

EAGLE Next Generation Program; Government Wide Acquisition Contracts (GWAC IT Services)

The Department of Homeland Security has implemented the EAGLE Next Generation (Next Gen) program which offers a robust array of options to the DHS information technology (IT) community. EAGLE Next Gen is not a single contract vehicle, but instead is a suite of contract vehicles, including a portfolio of IT services contract vehicles with specialized, targeted DHS scope. EAGLE Next Gen balances the use of existing Government-wide Acquisition Contracts (GWACs) in conjunction with DHS IT services contract vehicles.

EAGLE Next Gen is a Mission-Focused Portfolio that offers flexible, competitive, and proven solutions.

Effective February 4, 2019, DHS formally adopted General Services Administration's Alliant 2, 8(a) STARS II, and VETS 2, as well as the National Institutes of Health's CIO-SP3 and CIO-SP3 Small Business into its Category Management and Strategic Sourcing portfolio.

Key Program Features

- The EAGLE Next Gen IT Services portfolio focuses on core areas of spend; leverages expertise in those areas; benefits from alignment with industry; and, promotes informed buying decisions using shared information and a combination of government-wide and DHS-wide contract vehicles
- Better-informed business decisions as a result of sharing government-wide buying data
- Better buying outcomes as a result of decreased contract duplication and increased efficiency
- DHS-specific contracts are designed to meet the unique needs of DHS IT community with mission-specific scopes
- From online ordering tools to market intelligence used to develop the IT Services GWACs, the benefits of EAGLE Next Gen include numerous timesavers, built-in features, dedicated support teams, and new ways to reach socioeconomic targets
