

Long-Range Command and Control Aircraft

April 19, 2021

Fiscal Year 2021 Report to Congress

**Homeland
Security**

United States Coast Guard

Foreword

April 19, 2021

I am pleased to present the following report, “Long-Range Command and Control Aircraft,” which has been prepared by the U.S. Coast Guard.

House Report 116-458 accompanying the Fiscal Year 2021 Department of Homeland Security Appropriations Act (P.L. 116-260) directs the Coast Guard to provide the utilization data of these aircraft, to reassess whether replacement of the older aircraft could be more cost-effective, and to provide added operational capability.

Pursuant to congressional requirements, this report is being provided to the following Members of Congress:

The Honorable Lucille Roybal-Allard
Chairwoman, House Appropriations Subcommittee on Homeland Security

The Honorable Chuck Fleischmann
Ranking Member, House Appropriations Subcommittee on Homeland Security

The Honorable Chris Murphy
Chair, Senate Appropriations Subcommittee on Homeland Security

The Honorable Shelley Moore Capito
Ranking Member, Senate Appropriations Subcommittee on Homeland Security

I am happy to answer any further questions that you may have, or your staff may contact my Senate Liaison Office at (202) 224-2913 or my House Liaison Office at (202) 225-4775.

Sincerely,

Karl L. Schultz
Admiral, U.S. Coast Guard
Commandant

Long-Range Command and Control Aircraft

I. Legislative Language

This document responds to the language set forth in House Report 116-458 accompanying the Fiscal Year (FY) 2021 Department of Homeland Security (DHS) Appropriations Act (P.L. 116-260).

House Report 116-458 states:

Long Range Command and Control Aircraft (LRCCA).—The Coast Guard’s LRCCA fleet includes one owned legacy asset that was procured in 2001 and a newer leased asset. The Committee understands that the Coast Guard currently plans to use funding provided in its fiscal year 2020 appropriation to replace the newer leased asset. Before committing to that approach, the Commandant is directed to reassess whether replacement of the older aircraft could be more cost effective and provide added operational capability. The Committee directs the Coast Guard to provide an updated analysis to the Committee not later than 60 days after the date of enactment of this Act.

In addition, the Coast Guard is directed to provide semi-annual updates to the Committee on the utilization of these aircraft, including operating and maintenance costs; dates when the aircraft are out of service for maintenance, and whether such maintenance was planned or unplanned; and the names and titles of departmental officials and non-departmental individuals traveling on the aircraft, including their dates of travel. The first such update is due not later than 60 days after the date of enactment of this Act and shall include the required information for fiscal year 2020.

II. Report

The U.S. Coast Guard's (USCG) Long-Range Command and Control Aircraft (LRCCA) fleet provides DHS and USCG senior leadership with access to continuous secure communications while traveling, ensuring that they can coordinate operations effectively and can respond to contingencies. USCG has operated command and control aircraft for more than 65 years and currently owns a C-37A, based on a Gulfstream V (CG-01), and leases a C-37B, based on a Gulfstream 550 (CG-02).

The LRCCA are operated to ensure that DHS leadership and USCG's operational commanders are able to address key mission requirements across our international area of responsibility, including reliable access to secure communications suites during principal movements. Similarly, the aircraft provides the capacity to respond quickly to emergent contingency conditions at all times. The two aircraft are sustained as part of the USCG fleet to support "required users," which includes: Secretary of Homeland Security/Acting Secretary of Homeland Security (AS1); Deputy Secretary of Homeland Security/Acting Deputy Secretary of Homeland Security (AS2) or the Senior Official Performing the Duties of the Deputy Secretary; USCG Commandant (CCG); USCG Vice Commandant (VCG); USCG Atlantic Area Commander (LANTAREA); and USCG Pacific Area Commander (PACAREA).

Aircraft Replacement Analysis

The current lease cost for the USCG's C-37B is approximately \$9 million per year, which includes 500 annual flight hours and depot-level maintenance for the aircraft. Approximately half of the lease costs (~\$4.5 million) are for maintenance and operational-related subscriptions and services, with the remainder of the lease costs funding access to the aircraft (time and flight hours). The costs for fuel, unit-level maintenance, and aircrew personnel are the same for the leased and owned aircraft and are contingent on flight hours flown. Assuming a 20-year lifecycle, the cost associated with a \$4.5 million per-year lease totals to \$90 million (not considering inflation). This is comparable to the acquisition cost of a new C-37, which is estimated at \$70 million. On the basis of a 20-year lifecycle, leasing an aircraft is approximately 30 percent more expensive than owning and maintaining an aircraft. This estimation includes costs incurred for any new lease over the 20-year lifecycle, to include aircraft painting; the installation of USCG-specific communications equipment at the beginning of a new lease, which takes the aircraft out of service for up to 6 months while under lease; and removal of this equipment at the end of the lease period. Finally, if an owned aircraft is operated past 20 years, the savings associated with owning the aircraft continue to increase.

Aircraft Operating and Maintenance Costs

Table 1 provides the dates when each aircraft operated by the USCG was out of service for maintenance and provides whether such maintenance was planned or unplanned during FY 2020. Table 2 provides the operating costs for each aircraft during FY 2020.

Table 1: Planned and Unplanned Maintenance Service Dates

	Maintenance Out-of-Service Dates		Unplanned (U) Planned (P)
	Start	End	
C-37A (Owned)	12-Oct-2019	16-Oct-2019	U
	02-Dec-2019	12-May-2020	P ¹
C-37B (Leased)	30-Jan-2020	01-Feb-2020	U
	15-May-2020	08-Jun-2020	P

Table 2: Aircraft Operating Costs

Operating and Maintenance Costs	C-37A (Owned) 303.2 hours flown	C-37B (Leased) 473.1 hours flown
Lease	N/A	\$8,990,218
Fuel	\$691,971	\$1,079,721
Flight Crew	\$109,152	\$170,316
Unit-Level Maintenance Labor	\$609,398	\$665,296
Maintenance Costs	\$3,484,746	N/A ²
Communications Contract	\$1,440,000	\$1,440,000
Total Costs	\$6,335,267	\$12,345,551

Aircraft Utilization Data

Table 3 (C-37A) and Table 4 (C-37B) provide names, titles, and dates of travel of departmental officials and nondepartmental individuals traveling on the aircraft during FY 2020. CCG, VCG, Coast Guard Deputy Commandant for Operations (DCO), and Master Chief Petty Officer of the Coast Guard (MCPO-CG) spousal travel was conducted as official business transportation when the spouse was carrying out duties as an Ombudsman-at-Large, and nonofficial reimbursable transportation at all other times. All AS1 spousal and dependent travel was conducted as nonofficial reimbursable transportation.

Table 3: C-37A Traveler Information

¹ Gulfstream GV aircraft have a known issue with corrosion in the horizontal stabilizer. During a routine inspection, this corrosion was found on CG-37A and the aircraft was taken in for repair, covered under warranty by the original equipment manufacturer.

² Depot and contract maintenance costs are covered under the lease.
