2018-NPFO-00273	O'Brien, John	Requesting the updates to Directive 257-01 and the management instruction for Directive 257-01 regarding the Law Enforcement Officers Safety Act (LEOSA) as amended. The Directive and instruction were issued in 2008 notwithstanding two amendments since 2010 that changed the law and definitions of a qualified retired/separated law enforcement officer, (QRLEO). CBP does not have a policy in place to issue LEOSA specific identification to qualified retired/separated law enforcement officers, and further, CBP's insistence that a QRLEO must separate from the LEO position and agency simultaneously is both based on a presumed condition not specified in the law as well as being anomalous with the interpretation of another federal department, Defense, which has already implemented a policy which provides LEOSA specific identification to QRLEO's, including those who separated in good standing from a LEO position and transitioning or being promoted to a non-LEO position in the same organization. The National Legislative Office of the Fraternal Order of Police (FOP), which assisted in writing this law confirmed in writing that an individual who served an aggregate of 10 years or more as a law enforcement officer and who separates in good standing from the position but still remains in the same organization in a non-LEO capacity still should be covered under LEOSA. The website leosaonline attests to this concerning QRLEO's in DoD. Requester is making this request in order to determine if, 8 years after the amendment, the law will be interpreted and implemented for retired/separated LEO's uniformly at the federal level and all individuals who should be included actually are, as is currently not the case.	2/13/2018
