MEETING MINUTES:

Meeting Date and Time: August 12, 2004 – 7:00AM
Meeting Location: Yuma Sector HQS, Yuma AZ
Distribution Date: August 19, 2004
Distributor: (b)(6)

Participants: (b)(6)

Distribution: (b)(6)

MEETING PURPOSE: Yuma Sector PDT Meeting
### ACTION ITEMS:

<table>
<thead>
<tr>
<th>TOPIC</th>
<th>ACTION</th>
<th>RESPONSIBLE</th>
<th>STATUS</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. OA1-Engineering Task Order</td>
<td>The task order for phase 1-3 lighting was submitted and will be discussed off-line</td>
<td>(b)(6)</td>
<td>Open - Task order to be re-priced and resubmitted to AERC</td>
</tr>
<tr>
<td>2. OA2-Clarification of DHS funding regulations</td>
<td>(b)(6) said the funding system had changed and that she would continue to brief the PDT as to the changes</td>
<td>(b)(6)</td>
<td>Open</td>
</tr>
<tr>
<td>3. OA3-GSA border barrier responsibility at Ave. E POE</td>
<td>(b)(6) said attendance was delayed. See (14) below.</td>
<td>(b)(6)</td>
<td>Open - Subject to delivery of EA for public comment on 8/16 or 8/17/04</td>
</tr>
<tr>
<td>4. OA4-Draft EA/EA</td>
<td>(b)(6) said the draft EA was delivered for review and comment on 7/30/04. (b)(6) said he expected to make required revisions and get the EA out on 8/16 or 8/17 for 30 day public review.</td>
<td>(b)(6)</td>
<td>Open - Subject to completion of environ. documentation for Cabeza Prietta region</td>
</tr>
<tr>
<td>5. OA5-Yuma/Tucson Sector Coordination</td>
<td>(b)(6) emphasized importance of coordination with Tucson Sector on vehicle barrier projects in the Cabeza Prietta/Organ Pipe Nat. Monument areas and related environmental action, which would take 12 months to complete. (b)(6) will schedule a meeting with stakeholders – BLM, BOR, USFW, Air Force, Marine Corps, AZFG and the Tohono-O'otham, et al.</td>
<td>(b)(6)</td>
<td>July 19, 2004</td>
</tr>
<tr>
<td>6. OA6-Wellton Station 5 Year Plan</td>
<td>(b)(6) said Wellton Station is scheduled for a larger person station next year and that Blythe and Yuma will follow.</td>
<td>(b)(6)</td>
<td>Open - Closed</td>
</tr>
<tr>
<td>7. OA7-Vehicle barriers at Davidson Canyon and C.P.</td>
<td>Briefed in (5) above. This OA item will be combined in the future with item (5).</td>
<td>(b)(6)</td>
<td>Closed</td>
</tr>
<tr>
<td>8. OA8-Revision of the Yuma/Tucson Sector(s) MOU</td>
<td>(b)(6) will follow-up status for the September 04 meeting.</td>
<td>(b)(6)</td>
<td>Open</td>
</tr>
<tr>
<td>9. OA9-Lizard Fence Maintenance</td>
<td>(b)(6) said BLM preferred vehicle barriers and that GYPA is hanging lizard fence and would be responsible for maintenance.</td>
<td>(b)(6)</td>
<td>Closed</td>
</tr>
<tr>
<td>10. Records distribution list</td>
<td>(b)(6) indicated many parties on distribution have never participated</td>
<td>(b)(6)</td>
<td>Closed – review completed on 8/19/04</td>
</tr>
</tbody>
</table>

11. Environ. and Cultural Update
Discussed coordination efforts with Tucson Sector and (b)(6) and concern over losses. (b)(6) said the draft PEIS will address vehicle barriers in a cumulative effect and PEIS will be issued mid-September 04.

(b)(6)(b)(7)(C)

Open – Subject to delivery of draft PEIS in mid-September 04

12. Real Estate Update
Reiterated meetings with BLM, BOR, City of San Luis, and State of AZ indicating that the parties wanted to review the EA.

