All,

As you finalize the statement language, you might want to take another look at the article. It has been significantly updated. The updated version further describes NISAC and includes quotes for Bob K.

Bob,

Thanks for sending this around. For those of you I haven't had a chance to speak with, I just want to reiterate how frustrating this article is because not only does it ignore the amazing work NRMC has done the last few months for COVID-19, but the evolution of HITRAC to OCIA to NRMC that has advanced the

CISA mission and which so many of you have played a critical role. If It doesn't seem to be going away,
(b)(5)

I'm extremely angry that former employees feel it's appropriate to bash (b)(6) ublicly just to try and make it seem like we aren't prepared as an agency to do our jobs. (b)(6) re some of our most valued employees and we are grateful for the work they've done and continue to do. I shouldn't have to say that, but seeing your names in B&W is perhaps the most frustrating thing in my career. <u>All</u> of you have done extraordinary work for NPPD and/or CISA in your roles for HITRAC, or OCIA, or NRMC. Hindsight is 20/20 and no one should questions decisions we made in the past.

If you have concerns, please let me know. I may be asking the impossible, but please try to ignore this foolishness. Stay focused on the mission and keeping your families healthy.

Emily N. Early
<u>CISA Chief of Staff</u>

Bob, thank you for including me in this discussion as nobody prior to you reached out. Please keep me posted and let me know if there is anything I need to do.

Thank you,
