1. The purpose of the modification is to exercise and fund Option Year 1 (SubCLIN 02A through 02G). Additionally, this modification is adding SubCLIN 02H which is the \( \text{B}(4) \) associated with Option Year 1. Lastly, this modification changes the not-to-exceed ceiling amount from \$6,328,422.40 to \$6,635,857.15.

2. In accordance with FAR 52.217-9, Option to Extend the Term of the Contract (MAR 2000), the contract new period of performance is September 10, 2008 through September 09, 2009. Continued...

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as hereinafter changed, remain unchanged and in full force and effect.

DUNS Number: 127327877+0000

The type of contract for this task order is a hybrid that includes Time and Materials rates, and Firm Fixed Unit Rates.

1. The purpose of this modification is to fund three (3) optional Contract Line Item Numbers (CLINs) on the Base Year period. The three (3) optional CLINs are 1A, 1F, and 1G. This modification also adds the rates on CLIN 0001, which was not included at the time of award. Additionally, this modification is adding SubCLIN 1H which is the Other Direct Cost for funding the three (3) optional CLINs.

The total amount of award: $1,220,000.00. The obligation for this award is shown in box 17(i).
Statement of Work (SOW) for Support Services for the Department of Homeland Security (DHS) Information Security Compliance Program

1. PURPOSE

The Department of Homeland Security (DHS) Information Security Office (ISO) seeks a contractor to support the operational aspects of implementing the annual Information Security Performance Plan and supporting reporting requirements, Federal Information Security Management Act (FISMA), Federal Managers’ Financial Integrity Act (FMFIA), and Federal Financial Management Improvement Act (FFMIA) compliance, and other program support tasks. The contractor shall be responsible for implementing defined, repeatable processes for completing routine activities (e.g., monthly or weekly reporting) and ensuring the accuracy of the data being reported.

The contractor shall be responsible for managing and implementing the support tools necessary to support accomplishment of this Statement of Work (SOW). These tools and resources provide the primary mechanism for data collection and reporting but may be supplemented with on-site visits as necessary to validate data. The current DHS Information Assurance (IA) Compliance System includes:

- TrustedAgent FISMA (TAF) – Provides the annual National Institute of Standards and Technology (NIST) Special Publication (SP) 800-53 self-assessment, centralized Plan of Action and Milestones (POA&M) support, audit report tracking, and Federal Information Security Management Act (FISMA) reporting.
- Risk Management System (RMS) – Provides an enterprise-wide certification and accreditation (C&A) capability.
- Integrated Inventory Database (IID) – Provides a centralized data source for reporting that integrates elements from the previous two tools and other sources as identified by DHS.
- Managed Services/Help Desk – Supports the tools previously mentioned and provide subject matter expertise for the Information Security Compliance Program and assists the ISO with IA Compliance training and educating users.

2. MISSION

The mission of the DHS Information Security Program is to provide the Department a secure and trusted computing environment. Information security is an essential business function, critical to enabling DHS to conduct its operations and deliver service to the public. The DHS information security program provides direct support to the Department’s missions.
Under the leadership of the Chief Information Security Officer (CISO), the DHS Information Security Program supports the Department’s implementation of all applicable regulatory requirements including the Computer Security Act, FISMA, the Clinger-Cohen Act, relevant Office of Management and Budget (OMB) Circulars, Executive Orders, and Homeland Security Presidential Directives (HSPD).

The CISO has established a 5-year plan for improving the overall Information Security at the Department. In support of that 5-year plan, the CISO defines annual Performance Plan metrics and objectives for addressing weaknesses and improving the overall posture of the DHS Information Security Program. This SOW supports the implementation of the annual targets necessary to make progress.

3. BACKGROUND

The ISO currently operates multiple contract vehicles for the collection, validation and reporting of compliance and program related data. In order to streamline this process and integrate the various tasks into a more cohesive approach, the tasks from multiple contract vehicles are consolidated in this SOW.

4. SCOPE

The contractor shall provide assistance, as required by the Government to support the DHS Information Security Office and its mission.

The government reserves the right to add, delete, or modify any or all of the tasks referenced in this SOW based on the current requirements of the Department’s Information Security Office. All tasks, unless otherwise specified, are to be considered as on-going and should not require follow on information at the end of each performance period unless otherwise directed by DHS.

