Executive Summary

DHS secures our Nation's air, land, and sea borders to prevent illegal activity while facilitating lawful travel and trade. The Department's border security and management efforts focus on three interrelated goals: effectively securing U.S. air, land, and sea borders; safeguarding and streamlining lawful trade and travel; and disrupting and, in coordination with other federal agencies, dismantling transnational criminal and terrorist organizations.

DHS is working to secure U.S. borders through the unprecedented deployment of personnel, technology, and infrastructure. The integration of intelligence and enforcement capabilities through intergovernmental task forces and partnerships has facilitated better information sharing, leading to the increased interdiction of drugs, weapons, and currency. By focusing on the largest threats and responding rapidly, DHS has strengthened security across the U.S. borders while facilitating international travel and trade.

Highlights for the FY 2020 second quarter (Q2) compared to FY 2019 Q2 include:

- U.S. Customs and Border Protection (CBP) U.S. Border Patrol (USBP) apprehensions decreased 57 percent in FY 2020 Q2 (90,728) compared to FY 2019 Q2 (209,597) (Table 1).
- CBP USBP apprehensions of Mexican nationals increased 24 percent in FY 2020 Q2 (51,307) compared to FY 2019 Q2 (41,495) (Table 2).

I. Legislative Language

This report has been prepared pursuant to the direction in Senate Report 116-125 accompanying the Fiscal Year (FY) 2020 Department of Homeland Security (DHS) Appropriations Act (P.L. 116-93). Senate Report 116-125 states:

Public Reporting of Operational Statistics.—The Committee continues its requirement that the Department submit quarterly Border Security Status reports and data on the deportation of the parents of U.S. -born children semiannually, as in prior years.

II. Background

A. Overview of Congressional Mandate

This Border Security Status Report (BSSR) includes data for the second quarter (Q2) of FY 2020. The BSSR is a revised version of the Secure Border Initiative report, which last was released with data through FY 2010.

The original *Quarterly Status Report on the Department of Homeland Security's Border Security Performance and Resources* was provided in 2006 in response to a letter from the House Appropriations Committee. The data included in the BSSR overlap with many of those in prior border security performance and resources reports; however, the BSSR excludes detailed program descriptions, accomplishments, and resource information. The list of data provided in this report was reviewed with committee staff and is described in Section B.

B. Data Presented

There are 25 figures and 19 tables in the body of this report and 32 tables in the appendix that provide data on the enforcement-related activities listed below. This report provides data on the following categories of border security and immigration enforcement-related activities:

- Apprehensions, administrative arrests, and inadmissible aliens
- Notices to appear (NTA)
- Criminal arrests
- Legal entries
- Detention
- Removals and returns
- Worksite enforcement and E-Verify
- Seizures: drugs, weapons, and currency
- U.S. Customs and Border Protection (CBP) and U.S. Immigration and Customs Enforcement (ICE) staffing
- Violence against CBP and ICE agents and officers
- Operation Stonegarden grants

C. Summary of Changes

Tables and figures have been updated with data for the new reporting period. Data for the previous fiscal year's quarters have been shifted to single-year columns and/or to the appendix.

III. Results/Analysis

DHS's Office of Immigration Statistics (OIS) compiles the BSSR from data received from DHS Components. The compilation of these data shows specifics and trends as shown below.