(b)(6)

Open – Pending reviews by BLM, BOR, City of San Luis, and State of AZ

Resolve under OA1 above.

Closed

14. Avenue E POE Border Extensions
Introduce (b)(6) to the Yuma PDT Working Group and asked (b)(6) to explain to (b)(6) the issues regarding the new commercial Port of Entry (POE) scheduled to open east of the city of San Luis, Arizona, in the later part of 2007.

(b)(6) explained that the new port will be located approximately six miles east of the current port, and brings with it the new Area Service Highway (ASH). This is a four-lane highway that crosses the border at Avenue E. (b)(6) then pointed out that the ASH will parallel the

(b)(7)(E)

Further pointed out that it will take (b)(7)(E) (which is less than a (b)(7)(E) border) to the new ASH cross country directly to

(b)(7)(E)

(b)(6) then stated that the problem

(b)(5), (b)(7)(E)

(b)(7)(E)

Open – (b)(6) to email "footprint to "(b)(6) and GSA contact information to" (b)(7)(C)
specifics about the requirements with the POE and its design. (b)(6), (b)(7)(C)

(b)(6) stated that the design-build was scheduled to be completed in 2007, but that the design had not yet started. He further stated that now was the time that we all needed to get together to ensure that all of the requirements could be heard and coordinated. (b)(6) then suggested that members of the port team be invited to join the Yuma PDT Working Group. (b)(6) was directed to get with (b)(6) to get the names and e-mails for those personnel. (b)(6) suggested that a meeting was in order and he would pursue setting one up.

(b)(6) further stated the need for coordination between planned GSA POE projects, border barrier projects, Department of Transportation and others. (b)(6) generally discussed the site.
size (20 acres) and timeline constraints of the new Avenue E POE, which he said would be a (b)(4) design-build project delivered in 2007. (b)(6) indicated he would email a “footprint” of this POE to (b)(6).

(b)(6) asked if GSA had coordinated with BLM regarding Friendship Park. (b)(6) was not aware of coordination and said (b)(6) GSA would be the point of contact.

15. New DHS Funding

(b)(6) said there was “new discretionary money” available for lighting projects but that it would have to be made available before October 1, 2004. (b)(6) did not say how much money was available. (b)(6) asked for spending plans to include these funds.

16. Increased Activity Report

(b)(6) said there had been a 60% increase in traffic with 300-450 arrests per day and the most people lost (8 persons) since the major loss during 2003.

17 IRT Program

(b)(6) introduced 1st SGT as the IRT Leader for the Yuma Sector. (b)(6) said the Commanding General ARNG approved the Yuma IRT Program and that he had requested an out of cycle budget and was optimistic as to this budget request being funded in 2005. It was indicated that there needed to be a coordination effort between the Title 10 and Title 32 units as well as the CAARNG and that this would be done through JTF6.

18. Spending Plans

(b)(6) discussed production of spending plan. (b)(6) said he need the Sector to group “phases” as project based upon operational requirements and that he needed to know how much money was

[Redacted]

Open – (b)(6) to clarify for AERC and Yuma Sector monies available

Open – (b)(6) to continue to brief this item

Open – (b)(6) to coordinate as necessary regarding Title 10/32 units with (b)(6)

Open – (b)(6) to execute plan on or before 9/15/04

(b)(6) to provide project information on 8/27/04
<table>

15 August 2005
MILITARY DEPLOYMENTS

Arizona Army National Guard
Scheduled Deployments FY'05
101st Engineer Company from Massachusetts completed a successful deployment into Whitewater Draw. National Guard currently has small deployment of 4 to 6 soldiers into Douglas west for monsoon repair, roadway and drainage construction. Sourcing of FY'06 units underway by Col. Cobb.

JTF-N
No Further Scheduled Deployments FY'05
Report on Potential FY’06 Deployments. One deployment anticipated for 1st quarter, may have as many as 8 missions in FY'06.

