

# Are you a victim of **ELECTRONIC JAMMING?**

Disruption or failure of wireless communications or mapping equipment, including cellular or GPS devices, for unknown reasons could indicate interference by a jammer

Can't communicate with traditionally reliable base radios or repeaters

Can't transmit or receive on wireless systems in areas with coverage

Noticeable loss of lock or general failure of a GPS receiver

Interference shown on spectrum analyzers, other test tools, or detectors

## Suggested Mitigation Tactics

Spread out to relay messages between jammed teammates

Turn on automatic gain control on your radio

Shield yourself from jamming behind a car or wall

### KNOW YOUR JAMMERS

### NOTIFY YOUR TEAM & IMMEDIATELY REPORT SUSPECTED JAMMING TO THE FCC
