

Adobe III Blanket Purchased Agreement

The Department of the Homeland Security (DHS) awarded a Department-wide Blanket Purchase Agreement (BPA) for Adobe products, services, and training. This vehicle provides pre-negotiated, discounted pricing for the full suite of Adobe software and maintenance and enables Components to access ancillary training and consulting services. By ordering Adobe software, maintenance, and ancillary training and consulting services through this BPA, DHS realizes the lowest overall life-cycle cost, is able to track its Adobe license inventory, and has the ability to deploy the latest Adobe technologies in the most cost effective manner.
