Handheld Radiation Detection/Radioisotope Identification Device (HRD/RIID)

The Department of Homeland Security (DHS) awarded an Indefinite Delivery/Indefinite Quantity (IDIQ) contract for Handheld Radiation Detection/Radioisotope Identification systems and associated support services.

Key Contract Vehicle Features:

- Equipment was tested by the Countering Weapons of Mass Destruction Office (CWMD);
- Includes a one-year warranty and product maintenance;
- Provides end-users with product technical support, training, and documentation;
- Streamlines procurement by reducing contracting actions and number of orders; and
- Increases efficiency in the acquisition process to provide the necessary resources and equipment for DHS front line officers.

Period of Performance (POP):

One-year base, plus four one-year options (9/22/2015 to 9/21/2020)

Number of Awardees:

One large business