A. Data Trends

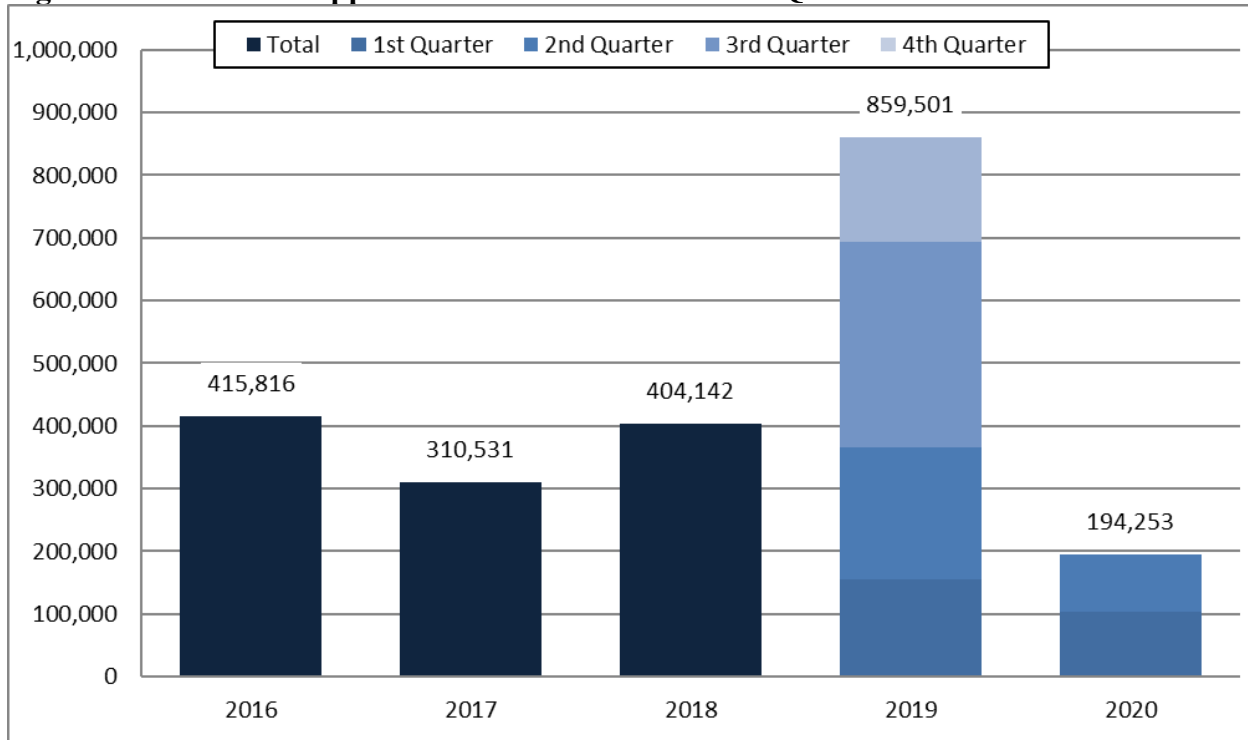

Highlights for the FY 2020 second quarter (Q2) compared to FY 2019 Q2 include:

- CBP U.S. Border Patrol (USBP) apprehensions decreased 57 percent in FY 2020 Q2 (90,728) compared to FY 2019 Q2 (209,597) (Table 1).
- CBP USBP apprehensions of Mexican nationals increased 24 percent in FY 2020 Q2 (51,307) compared to FY 2019 Q2 (41,495) (Table 2).
- CBP USBP apprehensions of non-Mexican nationals decreased 77 percent in FY 2020 Q2 (39,421) compared to FY 2019 Q2 (168,102) (Table 3).
- DHS removals increased by 6 percent in FY 2020 Q2 (90,056) compared to FY 2019 Q2 (85,126) (Table H1).
- DHS returns increased 27 percent in FY 2020 Q2 (50,878) compared to FY 2019 Q2 (40,215) (Table H1).

The figures and tables in this section include notes about the data sources and, where applicable, descriptions of changes in definitions over time or in data compared to past reports. Quarterly data, when not included in the Results/Analysis (Section III), are provided in the appendices (Section IV, Appendix C, and Data Tables). The data included in this report were provided by CBP, ICE, and U.S. Citizenship and Immigration Services (USCIS) and may differ from data reported by each Component because of differences in data compilation or reporting practices. Moreover, Component systems frequently are "living," meaning that such systems accept corrections, modifications, and new entries for a period. As a result, data provided to OIS are a snapshot as of a specific date, and numbers retrieved on a subsequent date may differ from those originally provided.