ENGINEERING

Baker Eng.

An update of the status for each project in TCA will be attached to the meeting minutes.

Douglas, Lighting (5 Miles)
Douglas, 13-Mile Roadway
Douglas, International Ditch drainage reviewed and comments returned to Baker
Naco, Lighting (5 Miles)

Nogales, Schematic Design meeting in Nogales to determine progression of the project and what should be done about objections from land owners regarding patrol roads being extended into “paper” subdivision areas. Consensus of the meeting and concurrence of the Station was to expedite the project, complete those portions of the study that can be accessed. This is needed to complete the EA, and begin roadway design and lighting relocation design.

FY’05 Engineering Projects
- relocation of lights in Nogales
- 2 additional miles of roadway in Nogales
- 4 miles in Sonoita (fee proposal received and in process, effort will not proceed until environmental documents are in place)

NEXT MEETING

13 September 2005 @ 10:00 – Tucson Station
MEETING MINUTES

RE: Joint Planning Session
Review of the Department of Defense's Request for Assistance Operation
Alliance/Special Coordination Center

DATE: Thursday July 28, 2005

LOCATION: Fort Bliss, El Paso, Texas

ATTENDEES:

(b)(6)

(b)(6)

led the meeting. The purpose of the meeting was to explore or validate a
request for assistance from the Department of Defense to deploy construction units for the
Tactical Infrastructure of Western Arizona (TIWAZ). Several open discussions were held. The
following key items were addressed.

1. The Department of Defense must realize a threat for them to take action. Therefore any
request to the DoD for assistance should include a threat assessment. An extended time
commitment of deployments will probably diminish the seriousness of a threat.

2. Acquiring essential training for combat deployments is believed to be a key factor in the
request for DoD assistance.

3. If the DoD were to supply deployment personnel would the engineering design, material
procurement, funding, survey, environmental, and real estate efforts be able to keep up
with the increased deployment? Each project must be evaluated individually.

4. It was noted that generally 40 men in 30 days can build a 1 mile road with a final chip
seal wearing surface. One mile of barrier may be built by 15 men in one month,
generally. Deployments are severely hampered by environmental concerns that are not
encountered in combat deployments.

5. Construction would generally be facilitated if it would progress from the west to the east
because materials and equipment would come from the Yuma area. However, eastern
deployments may be facilitated by the use of the Camino del Diablo and via Lukeville.

6. The construction of major box culverts and small bridges are a concern. How would large
pre-cast concrete sections be shipped across a road that could not bear the load? The need
for cranes to construct the structure would also hinder the deployment. The answers lie in
sound engineering.
7. The individual projects themselves were reviewed to see if DoD deployments would facilitate construct the projects within the respective fiscal year. After much discussion, including the length of deployments and the difficulty of terrain encountered, it was decided that (b)(6) would gather additional input before tailoring and detailing the request for assistance from the DoD. (b)(6) will contact those present for their input to enhance his request. There will probably be another meeting held to review his enhanced request. No date was set.

8. It was noted that the Yuma PDT is the venue for TIWAZ.

MILITARY DEPLOYMENTS

Arizona Army National Guard
Scheduled Deployments FY‘05
101st Engineer Company from Massachusetts completed a successful deployment into
Whitewater Draw. National Guard currently has small deployment of 4 to 6 soldiers into
Douglas west for monsoon repair, roadway and drainage construction. Sourcing of FY‘06 units
underway by (b) (6)

JTF-N
No Further Scheduled Deployments FY‘05
Report on Potential FY‘06 Deployments. One deployment anticipated for 1st quarter, may have
as many as 8 missions in FY‘06.

ENGINEERING
Baker Eng.

