# Message from the Administrator

October 23, 2017

I am pleased to present the following report, “Disaster Contracts Quarterly Report” for the third quarter of Fiscal Year (FY) 2017, which has been prepared by the Federal Emergency Management Agency (FEMA).

This document has been compiled pursuant to the language set forth in the FY 2007 Department of Homeland Security (DHS) Appropriations Act (P.L. 109-295) and its accompanying Joint Explanatory Statement. The report provides information and data on contracts, including those using disaster funds that were entered into by means other than competitive procedures.

Pursuant to congressional requirements, this report is being provided to the following Members of Congress:

The Honorable John R. Carter  
Chairman, House Appropriations Subcommittee on Homeland Security

The Honorable Lucille Roybal-Allard  
Ranking Member, House Appropriations Subcommittee on Homeland Security

The Honorable John Boozman  
Chairman, Senate Appropriations Subcommittee on Homeland Security

The Honorable Jon Tester  
Ranking Member, Senate Appropriations Subcommittee on Homeland Security

The Honorable Michael McCaul  
Chairman, House Homeland Security Committee

The Honorable Bennie G. Thompson  
Ranking Member, House Homeland Security Committee

The Honorable Ron Johnson  
Chairman, Senate Homeland Security and Governmental Affairs Committee

The Honorable Claire McCaskill  
Ranking Member, Senate Homeland Security and Governmental Affairs Committee

The Honorable Scott Perry  
Chairman, House Subcommittee on Oversight and Management Efficiency

The Honorable J. Luis Correa  
Ranking Member, House Subcommittee on Oversight and Management Efficiency

Inquiries relating to this report may be directed to me at (202) 646-3900 or to the Department's Acting Chief Financial Officer, Stacy Marcott, at (202) 447-5751.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Brock Long', with a long horizontal flourish extending to the right.

Brock Long  
Administrator  
Federal Emergency Management Agency

# Executive Summary

FEMA strives to compete its procurements whenever possible and practical, including making use of advance contracting for reoccurring disaster-related requirements. There are, however, times when FEMA must use different contracting methods to provide a seamless response and foster a timely recovery. These instances that reduce risk and expedite delivery of services include: missions to safeguard disaster survivors quickly; assisting state, local, territorial, and tribal governments; micropurchases; and protecting property from imminent danger.

The FY 2007 DHS Appropriations Act (P.L. 109-295) requires the Administrator of FEMA to provide a quarterly report on all contracts issued during any disaster, which shall include a detailed justification for any contract entered into by means other than competitive procedures.

To fulfill this requirement, FEMA gathered data from its contract writing system of record, the Procurement Information System for Management (PRISM). To ensure the integrity of the data, information also was gathered from the Federal Procurement Data System – Next Generation (FPDS-NG) for the third quarter of FY 2017. The PRISM fund source data have a greater level of detail than the data provided by FPDS-NG. FEMA relies on the PRISM data to calculate the disaster-related contract action statistics. FEMA uses FPDS-NG data in conjunction with and to validate PRISM-based data and calculations. The data tables herein contain both PRISM and FPDS-NG data.

In the third quarter of FY 2017, FEMA issued 1,132 contract actions having a total value of approximately \$367,743,879. The term “issued” excludes deobligations of funds and no-cost modifications. Of the 1,132 contract actions, 368 (or approximately 33 percent) were disaster assistance-related, totaling approximately \$88,372,994. This dollar value represents approximately 24 percent of the procurement funds expended during the third quarter. Of the 368 disaster-related contract actions, 122 were issued on a noncompetitive basis, which represents approximately 11 percent of all third quarter contract actions. The total cost of these 122 actions is approximately \$17,975,963, or approximately 5 percent of total dollars spent in the third quarter. This includes eight disaster-related micropurchases that are not considered as noncompetitive contract actions. Each of the eight micropurchases is below the \$3,500 acquisition threshold and is procured using a Governmentwide Purchase Card (GPC).

The data in this report are not considered procurement-sensitive and are accurate as of July 12, 2017. The data export from PRISM was generated on July 12, 2017, for the third quarter of FY 2017 (April – June 2017).

# I. Legislative Language

This document responds to the language set forth in the Fiscal Year (FY) 2007 Department of Homeland Security (DHS) Appropriations Act (P.L. 109-295) and its accompanying Joint Explanatory Statement.

The FY 2007 DHS Appropriations Act (P.L. 109-295), Section 691(d) of title VI states:

## REPORT ON CONTRACTS NOT USING COMPETITIVE PROCEDURES

At the end of each fiscal quarter, beginning with the first fiscal quarter occurring at least 90 days after the date of enactment of this Act, the Administrator shall submit a report on each disaster assistance contract entered into by the Agency by other than competitive procedures to the appropriate committees of Congress.

The Joint Explanatory Statement states:

## CONTRACTS

FEMA [Federal Emergency Management Agency] shall provide a quarterly report to the Committees on Appropriations regarding all contracts issued during any disaster. The report shall include a detailed justification for any contract entered into using procedures based upon the unusual and compelling urgency exception to competitive procedures requirements under section 303(c)(2) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253(c)(2) or section 2304(c)(2) of title 10, United States Code. Justification details by individual contract are to include, at least: the amount of funds, the timeframe, the contractor, a specific reason why the contract could not be competed and how action may be taken to ensure competition of the contract in the future without impeding timely disaster response.