B. Apprehensions, Administrative Arrests, and Inadmissible Aliens¹ (Figures 1-4 and Tables 1-4)

¹ An administrative arrest refers to the arrest of an alien who is charged with being inadmissible or deportable under section 212 or 237 of the Immigration and Nationality Act. Administrative arrests conducted by CBP USBP traditionally have been referred to as apprehensions, and this convention is used in the following CBP USBP charts and tables. Administrative arrest data are provided for CBP USBP, ICE Homeland Security Investigations (HSI), and ICE Enforcement and Removal Operations (ERO).

C. Unique Individuals Apprehended by CBP USBP (Figure 5)

With the Automated Biometric Identification System (IDENT), fingerprint records can be matched, making it possible to count both the number of unique individuals apprehended and the total number of apprehensions (Figure 5). Because of data collection procedures, data are tabulated at the end of the fiscal year.

Figure 5. Apprehensions from IDENT by CBP USBP: FYs 2009 to 2019

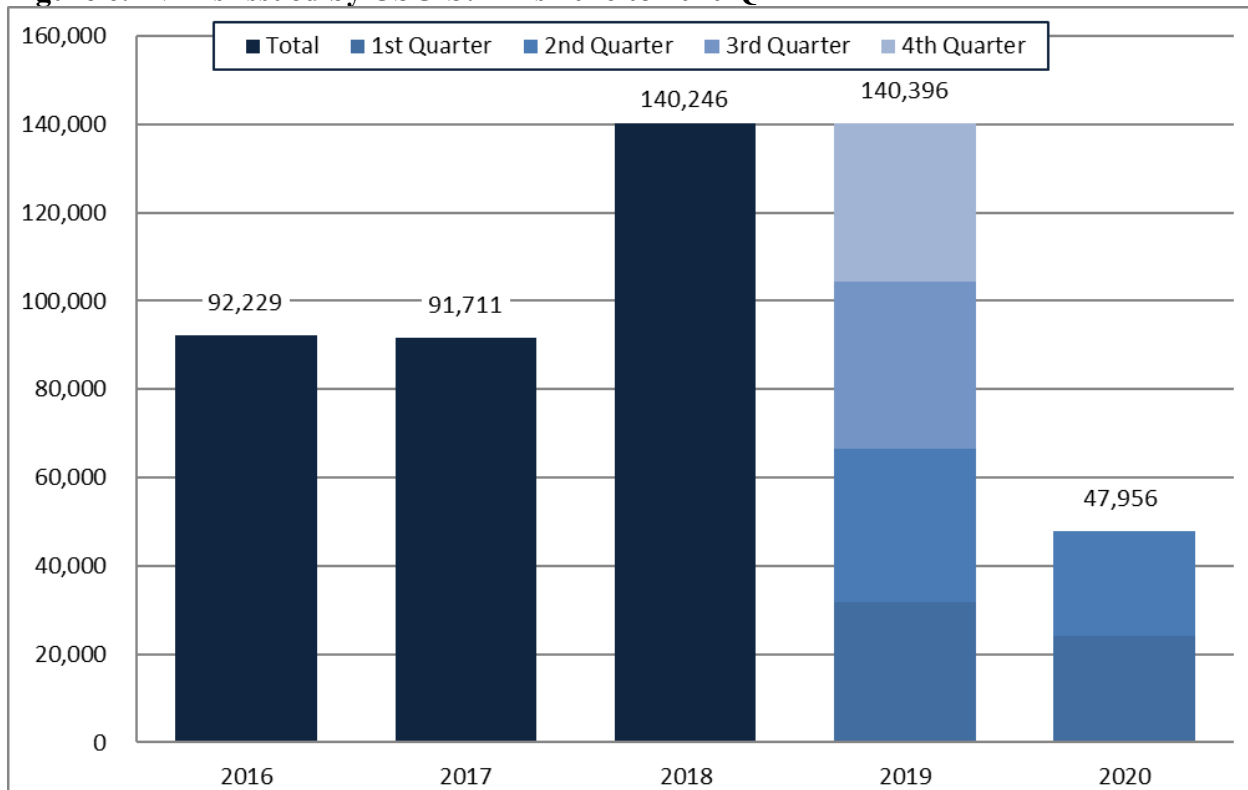

Note: Individuals younger than 14 years of age are not fingerprinted and cannot be counted individually. Data are released at the end of the fiscal year.

