Information Technology Sector

16. *May 13, Softpedia* – (International) **Flash Player 17.0.0.188 addresses security holes.** Adobe released updates for Flash Player that fixed 18 vulnerabilities, including 10

memory corruption, heap overflow, integer overflow, type confusion, and use-after-free bugs that could allow an attacker to run arbitrary code on an affected system.

Source: <http://news.softpedia.com/news/Flash-Player-17-0-0-188-Addresses-18-Security-Holes-481046.shtml>

17. *May 13, Softpedia* – (International) **Mozilla Firefox 38 fixes 13 vulnerabilities, 5 are critical.** Mozilla released fixes for 13 vulnerabilities in Firefox version 38, including 5 critical flaws that could be leveraged to execute arbitrary code or read parts of the memory containing sensitive data. The update also added support for Digital Rights Management (DRM), among other improvements.
Source: <http://news.softpedia.com/news/Mozilla-Firefox-38-Fixes-13-Vulnerabilities-5-Are-Critical-481034.shtml>
18. *May 13, Softpedia* – (International) **Adobe rolls out critical update for Reader and Acrobat.** Adobe released new versions for Acrobat and Reader PDF software patching 34 vulnerabilities, 17 of which include use-after-free, heap-based buffer overflow, and buffer overflow to memory corruption bugs that could have allowed an attacker to execute arbitrary code and take control of an affected system.
Source: <http://news.softpedia.com/news/Adobe-Rolls-Out-Critical-Update-for-Reader-and-Acrobat-481014.shtml>
19. *May 13, IDG News Service* – (International) **Microsoft fixes 46 flaws in Windows, IE, Office, other products.** Microsoft released patches addressing 46 vulnerabilities across various products, including 3 critical security bulletins that covered remote code execution flaws in Windows, Internet Explorer, Office, Microsoft .NET Framework, Lync, and Silverlight.
Source: http://www.networkworld.com/article/2922093/microsoft-fixes-46-flaws-in-windows-ie-office-other-products.html#tk.rss_all
20. *May 13, Threatpost* – (International) **“VENOM” flaw in virtualization software could lead to VM escapes, data theft.** Security researchers from CrowdStrike discovered a vulnerability in virtualization platforms in which an attacker could exploit a flaw in the virtual floppy disk controller component of the QEMU open-source virtualization package to escape from a guest virtual machine (VM) to gain code execution on the host in addition to any other VMs running on the affected system. The bug has been dubbed VENOM and affects a variety of virtualization software running on all major operating systems (OS’).

Commercial Facilities Sector

22. *May 13, Springfield Republican* – (Massachusetts) **Blaze guts Chestnut Street condominium, prompts evacuation of 100-plus residents, Springfield Fire Department says.** More than 100 residents were evacuated for several hours from a condominium complex in Springfield, Massachusetts, May 12 due to a fire that began in the living room of a unit.
Source: http://www.masslive.com/news/index.ssf/2015/05/blaze_guts_chestnut_street_con.html
23. *May 13, WUSA 9 Washington D.C.* – (Virginia) **Va. apartments evacuated due to high CO readings.** High carbon monoxide readings in the parking garage of 2 garden apartment buildings in Fairfax County prompted the evacuation of residents from 108 units for more than 3 hours May 12 while the building was aired out. Officials determined that a maintenance crew using gasoline power washers caused the high reading levels of carbon monoxide.
Source: <http://www.wusa9.com/story/news/local/virginia/2015/05/13/co-evacuation-virginia-apartment-buildings/27228339/>
24. *May 12, Chester County Daily Local News* – (Pennsylvania) **Six stores damaged in Downingtown fire.** Six stores and the entire roof of the North Park Plaza strip mall in Downingtown suffered extensive damage due to a May 12 fire that caused more than 150 firefighters from 7 fire companies to respond to the plaza. Surrounding buildings were evacuated for several hours and authorities are investigating the cause of the fire.
Source: <http://www.dailylocal.com/general-news/20150512/six-stores-damaged-in-downingtown-fire>
25. *May 12, U.S. Department of Labor* – (Connecticut) **Forever 21 Retail Inc. store in Connecticut among those endangering employees because of obstructed emergency exit routes.** The U.S. Department of Labor announced May 12 that the Forever 21 retail store at Westfarms Mall in Farmington was cited for placing employees in danger after inspections in 2014 found emergency exits blocked by piles

of store inventory. Proposed fines total \$165,000.
