Energy Sector

1. *April 22, New Orleans Times-Picayune* – (Louisiana) **Oil company agrees to pay \$715,000 for Atchafalaya basin spills.** ORB Exploration LLC of Lafayette reached a settlement April 22 with the U.S. Department of Justice (DOJ) and the State of Louisiana resolving alleged violations of the Federal Clean Water Act, oil spill prevention rules, and Louisiana pollution laws following three spills in 2013 and 2015 at company sites at Frog Lake and Crocodile Bayou on the Atchafalaya River basin that caused environmental damage. The company agreed to pay \$615,000 to the DOJ and \$100,000 to the Louisiana Department of Environmental Quality.

2. *April 23, CNN* – (International) **FAA orders ‘urgent’ engine fixes for Boeing 787 Dreamliners.** The U.S. Federal Aviation Administration ordered April 23 General Electric Aviation to modify its GENx-1B PIP2 engines used on 43 of its 787 Dreamliners aircrafts in the U.S. due to an icing problem that could force the engines to shut down during flight following a January 29 incident where ice shedding from an aircraft’s fan blades caused the blades to rub against the fan case, resulting in engine vibration, thereby forcing the engine to shut down while in flight. The mandate affects approximately 176 Dreamliners at 29 airlines worldwide.

4. *April 22, Detroit News* – (International) **GM to temporarily close 4 North American plants.** General Motors Company announced April 22 that its assembly plants in

Spring Hill, Tennessee; Lordstown, Ohio; Fairfax, Kansas; and a facility in Canada will be closed April 25 and remain idle for 2 weeks due to an electrical parts shortage following recent earthquakes in Japan.

Source: <http://www.detroitnews.com/story/business/autos/general-motors/2016/04/22/gm-idling-four-plants/83386806/>

5. *April 22, CNN* – (International) **Gear shift confusion causes Chrysler recall.** Fiat Chrysler Automobiles (FCA) issued a recall April 22 for approximately 812,000 of its model years 2012 – 2014 Dodge Charger and Chrysler 300 vehicles, and model years 2014 – 2015 Jeep Grand Cherokee SUVs sold in the U.S. due to a problematic gear selector that does not move position when set to park, reverse, or drive, thereby making it difficult to determine what gear the vehicle is in after FCA received reports of 41 driver injuries potentially related to the selector. The recall affects a total of 1.1 million vehicles worldwide.

Food and Agriculture Sector

11. *April 25, U.S. Food and Drug Administration* – (International) **CRF Frozen Foods recalls frozen vegetables due to possible health risk.** CRF Frozen Foods issued a recall April 23 for 15 of its frozen vegetable products due to a potential *Listeria monocytogenes* contamination after one lot of its Individually Quick Frozen (IQF) organic petite green peas products and one lot of its IQF organic white sweet cut corn products tested positive for the bacteria during routine testing. No illnesses have been reported and the products were shipped to retailers and distribution centers nationwide and in Canada.
Source: <http://www.fda.gov/Safety/Recalls/ucm497297.htm>

12. *April 24, U.S. Food and Drug Administration* – (National) **CVS Pharmacy announces voluntary recall of Gold Emblem Abound Organic Spiced Herbal Tea due to possible health risk.** CVS Pharmacy issued a voluntary recall April 24 for approximately 200 cases of its Gold Emblem Abound Organic Spiced Herbal Tea products sold in 1.41-ounce packages due to a potential *Salmonella* contamination after the manufacturer notified the company that an ingredient used in the tea tested positive for *Salmonella* in another company's product. No illnesses have been reported and the products were distributed to CVS Pharmacy stores nationwide.
Source: <http://www.fda.gov/Safety/Recalls/ucm497299.htm>

13. *April 22, U.S. Food and Drug Administration* – (National) **Nuvi Global Corporation issues allergy alert on undeclared milk and soy in StemVitae 30oz liquid**

multivitamin. Nuvi Global Corporation issued a recall April 19 for its StemVitae liquid multivitamin products sold in 30-ounce packages due to misbranding and undeclared milk and soy lecithin after it was discovered that a whey protein ingredient was not listed on the label. No illnesses have been reported and the products were distributed in 24 States.