D. NTAs Issued (Figures 6-9) and USCIS Fraud Cases Referred to ICE (Figure 10)

NTAs are served on aliens, and once filed with an immigration court, initiate civil immigration removal proceedings against an alien before an immigration judge with the U.S. Department of Justice Executive Office for Immigration Review. This section includes NTAs issued by USCIS, CBP USBP, CBP OFO, and ICE ERO, as well as the number of applications accepted by ICE for investigation under suspicion of fraud by USCIS.

E. Criminal Arrests (Figures 11-13)

Criminal arrests refer to individuals (both aliens and U.S. citizens) who are arrested for violation of a federal and/or a state criminal law. Criminal arrests may be for felony or misdemeanor charges. Criminal arrest data are provided for ICE HSI, ICE ERO, and CBP OFO.

See Appendix Table E3 for quarterly totals.

F. Legal Entries (Figure 14 and Table 5)

Legal entries refer to the number of lawful entries of U.S. citizens and noncitizens into the United States. Individual U.S. citizens and noncitizens may be counted more than once during a reporting period. Individuals denied entry at air, land, or seaports are excluded from these data.

G. Detention (Figures 15-17 and Tables 6-8)

Removable aliens who are apprehended by CBP and ICE and are determined to warrant custodial supervision are placed in detention facilities that are managed by ICE ERO. Aliens detained by ICE are housed in local or state government facilities under intergovernmental service agreements (IGSA), contract detention facilities, and ICE-owned facilities (service processing centers). ICE sometimes uses Federal Bureau of Prisons-controlled facilities to house immigration detainees, but this practice generally is in limited circumstances and is accomplished using an interagency agreement.