Should the requirements for a task be subject to change, either pursuant to Federal Regulations or Congressional mandate, modifications to the SOW may be necessary and implemented by a modification of the contract.

Tasks

1. Performance Scorecards – The contractor shall generate accurate and timely department-wide and component-specific performance scorecards as defined by the annual DHS Information Security Performance Plan. The scorecards are used for reporting compliance and progress to both the DHS Chief Information Officer (CIO) Council and the DHS Information System Security Board (ISSB) among others. The contractor will deliver the scorecard with not errors no later than the 5th of each month or other times as agreed upon by the government and the contractor. The contractor will correct any errors discovered by the government within 8 hours of notification of the error. Responsiveness and number of errors will be noted in writing in the government’s monthly contractor performance evaluation review (CPER). All scorecard rework resulting from contractor errors will be accomplished at not cost to the government.
2. Information Security Tool Content Management – The contractor shall maintain the DHS IA Compliance System content to ensure that the tools/resources align with the evolving DHS policy, handbooks, guidance, and operations. The contractor will provide a monthly report of changes completed or pending. All changes to policy, handbooks, guidance, and information security operations will be reflected in the DHS IA Compliance content within 5 days of notification on the need for a change in content. The contractor will be evaluated for responsiveness and number of error in writing in the monthly CPER. All content rework resulting from contractor errors will be accomplished at not cost to the government.

3. Compliance Reviews – The contractor shall conduct compliance reviews, e.g. document reviews and on-site visits, to verify the quality and accuracy of data reported to the DHS IA Compliance System by the Components. DHS collected approximately 8,000 documents are part of the DHS Information Security Office activities in Fiscal Year 2006. That number is expected to increase in future years. Compliance review methodologies shall be documented by the contractor and approved by the government. Contractor performance will be evaluated based on the percentage of acceptable/rejected documents reviewed by the team versus the number of documents later found to be unacceptable/acceptable by the government during its quality review. The variance will not exceed 0.5%.

4. Financial Audits Remediation Support – The contractor shall provide technical support to the remediation process, component training, and support for audit response. The contractor shall also support the ISO Program Weakness Remediation process. The contractor shall develop and maintain processes for weakness management.

5. Assist Visits – The contractor shall conduct component and system level assist visits as requested. Assist visits are focused on helping end-users implement specific policy or compliance requirements, such as Certification and Accreditation (C&A) document improvements, and financial and IT security weakness remediation. The contractor and the Government will coordinate to develop schedules and reviews on an on-going basis. Contractor performance will be evaluated on a monthly basis in the CPER based adherence to agreed upon schedule and component feedback. Component feedback will address subject matter expertise of the reviewer and preparation to conduct the review.

6. Subject Matter Expertise – The contractor shall provide subject matter experts (SMEs) to support the DHS IA Compliance System. The SME(s) shall be knowledgeable about the DHS IA Compliance System toolset, the FISMA Reporting process, DHS Information Security Policy, and NIST Risk Management Processes (e.g., NIST SP 800-37 C&A Process; NIST 800-53 and 800-53A security controls). The contractor shall also provide SMEs that are knowledgeable of financial auditing standards and SMEs that are knowledgeable about POA&M processes and management.

7. Help Desk Support – The contractor shall provide DHS with information security analyst(s) to provide training and help desk support in support of the DHS IA
Compliance System. This includes any specific system and database administration support necessary to maintain the DHS IA Compliance System. The contractor shall provide technical support to assist DHS personnel and contractors in the operation and administration of the IA Compliance System and the associated software enhancements, including Tier-2 technical help desk support. Technical support shall be provided through e-mail and phone during business hours, Monday through Friday from 8:30 AM EST to 5:30 PM EST. Contractor performance will be evaluated based on industry standard helpdesk metrics. Contractor will propose and then negotiate with the government a set metrics.

8. Ad-hoc Reporting – The contractor shall provide ad-hoc reporting as requested by the Government to support quick turn-around requirements. The contractor will be evaluated based on timeliness of such reports. Timeliness will be negotiated on a case-by-case basis for each report.

5. PERIOD AND PLACE OF PERFORMANCE

The period of performance shall be for one (1) base year from the date of award notification or notice to proceed and one (1) additional option period of 12 months for a total of 24 months. Option year period of performance is subject to budget constraints, contractor performance, and or needs of the government.

