SUBJECT: **Quarterly High-Dollar Overpayments Report  
October to December 2020**

Attached is the Department's Quarterly High-Dollar Overpayments report, as required by Section 3(f) of Executive Order 13520, *Reducing Improper Payments*. During the reporting period, there were nine High-Dollar Overpayments identified for the Department of Homeland Security (DHS) programs identified as highly susceptible to improper payments, and thus applicable to high dollar overpayment reporting. Applicable information has been included in this report with regards to why this high-dollar overpayment occurred and the actions underway for the Department to recoup the funds. In addition, this report contains updated information on those high-dollar overpayments reported previously as uncollected.

The Department is committed to eliminating payment error in federal programs and increasing transparency. As responsible stewards of taxpayer dollars, reducing improper payments remains a top priority. We continue to monitor programs and strengthen controls to reduce the instances of improper payments, take steps to mitigate systemic weaknesses, and address specific root causes.

If you have any questions, please contact Alyssa Smiley, Acting Director, Risk Management and Assurance, at [alyssa.smiley@hq.dhs.gov](mailto:alyssa.smiley@hq.dhs.gov).

1) For multiple payments consolidated into one identified quarterly high dollar overpayment to the individual or entity, all payment dates are noted. Payment date set as the PARS Transaction Date for Homeland Security Grant Program (HSGP) payments and as the SMARTLINK Payment Drawdown date for Public Assistance.  
2) As part of the IPIA review, DHS Components review prior fiscal year disbursements for the identified programs. For high dollar overpayments identified through the IPIA review, the reported "date identified" reflects the date upon which FEMA's improper payment testing results under the annual IPIA requirement were verified through the DHS HQ quality review process and extrapolated out as final testing results. Note that updates to testing results were taken by FEMA up until this point in order to allow FEMA programs the most extensive time to gather any outstanding documentation and to ensure the most accurate IPIA testing results.  
3) Days outstanding calculated as the days between when the payment was identified and the current quarter end date.

FEMA	Entity	Farmington Mills	MI	Financial Management Division - Vendor Payments	Notice of potential Debt sent to vendor for resolution of improper transaction. Transaction was improper due to nonsubmission of supporting documentation. The incentive fee for the time period of June 23, 2014 - June 27, 2014, for the vendor was 6% when it should have only received 3%. The contract , under SSPA-3 it states that they must have an error rate of less than 10% to get the 6% incentive payment and therefore would only qualify for a 3% incentive. The error rate for this period was 11%. Thus the total incentive should have been \$54,384.59 not \$108,769.17. The Bill for Collection was sent on March 8, 2018 to FEMA Finance Center by the Contracting Officer. The AON Contractor has put in Appeal and the Notice of Debt Letter. As no repayment has been received by FEMA, the balance has been deferred to Treasury for collection.	November 25, 2014	December 31, 2016	\$108,769.17	\$54,384.59	\$54,384.58	\$0.00	\$54,384.58