An update of the status for each project in TCA will be attached to the meeting minutes.
Douglas, Lighting (5 Miles)
Douglas, 13-Mile Roadway
Douglas, International Ditch drainage reviewed and comments returned to Baker
Naco, Lighting (5 Miles)
Nogales, Schematic Design meeting in Nogales to determine progression of the project and
what should be done about objections from land owners regarding patrol roads being extended
into “paper” subdivision areas. Consensus of the meeting and concurrence of the Station was to
expedite the project, complete those portions of the study that can be accessed. This is needed to
complete the EA, and begin roadway design and lighting relocation design.

FY‘05 Engineering Projects
relocation of lights in Nogales
2 additional miles of roadway in Nogales
4 miles in Sonoita (fee proposal received and in process, effort will not proceed until
environmental documents are in place)

MILITARY DEPLOYMENTS

Arizona Army National Guard
No report. (b)(6) is out of town in meetings to source of FY’06 units

JTF-N
No Further Scheduled Deployments FY’05

FY’06 Proposed Deployments
ES 4145-06, Naco, AZ, ½ mile of Lights (west) 15 Nov - 15 Dec

ES4155-06, Naco, AZ, 1 mile of light (possibly west) 25 Feb - 25 Mar

ES4150/56/57/58-06, Naco/Douglas, AZ, 2/3 miles of road, 7/8 LWC’s and bollard fences in Naco (west) and 6 LWC’s in Douglas (east). 1 June - 15 August. This will be battalion deployment of about 1000 Marines in 5-6 iterations of 200 personnel every 15-days. The basecamp will be located at the Douglas International Airport.

ES4160-06, Naco, AZ, 1 mile of road 3/4 LWC’s and bollard fences, Naco (east) 2nd qtr.

Additional deployments may be sourced, JTF-N is awaiting information from the Army units.

ENGINEERING
Baker Eng.

Douglas, Lighting (5 Miles) 2.5 miles on the east side of the POE is at 90% design. 2.5 miles on the west side of the POE were on hold pending real estate issues. It was decided at the PDT to move ahead with final design using the Roosevelt Reservation and seek re-design of the border roadway section that exceeds the 60’ reservation.

Douglas, 13-Mile Roadway The last reach of design is nearing completion. 2.5 miles on the west into the Naco AO. Baker is doing quality review of plan sets, delay due to gas line easement issues. Due 13 September.

Douglas, International Ditch drainage reviewed and comments returned to Baker.

Naco, Lighting (5 Miles) 2.0 miles on the east side of POE completed and constructed, 0.5 miles on east side of the POE will be constructed in November. 2.5 miles of design on the west side of the POE completed

Nogales, Schematic Design meeting in Nogales to determine progression of the project and what should be done about objections from land owners regarding patrol roads being extended into “paper” subdivision areas. Consensus of the meeting and concurrence of the Station was to
expedite the project, complete those portions of the study that can be accessed. This is needed to complete the EA, and begin roadway design and lighting relocation design.

FY’05 Engineering Projects
- relocation of lights in Nogales
- 2 additional miles of roadway in Nogales
- 4 miles in Sonoita (fee proposal received and in process, effort will not proceed until environmental documents are in place)

ENVIRONMENTAL
GSRC

PEIS Tucson & Yuma GSRC submitted the preliminary final PEIS on 22 July 2005. Comments were due by 12 August 2005; however, this has been extended at the request of CBP legal. A new due date has not been established at this time.

Tucson BA No status on (b)(6) funding request to (b)(6) action pending

Whitewater Draw 404 Permit mitigation pending funding that is in the system, should be available within a month.

San Pedro River LWC revised site plan issued, pending site visit if required. Naco Station approved the site plan with a request for slope stabilization where the patrol road nears the San Pedro River.

Sonora Border Road EA Pending issue of the final based on any comments on the pre-final that came out this month. Pre-final EA submitted on 18 August 2005 and internal comments are due by 9 September 2005.

Vehicle Barriers - Tohono O’Odham Nation (TON) pending funding

Tactical Infrastructure for Western Arizona (TIWAz) no report, see Other Items below.

