#	Comment	Action	Explanation
M1	Will an SDoC-STR requirements CAB similar to "P25-CAB-SDOC-STR_BSRPTR-REQ" be created or just the template?	See Explanation	Instructions for the SDOC and STR templates will be included with each template. This will eliminate the need for separate documents.
M2	Will Interoperability testing be added to the SDoC template or will that be a separate template?	See Explanation	ISSI CSSI Interoperability testing will have a separate SDOC and STR.
