

COVID-19 Testing Solutions

The Department of Homeland Security (DHS) established a multiple award, Indefinite Delivery/ Indefinite Quantity (IDIQ) contract vehicle that provides a variety of COVID-19 testing solutions for use throughout the department and its components. Testing may be conducted as permitted by law with:

- DHS personnel (including employees, detailees, interns, and volunteers), long-term trainees [such as Federal Law Enforcement Training Centers (FLETC) students], and contractors that have or plan to enter buildings, grounds, and properties that are owned, leased, or used by DHS who are suspected or confirmed to have a disease or illness that is the subject of a declared public health emergency, or may have been or could have been exposed to someone who is suspected or confirmed to have a disease or illness that is the subject of a declared public health emergency;
- Persons within DHS custody; and
- Persons being repatriated.

This contract vehicle consists of a range of COVID-19 diagnostic testing solutions that are organized into the following two (2) Functional Categories (FC):

FC 1 – Managed Testing Services

The contractor provides a full range of COVID-19 diagnostic testing and associated services as a managed service, to include on-site sample collection, testing, and results tracking, on a routine basis at DHS designated locations. Managed service providers can provide FDA EUA test kits or use government furnished test kits. Specific requirements are indicated at the order level.

FC 2 – Molecular Diagnostic Test Kits and Testing Services

The contractor provides and conducts testing using Molecular Diagnostic test kits that enable DHS to rapidly identify individuals who are or were previously infected by the virus that causes COVID-19.

Key Contract Vehicle Features:

- Lifecycle testing from sample collection to results and reporting is provided.
- The managed services option includes staffing to collect samples and setup collection site.
- All test kits have received FDA EUA for COVID-19.
- All testing solution providers have associations with Clinical Laboratory Improvement Amendments (CLIA) certified or CLIA waived laboratories.

- Contractors provide all reagents, consumables, transport media, components, equipment, or devices necessary to administer the test and process test results.
- Testing results are required in no more than three calendar days.
- Multiple sample collection options are available.

Period of Performance (POP):

One-year base period, plus four one-year option periods (11/6/2020 – 11/5/2025)

Number of Awardees:

Four (two large businesses and two small businesses)
