2017-NPFO-00370	3/22/2017	(b)(6)	-	Background On July 13, 2016, The US Department of Homeland Security (DHS), National Protection and Programs Directorate (NPPD), Federal Protective Service (FPS) released a Presolicitation on FBO.gov to acquire armed Protective Security Officer (PSO) services in various locations throughout the states of Iowa, Kansas, Missouri, and Nebraska under solicitation HSHQE6_16_R_00004. Pursuant to that request VendTech-SGI, LLC ("VT-SGI"), a subsidiary of Securiguard, Inc ("SGI") and VendTech Enterprise (FOIA requestor) did provide a fully responsive proposal to DHS via mail before the established Response Date and was then evaluated by the agency's Technical Evaluation Team (TET) for award consideration. Upon evaluation of all offerors the agency determined VT-SGI to be the successful offeror and pursuant to FAR 9.104-3(a) did request information necessary to establish the firm's adequate financial resources to perform the contract, or the ability to obtain them. Upon delivery and evaluation of these documents the agency made formal award to VT-SGI. Request VTE hereby requests that the totality of that proposal submission for the above mentioned solicitation, including but not limited to the technical proposal, price proposal, electronic proposal (Compact Disc submission), and documents submitted by VT-SGI to satisfy FAR 9.104-3(a) be provided via electronic format to VendTech Enterprise via email at the agency's earliest convenience. 2016-NPFO-00114	1/19/2016	Gordon, Nicholas	NTEU	I am seeking a joint DHS/FBI report given to the Defense Security Service on December 23, 2015. The memo concerns what computer security experts at DHS' Computer Emergency Readiness Team and the FBI learned from the OPM data breach occurring in June of 2015. The memo was issued to DSS and handed out to cleared contractors by the department. The memo was titled a "cyber alert". Information in the memo referenced "Organization 1" and recommended agencies: enable a personal firewall at agency workstations; monitor users' online habits and block potentially malicious sites; employ encryption for data at rest and in transit; and investigate "outbound network traffic observed over TCP port 53 that does not conform to the DNS [Domain Name System] protocol." Analysis in the memo conducted by DHS and FBI concluded that Organization 1 could have mitigated damages to its systems had the agency employed "tiered" identity management controls for system administrators. 2016-NPFO-00103	1/11/2016	(b)(6)	-	We were recently asked to remove a janitorial person due to alleged stalking accusations over the last few months escalating in the last couple of weeks. We would very much like a copy of the report that was filed by the accuser as well as camera footage in the vicinity of the incidents. We understand that cameras are not aimed at restrooms, but know that cameras would catch the two people in the general area at the same time. Anything that you can provide to us associated with the events would be greatly appreciated. These are serious allegations, and we have taken serious steps to remove the janitorial person from the building. At this point he is guilty until proven innocent. We need to know one way or the other if at all possible.	Granted/Denied in Part	2/2/2016