Government Facilities Sector

15. *April 25, WSAW 7 Wausau* – (Wisconsin) **Schools begins in Antigo, press conference at 2 p.m.** The Antigo Police Department announced that a gunman was shot and killed by an officer after he shot and injured two students at random April 23 at Antigo High School as they left for prom. Classes at the high school resumed April 25 while the incident remains under investigation.

Source: <http://www.wsaw.com/content/news/Breaking-News-Shooting-at-Antigo-High-School-Prom-376879681.html>

16. *April 24, WCYB 5 Bristol* – (Tennessee) **Carter County wildfire 90 percent contained.** Fire crews reached 90 percent containment April 23 of the Railroad Grade fire that burned 1,753 acres of the Cherokee National Forest in Carter County.

Source: <http://www.wcyb.com/news/carter-county-wildfire-90-percent-contained/39190702>

17. *April 24, KHOU 11 Houston* – (Texas) **Flood-damaged schools to reopen Monday.** Classes at several school districts in the Houston area resumed April 25 after schools were closed for a week due to widespread flooding. Crews repaired a number of classrooms and hallways that were damaged by the floods.

Source: <http://www.khou.com/news/local/flood-damaged-schools-to-reopen-monday-1/152121684>

18. *April 23, Washington Post* – (Virginia) **Firefighters continue to battle Shenandoah National Park blaze.** Fire crews expected the 9,000-acre wildfire burning in the southern section of Shenandoah National Park in Virginia to be contained by April 28. Sections of the Appalachian Trail and Skyline Drive remained closed April 23 while the park remained open to visitors.
Source: https://www.washingtonpost.com/local/firefighters-continue-to-battle-shenandoah-national-park-blaze/2016/04/23/912ade92-0969-11e6-bdcb-0133da18418d_story.html

Information Technology Sector

20. *April 25, Help Net Security* – (International) **Compromised credentials still to blame for many data breaches.** A Cloud Security Alliance survey found that a lack of scalable identity access management systems, a lack of ongoing automated rotation of cryptographic keys, passwords, and certificates, as well as failure to use multifactor authentication were the major causes of data breaches. The findings also indicated that 22 percent of companies who suffered a data breach, attributed the breach to compromised credentials.
Source: <https://www.helpnetsecurity.com/2016/04/25/compromised-credentials-data-breaches/>
21. *April 25, Help Net Security* – (International) **Critical flaws in HP Data Protector open servers to remote attacks.** Hewlett Packard released security updates for its HP Data Protector software patching six critical vulnerabilities for all versions prior to 7.03_108, 8.15, and 9.06 which could allow a remote code execution flaw or unauthorized disclosure of information via unauthenticated users or through an embedded Secure Sockets Layer (SSL) private key, which could increase the chance of man-in-the-middle (MitM) attacks.
Source: <https://www.helpnetsecurity.com/2016/04/25/critical-flaws-hp-data-protector/>

22. *April 22, SecurityWeek* – (International) **Attackers use PowerShell, Google Docs to deliver “Laziok” trojan.** Security researchers from FireEye reported that attackers were able to bypass Google’s security checks and upload a trojan named Laziok to Google Docs with the intention to steal information about the user’s system by loading obfuscated JavaScript code known as “Unicorn,” as well as using “Godmode” and PowerShell to execute the malware.
Source: <http://www.securityweek.com/attackers-deliver-laziok-trojan-google-docs>
23. *April 22, SecurityWeek* – (International) **Attacker friendly hosting firm leveraged by Pawn Storm hackers.** Security researchers from Micro Trend reported that the Pawn Storm Group was abusing a small Virtual Private Server (VPS) registered in United Arab Emirates (UAE) to attack governments in 80 countries including Bulgaria, Greece, Malaysia, Ukraine, and the U.S., and were seen executing more than 100 cyber-attacks within the past year. In addition, it was discovered that the group used the VPS hosting provider for command & control (C&C) servers, exploit sites, spear-phishing campaigns, domestic espionage in Russia, and Web mail phishing sites targeting high-profile users.