USPP The mechanism for funding a project for water mitigation (for San Pedro Watershed impacts by the Border Patrol) was discussed. This may not be a viable vehicle due to procurement constraints. Will need to do a scope and competitively bid mitigation. (b)(6) stressed mitigation needs to be in Sierra Vista watershed. Do not have ROEs for some parcels within the project corridor at this time.

Nogales Schematic Design See comments under engineering. It has been decided to complete engineering and environmental documents to comply with original scope. The construction planning and environmental documentation will be completed for those areas with ROEs. The current project will terminate at lands were ROEs have not been granted to the OBZ.

Ephraim Ridge Phase I GSRC has been scoped to do this project; however, coordination with real estate and OBZ needs to be completed. (b)(6) was negotiating ROEs with landowners last week. Nass will follow up with (b)(6) to determine status

Other Items (b)(6) has submitted the updated NEPA status matrix for the Tucson Sector. (b)(6) will revise the matrix to include Yuma PDT and TTWAZ PDT projects to make a comprehensive Arizona project list.
REAL ESTATE

USACE - Sacramento
Nogales Schematic Design: (b)(6) will provide those ROE’s he has received to GSRC to begin cultural and biological surveys.

NLC - Laguna Nigel
Ephraim Ridge Report
CBP legal review completed, pending release. Also note ROE’s under Environmental above.

PROCUREMENT
AERC: (b)(6)
(a) is preparing a shop drawing for procurement of rebar cages for lighting pole foundations.

After meeting comments from (b)(6) per e-mail:
BOM for Naco Lights (east – see JTF-N deployments) is ready to advertise.

CONSTRUCTION
Kleinfelder
Discussion of providing support for upcoming deployments. Schedule was noted and SOW are being developed by Baker & (b)(6)

Updates (see web page below)

MILITARY DEPLOYMENTS

Arizona Army National Guard
Scheduled Deployments FY’05
Douglas 10 to 25 June 2005 101st Engineer Company from Massachusetts. 70 personnel into Whitewater Draw to complete approaches to box culvert.

The Texas USAR unit will not be deploying to Arizona this year. This was to be a deployment into Douglas, west of Whitewater Draw for patrol road and barrier construction.

JTF-N
Scheduled Deployments FY’05
Naco (west) 1 to 30 April, 2005 west of POE JT4000-05 - 307th Eng. Bn. - Completed
Naco (east) 10 April to 10 May 2005 JT4159-05 - Completed

(b) (6) reported that no other deployments have been scheduled this FY. No reports on current sourcing of units, but subsequent information indicates 10 deployments are possible into the Tucson Sector in FY’06.

ENGINEERING
Baker Eng.
Douglas, Lighting (5 Miles) Preliminary layout being performed and ground truthing underway
Douglas, 13-Mile Roadway 2.5 miles on the west end is ready for final. This is into the Naco AO and will need to be checked for EA compliance and real estate issues.
Douglas, International Ditch Coordination ongoing and design hydraulics revised, drainage report expected 3 June.
Naco, Lighting (5 Miles) west side of POE laid out and ground truthing underway
Nogales, Schematic Design on hold pending resolution of real estate issues and funding to proceed.

FY’05 Engineering Projects
2 additional miles of roadway in Douglas
relocation of lights in Nogales
2 additional miles of roadway in Nogales
4 miles in Sonoita (fie proposal received and in process, effort will not proceed until environmental documents are in place)

ENVIRONMENTAL
GSRC

PEIS Tucson & Yuma (AERC 225)
The responses to public comments on the Revised Draft PEIS were sent out for review. The PDT is scheduled to provide comments on these responses by 1 June. GSRC will provide a preliminary final EIS by 15 July.
Tucson BA
GSRC is proceeding with the preparation of the revised Tucson BA, based on additional ABCI II data provided by (b) (6) will coordinate with (b) (6) regarding additional funds to incorporate the data. GSRC needs to get a definitive decision regarding the methods to be used to assess the water mitigation (e.g., agents only versus agents and their dependents, use OSI quantifications versus FH quantifications, etc.). (b) (6) has requested opinion for OC.

