4. April 4, TheCarConnection.com – (National) 2015-2016 Jeep Grand Cherokee, Dodge Durango recalled to repair brakes. Fiat Chrysler Automobiles issued a recall April 4 for 14,768 of its model years 2015 – 2016 Jeep Grand Cherokee and Dodge Durango vehicles sold in the U.S. due to improperly manufactured left front brake calipers, which may fracture during heavy braking and increase the required stopping distance, thereby increasing the risk of a collision. No injuries have been reported and the National Highway Traffic Safety Administration stated that poor break performance, brake fluid leakage, and an illuminated “low brake fluid” warning light are warning signs of a cracked caliper.