The contractor shall perform the work under this contract at the DHS facility indicated below or at other DHS locations as directed. The Contractor may perform work at the contractor site upon written approval of the COTR.

| Department of Homeland Security |
| Building 1 |
| Nebraska Avenue Complex |
| 3801 Nebraska Avenue, NW |
| Washington, DC 20016 |

6. POINTS OF CONTACT

FINAL v 1.4
5 September 2007
7. SECURITY

The contractor shall be required to comply with all DHS 4300 Policy and Handbooks for personnel and information security. Performance of this work requires the Contractor to gain access to sensitive but unclassified (SBU) and potentially classified information. SBU is unclassified information for official use only.

This task order shall incorporate Section H-12, H-13, H-17, I.2, I.3, I.13, and I.14 of the contractors Project EAGLE contract.

The contractor shall conform to all security requirements contained in 4300 A and B and the applicable security clauses in the Eagle contract:

H. 12, Disclosure of “Official Use Only” Information Safeguards
H.13, Disclosure of Information – Official Use Only
H.17, Contractor’s Employee Identification
I.2, Security Requirements for Unclassified IT Resources (HSAR 3052.204-70)

52.204-2 Security Clause Requirements.
As prescribed in 4.404(a), insert the following clause:
Security Requirements (Aug 1996)
(a) This clause applies to the extent that this contract involves access to information classified “Top Secret.”
(b) The Contractor shall comply with—
(1) The Security Agreement (DD Form 441), including the National Industrial Security Program Operating Manual (DOD 5220.22-M); and
(2) Any revisions to that manual, notice of which has been furnished to the Contractor.
(c) If, subsequent to the date of this contract, the security classification or security requirements under this contract are changed by the Government and if the changes cause an increase or decrease in security costs or otherwise affect any other term or condition of this contract, the contract shall be subject to an equitable adjustment as if the changes were directed under the Changes clause of this contract.
(d) The Contractor agrees to insert terms that conform substantially to the language of this clause, including this paragraph (d) but excluding any reference to the Changes clause of this contract, in all subcontracts under this contract that involve access to classified information.
Implementing Instructions for Compliance with HSAR clause 3052.204-71, “Contractor Employee Access. (Please see attachment 1)

I.13, Qualifications of Contractor Employees (HSAR 3052.237-70)
I.14, Information Technology Systems Access for Contractors (HSAR 3052.237.71)
I.15, Contractor Screening for Unclassified IT Access (HSAR 3052.237-72)

Security Clearance

This task order routinely encompasses exposure to sensitive and non-intelligence classified material and as such requires a security clearance at a Secret level and for select individuals Top Secret. A DoD Contract Security Classification Specification, DD Form 254 is attached. Due to the sensitivity of information, a single scope background investigation will be required for critical personnel.

If there are questions concerning the suitability of a contract employee following such background investigation(s), notification and an opportunity to respond will be provided to the employee. If the employee is found unsuitable, Treasury will inform the Contractor and the Contracting Officer. No Contractor employee may begin duty under this contract without a successful background investigation. DHS will absorb any costs directly related to background investigations of contract personnel.

All Contractor personnel performing on this task order must be United States citizens. DHS will provide the Contractor questionnaire forms for access into certain DHS facilities, as necessary. All forms will be submitted and an approval received by DHS Personnel Security before access to the respective facility will be granted.

(8) Other Special Requirements

Personnel Changes

During the first sixty- (60) days of the task order, the Contractor shall not make any personnel changes unless an individual’s sudden illness, death, or termination of employment necessitates such substitutions. In case of these occurrences, the Contractor shall notify the Contracting Officer and On-site COTR promptly and submit documentation pertaining to the proposed substitution in writing at least fifteen (15) days in advance, and thirty (30) days in advance, if security clearances are to be obtained in advance of the proposed substitution.

The Contractor must provide a detailed explanation of the circumstances causing the proposed substitution. All resumes submitted for each proposed substitution must have qualifications that are equal to or superior to the qualifications of the person being substituted to perform the work under this task order.

The Contracting Officer and On-site COTR shall evaluate the resume of each request to verify the qualifications of every new employee being assigned to this task order.
