,
