| 2021-IAFO-00129 | 2/22/2021 | DHS I&A (b) (6) | My grandfather, DHS I&A (b) (6), passed away 8 weeks before I was born in 1998. Unfortunately I never met him but his wife and daughters he left behind feel his presence every day. I am reading out to understand what his responsibility was within the US Government as he was never allowed to tell his family. Despite never meeting him, I feel a connection to him as we share the same middle name and I possess a few of his prized items he left behind to give me when I was old enough. Any information about him would bring clarity to the family, I understand that he was truly a saint. What I do know about DHS I&A (b) (6) he was born in Pennsylvania in 1920, married my grandma-DHS I&A (b) (6) in DHS I&A (b) (6), supposedly worked for a branch of the government he could not disclose, moved to Michigan in his 20s(?), built a house in Bloomfield Hills, MI in 1966 and had three daughters: DHS I&A (b) (6). His latter years career was a science teacher at Andover High School in Bloomfield Hills, after retiring from education he was a home builder at a company called DHS I&A (b) (6) (first names of each partner's first born). He passed memorial weekend in 1998 due to skin cancer that later spread to internal organs and bone marrow, diagnosed in the early 80s and had 6 months to live, ended up living 16 years. He sounds like a truly remarkable man and finding out about his history would shed some light on this man. Not positive that he was homeland or SS, but im sure an internal search can determine this with the aid of the details we know. Thank you and God Bless America. | 2/22/2021 | - |

| 2021-IAFO-00130 | 2/16/2021 | DHS I&A (b) (6) | <p>Due to receiving no response to approximately thirty tips I have left regarding this imminent potential threat, in many of which I offered to take a lie detector or requested to immediately be contacted, I am providing this detailed report of the events that have occurred to me over the past four years - with hopes of being taken seriously for the sake of national security. On July 16, 2016, maybe an hour after nightfall, I was walking down the main trail into the woods on the property at the back of my Grandparent's estate. When I got about 200 feet down the trail, I heard a voice, which sounded electronic, almost as if someone had a device that could be spoken into from, say, 100 yards away, point it at you, and project the sound as if it was coming from right next to your ear, 'Don't move. I have a gun pointed at your head. If you don't do everything I say, I will shoot you.' He then instructed me to stand straight up, lean my head back to nearly a 90 degree angle, facing the sky, and to stare at a single spot... without moving a muscle. I stood there for approximately an hour and a half while they performed a laser surgery and installed technology (which I will explain in more detail later, but basically it was for medical reasons and allowed them to send me videos and images (think about when we dream, and how we obviously see when we do so... only these videos and images appear right in front of my face) as another form of communication to go along with the earpiece they had obviously already put in (they call it an 'ear canal procedure')) into my left eye. After that, it would alternate between, not to sound childish and simplistic, good and bad - those type of people, and the opposite, which I will get into more detail about later. No time now. Recently, I was sent a video of what looked to be a real nuclear bomb destroying a city, not one i recognized, and some farmland, along with one of a person of what looked to be Iranian descent threatening to send 'another missile'. What I am about to say next is the key to all of this (once again, there is good and bad - those who make these type of threats, and those who do the opposite) - there is a VERY REAL chance here to end nearly all violence that exists (please hear me out and take this seriously. Please.) The 'good' ones (hate how childish that sounds, but there's no time) specifically stated this is their goal, and I KNOW it will work, now, if you will hear me out. And i know how. You can NOT read those words and not call me, even if just out of curiosity. There is much more to this, and I need you to call me right this second, no matter the time. I know I'm not typing this in perfect proper form, but I'm in a hurry to get the main points out there, so please do not make the mistake of thinking I am not credible.</p> | 2/16/2021 | - |
