

STUDENT TIP CARD

K-8 STUDENTS

DID YOU KNOW?

- **Seventy-five percent** of children kids are willing to share personal information online about themselves and their family in exchange for goods and services for something.
- In 2012, **26 percent of identity theft victims** were between the ages of six and ten¹⁰, and identity theft has doubled in the past year for children age five and younger.
- Child identity thieves use their victims' Social Security Numbers to open credit cards and secure auto loans, student loans, mortgages, and business lines of credit.³
- **Seventeen percent of children** between the ages of 10 and 13 surveyed reported receiving an e-mail or online message with photos or words that made them feel uncomfortable.⁴

SIMPLE TIPS

- Trust your feelings. If something doesn't feel right when you are online, then it's probably not.
- Think before you click. Don't open emails or download attachments from strangers.
- Talk to a parent, teacher, or trusted adult if something makes you feel uncomfortable.
- Keep your personal information private; avoid sharing your name, address, telephone number, and the name of your school when using the Internet.
- Set strong passwords that are not easy to guess. Only share your password with your parents or other trusted guardian.
- Just like in real life, treat others like you want to be treated online.

IF SOMETHING HAPPENS ONLINE

- Turn off the computer monitor.
- Tell a parent, guardian, teacher, or adult you trust.

Stop.Think.Connect.™ is a national public awareness campaign aimed at increasing the understanding of cyber threats and empowering the American public to be safer and more secure online. The Campaign's main objective is to help you become more aware of growing cyber threats and arm you with the tools to protect yourself, your family, and your community.
