

Identity Protection Services (IPS)

The Department of Homeland Security (DHS) adopted the General Services Administration's (GSA) multiple-award Blanket Purchase Agreements (BPAs) for Identity Protection Services. This government-wide Best-in-Class (BIC) contract solution provides access to a variety of data breach response and identity protection services that include:

- Breach mitigation and analysis/forensic services.
- The deployment of financial risk assessment and mitigation strategies and techniques.
- Improvement of capabilities through the reduction, identification, and mitigation of risks.
- Detailed risk statements, risk explanations, and mitigation recommendations.
- Design and development of new business applications, processes, and procedures in response to risk assessments.
- Compliance with governance and regulatory requirements.

Key Contract Vehicle Features:

- Government-wide Best-in-Class (BIC) contract solution.
- Includes a comprehensive range of identity protection services.
- Reduces the time to implement breach mitigation and credit monitoring services.
- Unique service pricing.

Period of Performance (POP):

- Five years 5 year with 3 x (5 year) options (the end date varies per schedule contract)

Number of Awardees:

- Four large businesses
