Committee Member Biography

The President's National Security Telecommunications Advisory Committee

Kay Sears
President
Intelsat General Corp.

Ms. Kay Sears is President of Intelsat General, and is responsible for implementing the company's strategic and operational plans and for the overall mission of providing a range of sustainable, cost-effective and secure communications solutions to government and commercial customers. She has worked more than 25 years in the satellite communications industry, including extensive experience in rapid-response solutions for both military and civil agencies of the US government. Ms. Sears has spoken widely on how commercial satellites can be utilized by the military to solve mission-critical needs and has worked over the past decade to advance the commercial/DoD partnership.

Before joining Intelsat, Ms. Sears helped launch government services business units at both G2 Satellite Solutions and Verestar. Ms. Sears has also held sales and product development positions with Intelsat and Comsat World Systems. In 2014, Ms. Sears was appointed to the Virginia Commercial Space Flight Authority by the Governor of Virginia and she is currently serving on the boards of the Space Foundation and Future Space Leaders Foundation. Ms. Sears has a Masters in Business Administration from George Washington University and a Bachelor of Science from the University of Richmond.