Whitewater Draw 404 Permit
Phelps Dodge is still reviewing the WWD MOA. GSRC contacted (b) (6) to determine which approach he would prefer/recommend (i.e., mitigation vs. in lieu compensation) but no response has been received to date.

San Pedro River LWC
The San Pedro River LWC BA will be sent to BLM for review prior to submittal to the USFWS. No comments were received from (b) (6) regarding the design footprint. GSRC will send a copy to (b) (6) and will also forward e-mail from (b) (6) regarding the LWC to USACE, (b) (6).

Vehicle Barriers - Tohono O’Odham Nation (TON)
The contract to develop the EA for vehicle barriers on the TON is being negotiated. (b) (6) has not received the requested more funding from CBP. (b) (6) stated that this project would be delayed until FY 05 funds are received (probably around September).

Sonoita Border Road
The Sonoita border road draft EA will be sent out for public review stating that the staging and bivouac sites will be determined later (surveys and supplemental NEPA might be required depending upon the size and location of these sites). (b) (6) stated that USFS had no further comments.

Tactical Infrastructure for Western
The BMGR EA was released for public review on 23 May. Initial efforts on the CPNWR EA is on-going; public scoping meetings are being coordinated, but GSRC needs a decision regarding the format of public meeting desired by BP.

USPP
No report this month on efforts to coordinate with the “Upper San Pedro Partnership” regarding water issues.

Nogales Schematic Design
The Nogales 10-mile road project is on-hold. Might be rolled into another project

Ephraim Ridge Phase I
(b) (6) will begin negotiations with GSRC for contract for Ephraim Ridge ESA and EA. The project area will be 80 acres.

REAL ESTATE

USACE - Sacramento
Little activity is taking place on the real estate front until project move farther along, such as the International Ditch and the repackaging of the Nogales Schematic Design. Projects under tasking will include 1) Douglas, International Ditch; 2) Nogales, 2-Miles Roadway; 3) Nogales Schematic Design; and 4) Sonoita Roadway.

PROCUREMENT

AERC

June National Guard Deployments were discussed. (b) (6) will revise the BOM to correctly reference the geofabric needed for the deployment.

(b) (6) requested that rental equipment utilized for pedestrian fence and vehicle barrier construction be rented for another 90 days. (b) (6) will process if possible.

CONSTRUCTION

Kleinfelder

(b) (6) reported on the two deployments that just completed their work in Naco Arizona. Project completion reports can be found at the web page listed below and will be posted on the AERC web page by (b) (6).

Updates (see web page below)

To access a website that has updates, go to: www.kleinfelder.com
-Click on the Client Link link at the left of the page.
-Select Border Patrol Construction Oversight from the drop-down menu.
-For a User Name enter: (b) (7)(E)
-For a Password enter: (b) (7)(E)
(The User Name and Password are case-sensitive, so make sure you don't capitalize.)
-Select the deployment you wish to view

ACTION ITEMS

1. GSA coordination on drainage tunnel access work. Follow-up with local contact at the POE.
2. Follow-up on paving the Nogales ½ mile with a private contractor once funding is available.
3. Finalize SOW and prepare fee proposal for FY’05 engineering services by Baker Eng. (Sonoita in , need others)
4. Rental Equipment extended for Naco and Douglas fence crews
5. Douglas, 13-Mile Roadway 2.5 miles on the west into the Naco AO 100% plans expected by 28 June 2005

Environmental Working Group

1. Set aside (b) (5) for mitigation on Whitewater Draw 404 permit
2. Ephraim Ridge Reclamation SOW and request for fee proposal for Phase 1 ESA to GSRC
3. Tucson BA needs funding for GSRC contract modification.
 Provide a copy of the Preliminary Draft EA for the Sonoita Border Roads to obtain feedback on deployment operation and staging sites.

5. Comments needed on PEIS by 15 July