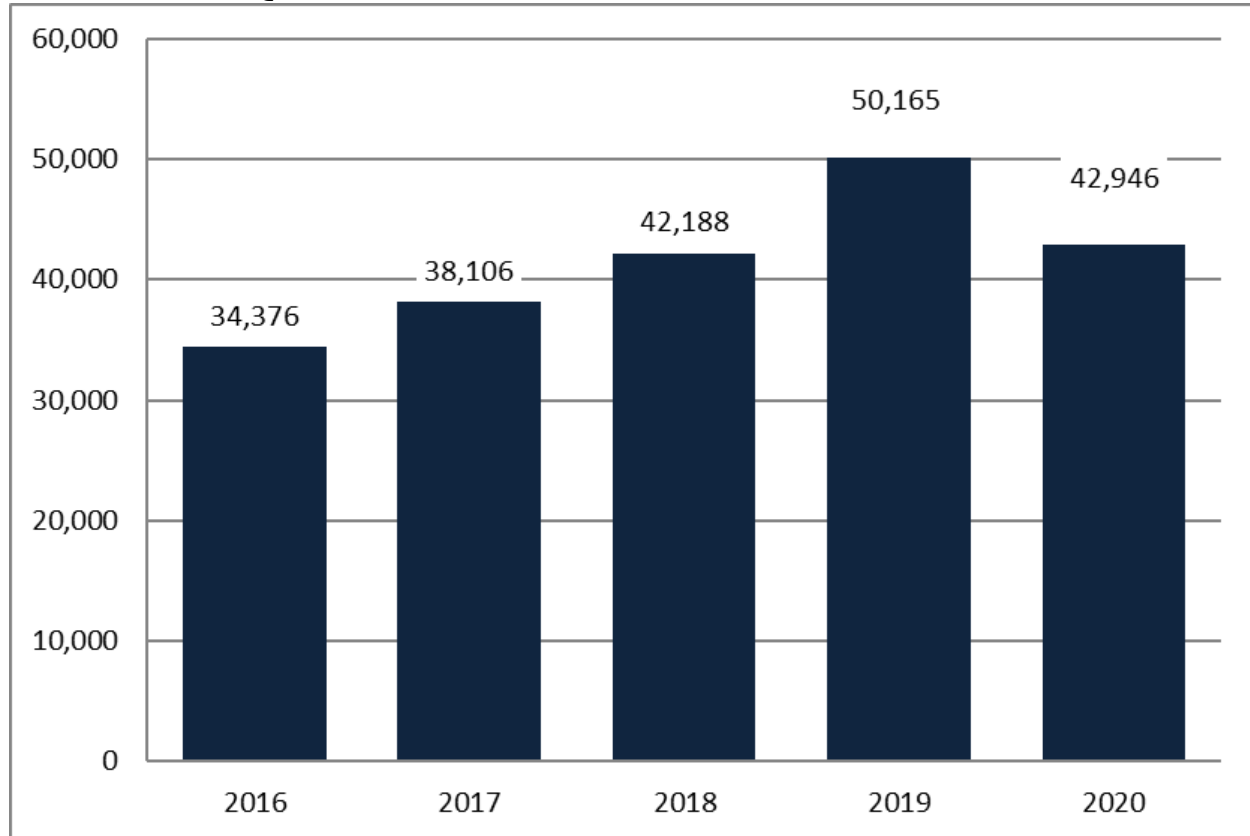

Figure 15. Initial Book-Ins to ICE Detention Facilities: FYs 2016 to 2020 Q2

Note: Initial book-ins refer to the number of individuals whose initial placement into a detention facility began within the reporting period. These totals may include aliens currently in ICE detention. Beginning in 2010, data exclude detainees held in facilities dedicated to housing aliens under the U.S. Department of Health and Human Services (HHS) Office of Refugee Resettlement (ORR) and U.S. Marshals Service purview. See Appendix Table G1 for quarterly totals.

FYs 2016 to 2020 Q2**

Note: ADP is provided in place of funded beds because it more accurately reflects the status of facility capacity and utilization. ADP is based on the total number of midnight count bed space used divided by the number of days in the requested period. Beginning in 2010, ADP excludes detainees in ICE ERO custody held in facilities dedicated to housing aliens under HHS ORR and U.S. Marshals Service purview. H. Removals and Returns (Figure 18)

Alien removals refer to inadmissible or deportable aliens who have been removed by an order of removal, whereas alien returns refer to inadmissible or deportable aliens who have been confirmed to have departed the United States without an order of removal. This report includes fiscal year removals effectuated and returns conducted by both CBP and ICE. An alien who is removed may be subject to additional administrative or criminal consequences upon subsequent illegal reentry owing to the fact of the removal.

Note: Removals and returns include data from both ICE and CBP. Removals and returns in this report refer to the year that the events occurred. Differences in prior time periods are due to the updating of the data series. See Appendix Table H1 for quarterly totals.

I. Worksite Enforcement and E-Verify (Figures 19-24)

Worksite arrest statistics are shown for employers who are charged by ICE HSI with violations related to the employment of unauthorized aliens, and employees who are charged with a variety of crimes including identity theft, fraud, tax violations, or other related crimes. Worksite fines are reflected in Figures 19 and 20 below.

The number of employers registered for E-Verify and the number of queries each year also are provided below. For the purposes of the E-Verify program, each query represents one new hire or new verification.

