

Design/Build and Construction Services II - Regional

The Department of Homeland Security (DHS) awarded the Regional Indefinite Delivery/Indefinite Quantity (IDIQ) Multiple Award Construction Contracts II (RMACC II) to procure design, build, and construction services to meet the infrastructure needs of the Department. The Regional Contract is a set aside for contractors in one or more of the following socioeconomic programs: Historically Underutilized Business Zone (HUBZone), certified Small Disadvantaged Businesses under the Small Business Administration's 8(a) Program, and Service Disabled Veteran-Owned Small Businesses (SDVOSB).

The Design/Build and Construction Services contracts are available for use within the 50 U.S. States and its Territories. It is centrally managed and administered by the U.S. Coast Guard (USCG) Facilities Design and Construction Center (FDCC) with decentralized ordering by DHS Component organizations.

These contracts are intended to provide prompt response on an as-needed basis for regional routine and emergency construction requirements and will meet the majority of DHS's infrastructure construction needs for projects up to \$7M.

Key Contract Vehicle Features:

- Reduces the average procurement timeline from eight months to less than four months, while still meeting all Federal Acquisition Regulation (FAR) requirements;
- Provides competitive pricing and improved project execution due to competition among highly qualified contracting firms; and
- Facilitates a relationship where awardees become familiar with DHS construction requirements, which reduces the risk of cost overruns due to design errors.

Period of Performance (POP):

One-year base, plus six one-year options (multiple periods of performance to 5/9/2026)

Number of Awardees:

Ninety small businesses

Contractor Information:

Region 1 - 8(a) Small Businesses