## II. Background

To meet the requirements of Section 691(d) of the FY 2007 DHS Appropriations Act (P.L. 109-295), FEMA follows a specific methodology for determining the total number of disaster-related contract actions. That methodology starts by identifying award actions using appropriated funds designated for disaster situations, excluding any deobligations of funds and no-cost modifications. Once actions are identified, award information is gathered from the Procurement Information System for Management (PRISM) and the Federal Procurement Data System – Next Generation (FPDS-NG) to populate Appendix 1 of this report.

Appendix 1 contains the following fields that generally correspond to the requirements identified in the FY 2007 DHS Appropriations Act (P.L. 109-295):

- Number
- Contract/Order Number
- Modification Number
- Obligated Amount
- Contractor
- Issue Date
- Completion Date
- Ultimate Completion Date
- State: Event (In some cases, there is not one specific disaster or state because a single contract action may support multiple states or disasters.)
- Description of Requirement (The Title field in PRISM is utilized when a Description of Requirement in FPDS-NG is unavailable.)
- Reason Not Competed

The justification identified in the Joint Explanatory Statement (i.e., a detailed justification of how action may be taken in the future to ensure competition of the contract without impeding timely disaster response) also is addressed in this report (page 4, last paragraph).

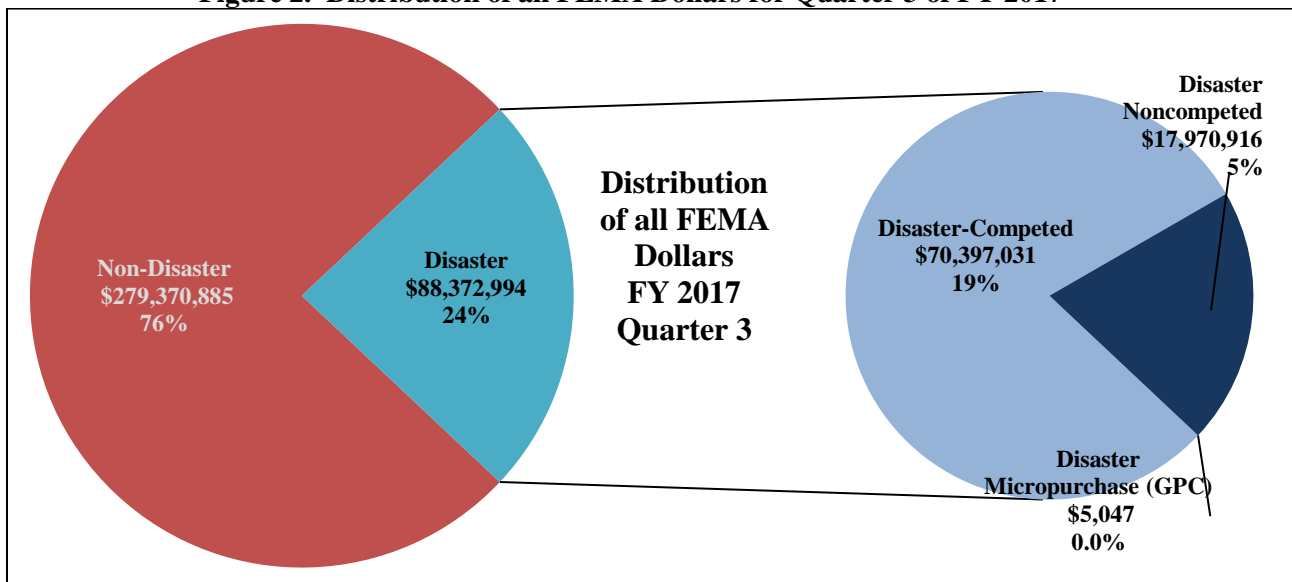

### III. Data Report

In the third quarter of FY 2017, FEMA issued 1,132 contract and micropurchase actions having a total value of approximately \$367,743,879. Of the 1,132 actions, 368 were disaster assistance-related, totaling approximately \$88,372,994. Of the 368 disaster-related actions, 122 were issued on a noncompetitive basis. The total cost of these 122 actions is approximately \$17,975,963. This includes eight disaster-related micropurchases that are not considered as noncompetitive contract actions. Each of the eight micropurchases is below the \$3,500 acquisition threshold and is procured using a Governmentwide Purchase Card (GPC).

**Figure 1. Distribution of all FEMA contracts and micropurchases for Quarter 3 of FY 2017**

**Figure 2. Distribution of all FEMA Dollars for Quarter 3 of FY 2017**

In accordance with the Federal Acquisitions Regulations (FAR) 6.302, 13.2-3, and 16.505, FPDS-NG grouped noncompetitive contract actions into approximately 21 categories. During the third quarter of FY 2017, FEMA’s noncompetitive contract actions fell into the following distribution of the 21 categories:

FEMA strives to compete its procurements whenever possible and practical, minimizing the need to invoke an urgency justification for disaster-related purchases. Advanced acquisition planning allows FEMA to pre-position contracts that are both competitive and readily available at the time of a disaster. There are, however, instances that do not lend themselves to competition. As an example, most geographic areas lack a competitive market for utility services, and therefore utilities are often noncompetitive procurements. FEMA continues to evaluate each procurement need and to encourage competition whenever the situation allows. We will continue to prioritize competitive procurement, and, where appropriate, document the business reasons for having to utilize a single source.