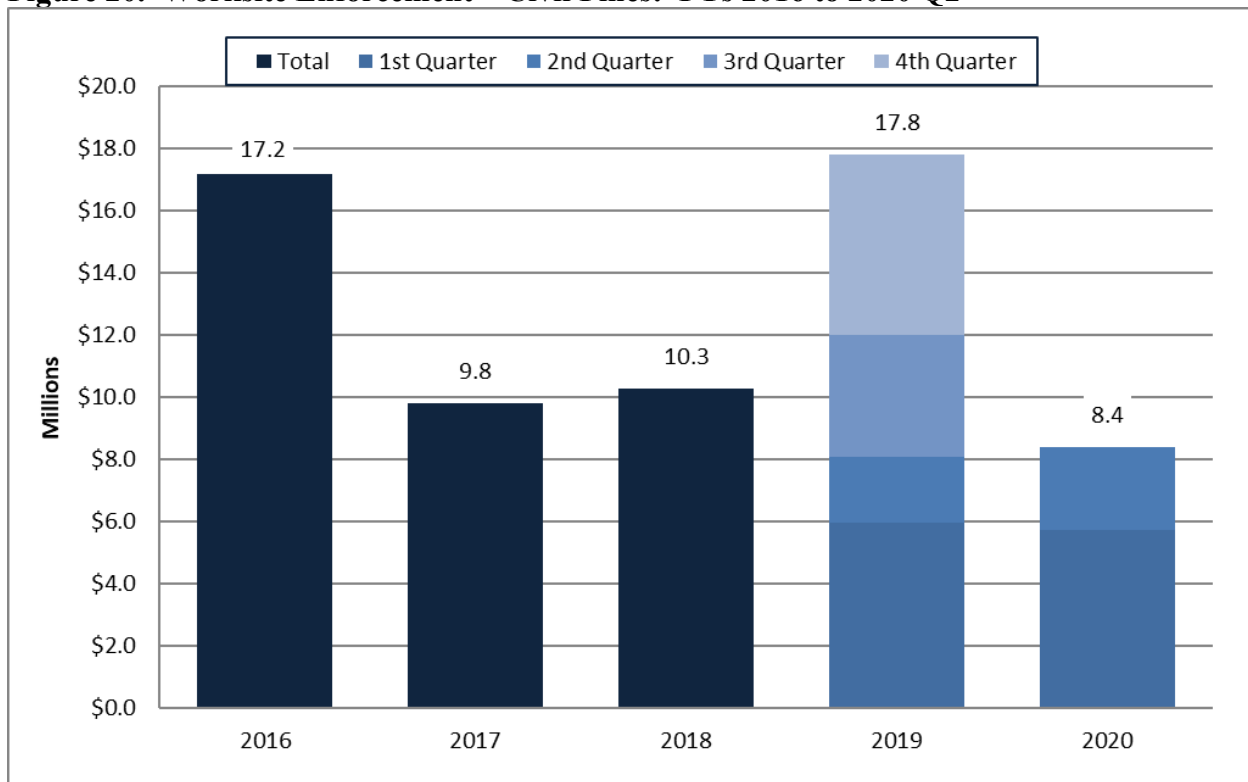

Figure 19. Worksite Enforcement – Criminal Fines: FYs 2016 to 2020 Q2

Note: The FY 2016 Q2, Q3, and Q4 value is \$0 (U.S. dollars). The fines levied in FY 2017 would have been consistent with the previous year; however, the increase is attributable to the successful conclusion of a large-scale, multiyear investigation that resulted in a fine of \$95 million against one company. This specific fine accounts for FY 2017's relatively large dollar amount. See Appendix Table I1 for quarterly totals.

M. Operation Stonegarden Grants (Table 19)

Operation Stonegarden funds are provided to enhance cooperation and coordination among local, tribal, territorial, state, and federal law enforcement agencies in a joint mission to secure the U.S. borders. The states and territories eligible for the program may border Canada, Mexico, or international waters. The table below, updated at the end of the fiscal year, reflects the funds appropriated to the Department from Congress and how they were distributed.

Note: The fines levied in FY 2017 would have been consistent with the previous year; however, the increase is attributable directly to the successful conclusion of a large-scale, multiyear investigation that resulted in a fine of \$95 million against one particular company. This specific fine accounts for FY 2017's relatively large dollar amount. All reported quarterly statistics are accurate as of the date that the report was run. The database is "live," and the statistics are updated constantly so these quarterly statistics may change over time and may not add up to the year-end total.
